American Railroad Journal.

New York Saturday, January 7, 1871.

The Progress of Railway Construction in Arkansas.

Mr. D. B. SICKELS, Financial Agent of Arkansas, having recently returned from a visit to that State, furnishes us with the following interesting information respecting the progress of railway construction there:

The several lines of railway now in course of construction in the State of Arkansas are being pushed ahead with extraordinary vigor. The Memphis and Little Rock Railroad, which when completed will be 130 miles in length, has remained in an unfinished condition for several years; but a new contract having been recently made with parties possessing abundant means, its completion by the 15th of February is now regarded as absolutely certain. Over six hundred men are at work on the unfinished portion of the route between Brinkley and the White River, and all the iron necessary for the seven and a half miles (all that remains to connect the two divisions,) has just been landed at Hopefield, opposite to Memphis. The completion of the road will be an occassion of great rejoicing to the citizens of Little Rock, as it will practically open that long "pent up Utica," to eastern trade and reliable communication with important towns on the Mississippi.

The Little Rock and Ft. Smith Railroad, running up the Arkansas Valley from Huntersville to Lewisburgh, is in an encouraging state of progress. Over ninety miles have been graded and made ready for the ties, and the track is being laid as rapidly as the iron is furnished. Fifty miles of track have been laid and trains are now running regularly to and from Lewisburg. The fifty miles beyond that place will be completed by the first day of May next if the material is promptly supplied. The road is in splendid condition and the management of the work of construction could scarcely be improved. The State authorities are much gratified with the condition and progress of the road, and all the requirements of the law have been faithfully complied with. An inspection of the work has recently been made by a distinguished civil engineer, and he pronounced it superior to that of any recently constructed road in the Southwest.

The company has recently been re-organized, and the Boston interest has secured the absolute control of the old corporation together with all its right, franchises, &c., &c. At a meeting of the Board of Directors held in Little Rock a few weeks ago, Mr. John C. Pratt was unanimously elected President of the company, and Mr. Edward Adams Treasurer.

When completed the financial condition of the company will be as follows, viz:

150 miles railway valued at	$3,500,000
1,000,000 acres of land valued at	5,000,000
1,500,000 State bonds valued at	1,500,000
Total	$10,000,000

The Little Rock, Pine Bluff and New Orleans Railroad was commenced last July, and up to the present advices sixty-five miles of road-bed had been graded, bridged and made ready for the ties. Eighteen miles of track have already been laid and sufficient iron has been purchased and shipped to New Orleans to complete the road to Pine Bluff. It is expected that the trains will be running from Chicora on the Mississippi to Pine Bluff on the Arkansas by the first of March, if the materials are furnished as rapidly as promised.

When completed this will be one of the most valuable and best paying roads in the State, as it will receive all the freights now conveyed by boats on the lower Arkansas river, and a large local business besides.

The Mississippi, Ouachita and Red River road extending from Eunice on the Mississippi to a point near Fulton, a distance of 150 miles, is also being rapidly pushed ahead by the contractors. About seventy miles of road have been graded and sixteen miles of track laid, and trains are now running to a point within three miles of Monticello. The iron for seventy miles of the road has been purchased, and is now arriving at New Orleans for transhipment up the river. This road traverses the centre of the State and will drain the richest counties in that section. The financial condition of the road is excellent, and its resources available for construction are very large, having large land grants, State aid and County subscriptions. It will probably be completed in eighteen months. The entire amount of its debt when finished will not exceed $20,000 per mile.

The Cairo and Fulton Railroad, which will run from some point on the boundary line between the States of Missouri and Arkansas, not yet fixed, to Fulton on the Red River, running in a Northeasterly and Southwesterly direction across the State for a distance of 300 miles.

Twenty miles of track have recently been laid north of Little Rock, and work is now being done on the next twenty mile section. The grading is of a very light character, consisting of embankments of 2 or 3 feet in height, and the masonry consists of only a few stone culverts. The sections of work beyond the 40 mile point is of a somewhat different character but not materially more expensive.

The company has an enormous land grant from Congress, amounting to 6,400 acres per mile, and extending 20 miles on either side of the road. The lands are among the best in the State, and worth from $5 to $10 per acre.

The company does not intend to avail itself of the provisions of the Act of July, 1868, granting aid to railways; but will rely solely upon the

proceeds of the sales of its Land Bonds, and its shares for its construction and equipment as per contract with the Boston capitalists.

The road when completed will be the most important trunk line in the State and cannot fail eventually to become as valuable as the Illinois Central Railway.

On the Use of Cast Iron in Bridge Construction.

EDITOR AMERICAN RAILROAD JOURNAL:

DEAR SIR:—The correctness of my views as to the dangerous use of cast iron in bridge construction has been confirmed in a striking manner by the breaking down of the cast iron draw over Newark Bay, on the Central Railroad of New Jersey on the 15th of December last.

This draw was of massive proportions, and strong—for cast iron. Yet it has been broken once or twice before by shocks from the spars of passing vessels, and has now been destroyed by a locomotive running off the track while coming upon it.

It may be said that no form of bridge construction, whether of wrought or cast iron could withstand the momentum of a locomotive coming at full speed. This may be true, and yet prudent persons always like to diminish risks as much as possible. A well designed bridge truss of wrought iron, from its elasticity and toughness would recover from a blow which would shiver like glass, a rigid and brittle post of cast iron. This needs no demonstration; and no rhetoric on the part of those engineers who are wedded to the use of cast iron can remove from the minds of the public the feeling of insecurity which one such disaster as this produces.

But instead of dwelling upon such evident truths, I wish to call the attention of Railway men to the insecure mode of fastening pivot draw-bridges which comes from the use of wedges. It is impossible to thrust wedges under the ends of a draw with force enough to raise its ends. Unless both ends are raised, by some means, so as to relieve the upper chord of tension over the center pier, and break the continuity of spans, the effect of a loaded train coming upon one span will be to raise the opposite end of the draw clear of its bearings, and derange any ordinary system of fastenings. There being nothing to secure the tracks in line, an accident is sure to happen sooner or later.

This raising of the opposite end takes place with the Keystone Co's draws at Kansas City and at Newark, and was probably the primary cause of the engine leaving the track and destroying Lowthorp's draw on the Central New Jersey railroad.

The Keystone Co., taught by experience, are about placing hydraulic jacks to raise the ends of the Kansas City draw, and also the draw which they are building at Keokuk.

But there is a still better plan which has been in successful operation for the last two years in the 360 ft. iron draw at Quincy, Ill., built under my superintendence as Chief Engineer. At the Quincy draw there is a three-fold security against any derangement in the gauge, level or line of rails, at that critical point where the fixed and movable tracks join.

First, There are pairs of cams under each end of the draw which raise the ends about an inch, and hold it in place by the gravity of 75 tons on each end, equal to 150 tons in all. This entirely prevents any motion being transmitted from one span to the other.

Second, The vertical shaft which drives the screw that works the cams, is a round bar 2¾ in. diam., which when the draw shuts, descends into an iron box in the masonry pier, and forms a rock that can yield to no blow. As the box is conical, this motion centres the bridge so as to bring the tracks exactly in line.

Third, The rails on the draw-bridge instead of ending with the draw, project about six inches upon the fixed pier, and are received in heavy chairs which prevent any side or vertical motion, and do away entirely with that unpleasant jar generally felt when coming upon draw-bridges.

This makes it necessary to have an arrangement for raising the track at each end of the draw before opening it. It is accomplished by very simple machinery, and the whole is worked by the engine which gives motion to the draw.

The same arrangement, with some improved details, will be adopted in the new iron draw, now building by my firm, Clarke, Reeves & Co., for the Hudson River Bridge Co. at Albany.

As this is a matter which involves the safety of the numberless passengers who are daily crossing draw-bridges, I have taken the liberty to write somewhat at length and in detail, at the risk of being found tedious.

Your obedient servant, T. C. CLARKE.

Philadelphia, Dec. 27, 1870.

The National Railway.

The National Railway, the new air-line road between Philadelphia and New York, appears to be a determined fact. The contract for the construction of the entire line of road has been awarded to Messrs. James Moore, Sidney Dillon & Co., the well-known constructors of the Union Pacific Railroad, and the work is to be immediately commenced and vigorously prosecuted. The contractors are men of high responsibility and great energy and experience, and there can be no doubt that they will drive their contract upon the same principle of rapid construction that worked so well on their great trans-continental enterprise.

Nearly the entire right of way for four tracks, from Philadelphia to Newark, has been already secured, and measures are in progress for securing the remainder of the distance.

The Nrtional Railway Company has kept its counsels very closely, and the announcement that the contract for constructing the road is actually awarded and is to be immediately executed will take the public by surprise. The Company has taken the building of the Cambria Iron Company, in Fourth street, below Walnut street, where its offices will be opened on the 1st of January.

The following is a correct list of the present management of the National Railway Company: President, Henry Lewis; Vice President, Henry M. Hamilton; Secretary, Robert R. Corson; Treasurer, Jacob Riegel; Directors, Charles Gibbons, Charles Smith, Matthew Baird, Robert Cabeen, Coffin Colket, Charles M. Dupuy, Samuel K. Wilson, Trenton; A. S. Livingston, Trenton; I. B. Culver, Jersey City; A. B. Clark, New York. —*Phila. Bulletin, Dec. 24.*

☞ The Western and Atlantic Railroad has been leased for twenty years, at a monthly rental of $25,000 to a company comprising twenty-three prominent railroad managers, representing fifteen millions of capital. They give as security other railroads, the aggregate capital of which exceeds twenty millions. Hon. Joseph E. Brown has been elected President of the new company.

Railroads in the United States.

There is no central bureau in the United States having cognizance of the great railroad interests of the country. Only a few of the larger States demand any returns from the companies owning works, and these are neither uniform nor as full and definite as they might be. In this respect the United States stands alone, every other country of the world demanding complete historical and statistical details of works projected, in progress, or in operation at annual periods. It would be well for the companies and the public that this defect in our system (or want of system) should be remedied by the establishment of a central office the duty of which should be the collection, arrangement and elaboration of all returns which a stringent law might call for.

The want of such a central point of information makes it a very difficult matter for a single individual (notwithstanding he may have accumulations of material covering the whole period of American railroad history) to bring together the details of the hundreds of railroads now existing, or even to state their length and cost. Our annual attempts to do the latter have been more or less imperfect, and we have always told our readers that our summaries are only approximate. With the rapid increase of companies and enterprises the difficulty here complained of is increased; and so our tables become less and less reliable. We have done our best in the matter, however, and have come as near the truth as our means would allow of.

With these few remarks we introduce our annual statements: *first*, in the aggregates of States and Territories, and *second*, in detail or by separate works.

The following tabulation shows the distribution of mileage and cost of railroads in the several States and Territories:

States and Territories.	—Length in Miles.— Total.	Open.	Cost of road & equipment.
Maine.....	972.01	810.31	$26,241,901
New Hamp....	987.29	734.75	23,647,935
Vermont.....	658.41	618.41	32,488,594
Massachusetts.	1,739.02	1,478.47	77,496,880

RECAPITULATION.

N. E. States..	5,470.40	4,506.09	$199,658,090
Middle States.	15,078.78	11,300.62	680,589,976
S. E. States..	8,186.55	6,155.70	174,519,582
Gulf & S. W. States	12,699.29	6,201.25	217,348,686
Interior, E. of Mississippi.	24,614.08	15,547.35	701,700,029
Interior, W. of Mississippi.	19,662.67	8,611.38	413,785,164
Pacific States	8,259.10	2,113.10	185,724,582
Grand Total.	93,970.82	54,435.49	$2,573,526,109

In the following table is shown the increased mileage and cost of railroads in the several sections during the year 1870:

	—Miles of Road— Projected.	Opened.	Cost of Road & equipment.
North East....	594.04	231.73	$9,853,292
Middle East...	531.54	509.53	21,971,451
South East....	486.69	318.22	10,519,325
Gulf & S. West.	2,125.36	907.22	36,879,602
Inter'r E.Mis.	3,409.71	1,449.05	58,401,588
Inter'r W.Mis.	6,421.10	1,781.05	66,416,600
Pacific	2,087.00	428.00	25,874,582
Total inc...	15,605.44	5,574.80	$224,916,390

Though this increase is less than in 1869 by 1,018.57 miles the results of the year, considering the draw-backs in consequence of the Franco Russian war, are eminently satisfactory, being an increase in mileage of 11.41 per cent, and in cost of 9.58 per cent. The average cost per mile of new road is $40,345. This is by no means an extravagant estimate, and is probably as nearly correct as can be ascertained. The largest increase has been in the States of Illinois, Iowa, Missouri and Kansas, where railroad construction has been stimulated to the utmost by town and county subscriptions in the form of bonds. In Alabama and Georgia the companies building railroads have been encouraged by State subsidies. The same encouragement has been granted in North Carolina, but in that State with little advantage. And yet with all the rapid development, especially in the great interior States, we are somewhat disappointed in the results exhibited in our survey. So much work had been planned, commenced and carried on, that a larger increase of mileage might reasonably have been anticipated. The difficulties in Europe, however, breaking out suddenly in the middle of the year, closed foreign markets against American bonds, and made it impossible for companies in general to negotiate their paper or to carry forward intended or progressing works. Had peace been maintained we doubt not but that at least 10,000 miles of road would have been the compliment of the year 1870. The average cost of railroads in the United States, including the great overland lines which cost more than $100,000 per mile or about 10 per cent. of the total cost of railroads is $47,277 per mile. But few of the great trunk roads have cost less than $80,000 to $100,000 per mile; while in the South the cost of railroad building, notably in the Atlantic States, has not exceeded $20,000 to $25,000 per mile.

The progress of railroad construction in the United States since 1827, in which year the Granite Railroad at Quincy, Mass., was inaugurated to the present time is shown in the following table:

Year.	Miles open.	Yearly Increase.	Year.	Miles open.	Yearly Increase.
1827..	3		1849....	6,350	668
1828..	8		1850....	7,476	1,125
1829..	28	25	1851....	8,589	1,114
1830..	41	13	1852....	11,027	2,438
1831..	54	13	1853....	13,497	2,470
1832..	131	77	1854....	15,672	2,175
1833..	576	445	1855....	17,398	1,726
1834..	762	186	1856....	19,251	1,853
1835..	918	156	1857....	22,625	3,374
1836..	1,102	184	1858....	25,090	2,465
1837..	1,431	329	1859....	26,755	1,665
1838..	1,843	412	1860....	28,771	2,016
1839..	2,220	477	1861....	30,593	1,822
1840..	2,797	577	1862....	31,769	1,176
1841..	3,319	522	1863....	32,471	702
1842..	3,877	558	1864....	33,860	1,389
1843..	4,174	297	1865....	34,442	582
1844..	4,311	137	1866....	35,351	909
1845..	4,522	211	1867....	36,896	1,545
1846..	4,870	348	1868....	38,822	1,926
1847..	5,336	466	1869....	42,272	3,450
1848..	5,682	346	1870....	48,860	6,588
1871			**54,435,**	increase	5,574.

These figures show a very rapid progress. Since 1860 one-half of the present total has been constructed, and this total is equal to all the railroads of all other parts of the world in the aggregate. It is longer than the circumference of this earth. It is true that most of the railroads in Europe are furnished with two or more tracks, while in this country not more than 25 per cent. of the lines are so furnished. But in most instances these additional tracks are not required and hence we find them only on the great trunk lines, such as the Erie, New York Central and Pennsylvania, and their immediate connections East and West. This however necessitates a larger measure of turnouts, sidings, &c., which may be reckoned at 10 per cent. of the total length. Thus in estimating the total equivalent single track in use we must add 35 per cent., which makes an aggregate of 73,487 miles, and to this sum must be added about 5,000 miles of city passenger railroads, one-half of which are double-tracked; and together these aggregate a length of more than 80,000 miles of equivalent single track.

With regard to the future of railroads. With the abundance of money now in the country and its aggregation in comparatively few hands a great deal can be economically accomplished. In addition to this favorable position, peace once re-established and confidence restored, the surplus accumulations of Europe will again be at our service. The means are thus assured, and with the wonted energy of our countrymen the objective will also be attained. Looking to what is now on hand and to that suspended from circumstances of but a temporary nature, we are assured that most of the great works, projected or in progress, will be carried to completion. With moderately favoring conditions, indeed, we may without accounting ourselves prophetic, calculate that by the close of another year our completed railroads will have an extension of at least 60,000 miles. The country is now awake to the value of the railroad as the true developer of industrial progress and wealth, and hence we may expect a cumulative rate of increase in these modern highways to national development. "Progress," as we said in our last year's summary, "leads but to new demands and new enterprises." This sentiment is of universal application.

Debt and Resources of Arkansas.

The State of Arkansas, as will be seen by the notice issued by Hon. HENRY PAGE, State Treasurer, which appears in our columns, will pay with her usual promptness the semi-annual interest due on her six per cent. Funded Debt Bonds on and after January 1st, 1871, at the Union Trust Company in this city. The total amount of the State Debt, including the bonds recently issued in aid of railroads recently constructed, will not exceed five millions of dollars. The amount of taxes collected annually, according to the Treasurer's report, is above one million, and the taxable value of property will exceed this year $110,000,000. With such abundant resources and the rapid increase of her population and the development of her railroad and other material interests, there should not be any question as to her ability to pay her debts.

☞ A contract has been concluded between Mr. A. T. Stewart and the Flushing and North Side R. R. Co. for the construction of the railroad between New York and Hempstead Plains. The route selected commences at or near the Main-street depot, Flushing, running easterly until it strikes the western limits of Mr. Stewart's Hempstead purchase, near Hyde Park, from thence running through the Plains to the eastern limits near Farmingdale. The road will be commenced immediately, and is to be completed by the 4th day of July next. The road will be built, equipped and operated by the Flushing and North Side R. R. Co.

☞ The total number of vessels arriving at Philadelphia in 1870 was 86,315, of which 881 were foreign and 85,434 coastwise. In 1869 the total number was 41,179, of which 946 were foreign and 40,233 coastwise. The class of vessels arriving during 1870 were as follows: Foreign ships, 57; barks, 289; brigs, 305; schooners, 260, and steamers, 20. Coastwise: Ships, 4; barks, 22; brigs, 96; schooners, 7,936; sloops, 5,588; steamers, 3,854; barges, 7,809; boats, 10,623.

☞ The exports of petroleum from Philadelphia to foreign ports in 1870 amounted to 48,955,626 gallons, against 33,022,011 gallons in 1869—an increase of 15,928,615 gallons.

☞ Mr. W. S. Wilson, of Philadelphia, has been appointed Purchasing Agent of the Philadelphia and Reading R. R. Co.

☞ H. J. Kimball has been elected President of the Brunswick and Albany Railroad.

Indebtedness of Southern Railroads.

From the report of the Quartermaster General for the past year a few facts of interest regarding the indebtedness of Southern railroad companies to the government may be taken. On the opening of the last fiscal year, July 1, 1869, there was due the United States from railroad companies which purchased railway material and rolling stock under the provisions of Executive orders of August and October, 1865, $4,704,650 72. During that fiscal year, ending June 30, 1870, interest accrued and expenses incurred in prosecution of suits amount to $307,692 41. Payments have been made of $365,820 45; leaving unpaid June 30, 1870, $4,646,522 68, which reduces the debt during the year $58,128 04. In addition to the amount received accounts were under examination amounting to $26,175 74, exclusive of a doubtful account of the Mobile and Ohio Railroad Company, amounting to $52,266 06, which, when finally adjusted, will further reduce the debt.

Two companies, the New Orleans, Opelousas and Great Western, and the Western North Carolina, discharged their indebtedness during the year. Other companies have materially reduced their indebtedness, and to such an extent as to justify the belief that they will entirely discharge it during the fiscal year ending the 30th of June next.

The Quartermaster General gives a detailed account of the present position of suits pending against receivers and railroad companies, and sums up the exact state of indebtedness of all the companies to the government in the following carefully prepared statement:

Alexandria, Loudoun and Hampshire—Balance principal unpaid July 1, 1870, $16,597 21; total principal, interest, and expenses unpaid July 1, 1870, $16,763 17; terms of payment: due June 30, 1868; $5000 payable monthly in money.

Atlantic and North Carolina—Balance principal unpaid July 1, 1870, $4,667 84; total principal, interest, and expenses unpaid July 1, 1870, $4,695,85; terms of payment: due November 24, 1869; transportation accounts on file sufficient to liquidate the debt.

Alabama and Florida—Balance principal unpaid July 1, 1870, $12,182 12; total principal, interest, and expenses unpaid July 1, 1870, $12,182 12; transportation and postal service applied to liquidation of debt.

Alabama and Chattanooga—Balance principal unpaid July 1, 1870, $19,499 08; total principal, interest, and expenses unpaid July 1, 1870, $19,499 08; terms of payment: $2,000 payable monthly in money; company to be credited postal and transportation service.

East Tennessee and Georgia—Balance principal unpaid July 1, 1870, $350,447 58; total principal, interest, and expenses unpaid July 1, 1870, $371,740 21; terms of payment: interest payable monthly in money; company to be credited postal and transportation service; suit pending.

East Tennessee and Virginia—Balance principal unpaid July 1, 1870, $249,228 81; total principal, interest and expenses unpaid July 1, 1870, $256,497 44; terms of payment: due January 4, 1870; suit pending.

Edgefield and Kentucky—Balance principal unpaid July 1, 1870, $114,772 86; total principal, interest, and expenses unpaid July 1, 1870, $152,502 02; terms of payment: due October 31, 1869; suit pending.

Indianola—Balance principal unpaid July 1, 1870, $15,000 00; total principal, interest, and expenses unpaid July 1, 1870, $15,000 00. Terms of payment: Payable in transportation service.

Knoxville and Kentucky—Balance principal unpaid July 1, 1870, $9,644,89; total principal, interest and expenses unpaid July, 1, 1870, $9,806 57. Terms of payment: Due August 20, 1869.

McMinnville and Manchester—Balance principal unpaid July 1, 1870, $46,508 54; total principal, interest and expenses unpaid July 1, 1870, $62,342 66. Terms of payment: Due July 1, 1869; suit pending.

Mississippi, Gainesville and Tuscaloosa—Balance principal unpaid July 1, 1870, $33 476 39; total principal, interest and expenses unpaid July 1, 1870, $37,406 75. Terms of payment: Due August 31, 1869.

Macon and Brunswick—Balance principal unpaid July 1, 1870, $3,855,21; total principal, interest and expenses unpaid July 1, 1870, $3,960 06. Terms of payment: Due February 21, 1869.

Mobile and Ohio—Balance principal unpaid July 1, 1870, $74,269 05; total principal, interest and expenses unpaid July 1, 1870, $76,244 60. Terms of payment: Interest and $3,000 payable monthly in money; company to be credited postal and transportation service.

Mississippi and Tennessee—Balance principal unpaid July 1, 1870, $29,128 18; total principal, interest and expenses unpaid July 1, 1870, $29,826 20. Terms of payment: Payment of installments in money suspended until November 1, 1870; letter of Secretary of War, June 22, 1870.

Memphis, Clarksville and Louisville—Balance principal unpaid July 1, 1870, $336,982 36; total principal, interest and expenses unpaid July 1, 1870, $420,599 33. Terms of payment: Due October 31, 1869; suit pending.

Memphis and Ohio—Balance principal unpaid July 1, 1870, $12,610 02; total principal, interest and expenses unpaid July 1, 1870, $12,723 55. Terms of payment: Due February 25, 1869.

Memphis and Little Rock—Balance principal unpaid July 1, 1870, $81,851 96; total principal, interest and expenses unpaid July 1, 1870, $81,840,07. Terms of payment: Interest and $1,000 payable monthly in money; company to be credited postal and transportation service.

Nashville and Chattanooga—Balance principal unpaid July 1, 1870, $1,474,206 55; total principal, interest and expenses unpaid July 1, 1870, $1,764,171 45. Terms of payment: Net earnings payable monthly; suit pending.

Nashville and Northwestern—Balance principal unpaid July 1, 1870, $521,192 58; total principal, interest and expenses unpaid July 1, 1870, $663,698 06. Terms of payment: Due November 30, 1868; suit pending.

Nashville and Decatur—Balance principal unpaid July 1, 1870, $280,820,10; total principal, interest and expenses unpaid July 1, 1870, $300,840 85; terms of payment: interest and installments payable monthly.

New Orleans and Ohio—Balance principal unpaid July 1, 1870, $27,961,19; total principal, interest and expenses unpaid July 1, 1870, $32,996 13; terms of payment: due; suit pending.

Pacific Railroad of Missouri—Balance principal unpaid July 1, 1870, $20,774 20; total principal, interest and expenses unpaid July 1, 1870, $20,774 20; terms of payment: payable in transportation service; one-half to be applied.

Southwest Branch Pacific Railroad of Missouri—Balance principal unpaid July 1, 1870, $57,115 24: total principal, interest and expenses unpaid July 1, 1870, $57,115 24.

Selma and Meridan—Balance principal unpaid July 1, 1870, $23,758 48; total principal, interest and expenses unpaid July 1, 1870, $24,081 60; terms of payment: interest and $500 payable monthly in money; company to be credited postal and transportation service.

Selma, Rome and Dalton—Balance principal unpaid July 1, 1870, $147,156 33; total principal, interest and expenses unpaid July 1, 1870, $149,089 93; terms of payment: due March 31, 1870.

San Antonio and Mexican Gulf—Balance principal unpaid July 1, 1870, $47,110 68; total principal, interest and expenses unpaid July 1, 1870, $50,504 43; terms of payment: to be paid by Messrs. Morgan and McComb in installments of $5,500, commencing July 1, 1870.

Washington, Alexandria and Georgetown—Balance principal unpaid July 1, 1870, $217 61; total principal, interest and expenses unpaid July 1, 1870, $217 61; terms of payment: payable in transportation service.

Grand total—Balance principal unpaid July 1, 1870, $4,010,388 01. Principal, interest and expenses unpaid July 1, 1870, $4,646,522 68.

The following named companies have discharged their entire indebtedness to the government: Richmond, Fredericksburg and Potomac, Georgia Railroad and Banking Company, Southwestern, Macon and Western, South Carolina, Muscogee, Petersburg, Memphis and Charleston, Mobile and Great Northern, New Orleans, Jackson and Great Northern, Mississippi Central, Virginia and Tennessee, Montgomery and West Point, Virginia Central, Rome, Western and Atlantic, Orange and Alexandria, Manassas Gap, Wilmington and Weldon, Alabama and Florida, New Orleans, Opelousas and Great Western, Norfolk and Petersburg, Vicksburg and Meridan,

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal

Saturday, January 7, 1871.

Stock Exchange and Money Market.

Money has been quite active, especially on call, during the past fortnight, and rates have been working almost uniformly against the borrowing interest. The supply has been on a restricted scale, partly owing to speculative manipulations, partly to the extensive preparations for the January interest and dividend disbursements, and partly to the outflow of currency to the West and Southwest. The closing negotiations in a temporary form were on the basis of the full legal rate of seven per cent. currency to even the Government houses; and as high as seven per cent. gold to the Stock Exchange firms. Mercantile credits have been comparatively steady at from 7@9 per cent. per annum, for strictly prime to good names, with a moderate business in notes. The City banks last week lost half a million of deposits, and nearly 1½ millions of legal tender notes. They added nearly 2½ millions to their specie reserve. The loan and discount averages were reduced 1⅜ millions.

The Treasury Department in its official programme for January, proposes to sell four millions of Gold, during the month, as follows: Thursday, January 5, one million; Thursday, January 12, one million; Thursday, January 19, one million; Thursday, January 26, one million. And to buy in six millions of Five Twenties, as follows: Wednesday, January 4, two millions; Wednesday, January 11, one million; Wednesday, January 18, two millions; Wednesday, January 25, one million.

Washington dispatches of Wednesday made the coin reserve of the Treasury Department on that day $107,802,281 including $26,149,000 represented by outstanding coin certificates, and the currency balance, $30,284,291.

The specie reserve of the city banks according to the latest return is $20,828,846, against $20,736,122 same time last year. The city bank deposits are now $188,223,995, against $180,490,445 week ending Jan. 2, 1870. The legal tender reserve amounts to $45,245,358, against $48,896,421 same time last year. The circulation now stands at $32,153,514, against $24,879,609 same time last year. The loans are now $263,417,418, against $259,090,057 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $93,538,596 a day, against a daily average of $104,171,420 the preceding week. The current week's exchanges average about 112 millions a day. The city banks, last week reported a gain of $2,489,000 of specie, with a loss of $524,759 of deposits, and $1,494,330 of legal tender notes. They reduced their loans $1,393,711; and their circulation, $29,469.

The city bank exchanges on Wednesday were 109⅞ millions.

National Bank notes to the amount of $249,520 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $337,916,618 against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $32,949,769 leaving, with the existing 1,612 banks, (having an aggregate capital of $430,299,301,) an actual circulation at this date, of $304,966,849. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $346,288,700; and for the public deposits, $15,819,500—making a total of $362,108,200. The Treasury Department last week redeemed and destroyed $477,100 of worn and mutilated fractional currency, and issued $760,000 of new.

The cash balance in the Treasury Department at the close of business on Monday, was $30,284,291 in currency, and $107,802,280 in coin, including $26,149,000 in certificates.

Government disbursed, last week, through the local office, $5,467,000 gold, in redemption of the matured Five per cent. bonds of 1871.

The U. S. Sub-Treasury receipts, week ending with Dec. 31, were $9,644,016 in coin, (including $1,608,000 from customs duties,) and $3,582,304 in currency; payments, $4,080,485 in coin, (including $5,625,000 of coin interest,) and $5,435,521 in currency; balance at the close of the week, included $66,684,459, of coin, against $61,070,878

the preceding Saturday, and $10,245,936 of currency, against $12,099,153 at the close of the preceding week. The business of the Office on the first two business days of the current week, was as follows. On Tuesday, receipts, $1,301,854 in coin, (including $441,117 from customs,) and $910,738 in currency; payments $6,263,409 of coin (including $6,208,743 of coin interest), and $1,347,736, of currency. On Wednesday, receipts, $1,376,597 in coin (including $655,000 from customs), and $223,245 in currency; payments, $1,295,587 in coin (including $700,000 of coin interest) and $1,744,509 of currency. The balance at the close of business on Wednesday included $8,287,675 of currency, and $61,803,965 of coin, against a balance a fortnight previous of $12,885,630 currency, and $60,890,676 coin.

The aggregate receipts of the U. S. Sub-Treasury in December were $57,088,358, including $7,992,817 from customs; aggregate payments, $45,698,064, including $3,576,110 of coin interest.

The U. S. Sub-Treasurer issued in December $11,479,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $1,499,259 of coin certificates, received for customs.

Government revenues yielded moderately, during the fortnight. The excises during the past week yielded 2½ millions; customs at the port of New York, $1,612,259, and at the outports about $550,000 (in coin) more, making the grand total income for the week equal to about $4,716,225 in currency. The income of the Government, from excises, since July 1, 1870, has been about 83⅛ millions.

The customs revenue on Wednesday was $655,000. The coin interest disbursements at the Sub-Treasury were $700,000.

The Gold speculation has been less confident, and under a freer offering of gold, the price has been less firm, receding from 111⅛ to 110⅜, and closing on Wednesday at 110⅛. There has been a light custom and export inquiry noted. On Thursday, Government sold a million of Gold at the market rates.

The export drain was $464,303 week ending with December 31, against $787,970, same week preceding year. The shipments in all 1870 were $58,689,171, against $32,108,448 in 1869; $70,841,599 in 1868; $51,801,948 in 1867; $62,553,700 in 1866; and $30,003,683 in 1865. The exchanges at the Gold Exchange Bank, which were 23¾ millions on Friday, of last week, were 30⅜ millions on Tuesday of this week, and 27¼ millions on Wednesday.

Commissioner Delano, of the Internal Revenue Office, reports officially the receipts from excises, during the fiscal year, which ended with June 30th, 1870, at $185,235,867 97, or an excess, over previous estimates, of $10,235,867 97. Beyond the estimate, this aggregate includes the sums refunded for taxes illegally assessed and collected, amounting to $186,809 81, as well as the amount of commissions of Collectors. Drawbacks have only been allowed on general merchandise, under section 171, act of June 30, 1864, limited by the act of March 31, 1868, to ale and patent medicines, amounting to $5,838 55. The amount allowed for the same for 1869 was $377,411 31. The drawback on rum and alcohol is not considered in this bureau. The total receipts for the fiscal year 1870 are $185,235,867 97. The total receipts for the fiscal year 1869 were $160,039,344 29; showing a net gain of $25,196,523 68.

The customs demand for Gold last week, averaged $321,600 a day; thus far, this week, it has averaged $533,000 a day, or equal to a weekly aggregate of $2,665,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $31,061; and in all 1870, $11,581,771, against $14,918,725 in 1869. The total customs revenue of the Government, in coin, at this port, in 1870, was $139,703,579, against $129,603,460 in 1869.

The exports of specie, from this port, last week, were $464,303 against $788,970 same week last year; and in all 1870, $58,689,711, against $32,108,448 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $5,625,000; and in all 1870, $86,671,676 against $90,352,669 in 1869.

The customs revenue at the port of San Francisco, from Jan. 1 to Dec. 18th, was $8,017,000, against $8,611,000 same time in 1869.

The specie exports by steamer and railway, from San Francisco, from Jan. to Dec. 8th, 1870, were $32,450,841, against $37,073,051 same time in 1869.

Foreign exchange has been in moderate supply and fair request, closing rather more firmly. Bankers' sixty day bills on London closed on Wednesday at 108⅞@109⅛; sight bills on London, 109¾@110. The offerings of produce bills have been again liberal. The week's exports of domestic produce have been to the currency value of $4,187,739, and in all 1870, $197,320,303, against $195,226,706 same time in 1869.

Government securities have been in better demand and quoted firmer in price, notwithstanding the activity in Money. The 1st of January debt exhibit has had a favorable influence on the market, showing a further net reduction $2,240,701 in December, and $106,260,683 since March 1, 1870.

The debt statement incorporated among other new features a tabular statement of bonds purchased by the Treasury Department on account of the sinking and special funds, in which the following appears:

Principal of bonds	$185,590,750 00
Amount paid in currency	137,208,221 37
Currency value of interest accrued on bonds bought flat	30,848 92
Net cost in currency	187,267,372 45
Net cost estimated in gold	151,520,442 94
Average premium on total purchases to Jan. 1, in currency	18.09
Average cost, in gold, of total purchases to Jan. 1	91.50

U. S. sixes of 1881 closed here on Wednesday of the current week at 110¼@110⅛; U. S. Five-Twenties of 1862, 108⅛@108⅜; U. S. Five-Twenties of 1864 at 108¼@108⅜; U. S. Five-Twenties of 1865, 108¼@108⅜; U. S. Five-twenties of 1865 consolidated, 107⅜@107⅝; U. S. Five Twenties of 1867, 107⅝@107¾; U. S. Five-twenties of 1868, 108@108⅛; U. S. Ten-forties at 106⅞@107; U. S. Six per cent. currency bonds, 110¼@110½.

On Wednesday, Government bought in two millions of Five-Twenties at 107 16@107 40, ex-interest. The amount of bonds offered was $3,237,850.

State bonds have been in moderate demand, but at irregular and less buoyant prices.

Railway bonds have been in fair request for investment purposes at, as a rule, well supported prices. Central Pacific Sixes have met with a ready sale closing with 90 bid and 90¼ asked. Chesapeake and Ohio Sixes have been in more demand at 90 and interest. Union Pacific Sixes have been quoted at 73½@74.

Messrs. Fisk & Hatch have just issued their second annual report to the First Mortgage Bondholders of the Central and Western Pacific roads, giving an interesting and highly encouraging account of the business of the two roads, now consolidated as one, under the common style of the Central Pacific, for the year just closed. The tables given in the report are comprehensive and suggestive showing the result for 1870 of a net profit of $3,860,146 on a gross earning of $7,920,710. The question recently raised by the Secretary of the Treasury, and supported by the Attorney-General of the United States, is met by the bankers of the Company in the frankest manner. While disagreeing with the opinion of the Attorney-General, they are prepared to meet the final decision of the Government, even if it should be adverse to the road, which they seem not to apprehend, by an exhibition of financial strength from the annual net earnings of the road, more than equal to the interest on their own bonds, and upon the bonds of the United States, advanced by the Government, assuming no further increase of traffic.

Railway and miscellaneous share property has been moderately active, but quite variable as to price, under the quite stringency in Money, closing somewhat feverishly and irregularly. Union Pacific stock has been closed at 12½@12¾. Western Union Telegraph closed at 44⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 13.	Dec. 20.	Jan. 4.

General Business has been comparatively quiet since our last. Breadstuffs and Provisions closed with more steadiness. Cotton favored buyers. Middling upland cotton closed on Wednesday at 15⅛ cts. per lb. The stock of cotton now here is given at about 79,000 bales. The receipts at the port this week, have averaged about 8,500 bales a day. The receipts at all the ports, since Sept. 1, 1870, have been 1,625,953 bales, against 1,318,751 bales same time in 1869-'70; exports same time 917,400 bales, against 700,600 bales same time in 1869-'70; stock on hand at latest dates, 520,884 bales, against 379,948 bales same date 1869. The exports of domestic cotton goods from this port, in 1870, were 14,482 pkgs., against 21,047 pkgs., in 1869. From Boston, 7,550 pkgs. in 1870, against 7,185 pkgs. in 1869.

There has been a light movement in foreign goods at about previous prices, in most instances. The dry goods entries at this port, last week, were $2,222,063, making with the general merchandise imports a total of $5,124,396.

Freights have been less active, but rates have been quoted firm. For Liverpool we quote flour at 2s. 6d.@2s. 9d. by sail, and 3s. 6d. by steamer

per bbl.; grain at 7d. by sail, and 8d. by steamer per bushel; cotton at 5/8@13/16d. by sail and 1/2d. by steamer per lb.; and heavy goods 20s. @30s. by sail, and 30s.@55s. by steamer, per ton. Total number of vessels in port on Wednesday, 482.

At the Live Stock markets, this week, Beeves have been in less request from 9½@17½c. per lb.; week's receipts, 5,652. Milch cows quiet at $40@$110 each, receipts, 61. Veal calves in fair demand at from 5@12c. per lb.; receipts, 873. Sheep have been in less request at from 4@7½c.; lambs at 5½@8¼c. per lb.; receipts, 21,405. Swine quiet at 6½@7c. per lb., all live weight; receipts, 19,661.

The following will show the exports (exclusive of specie) from New York to foreign ports of the week ending January 8d, and since the beginning of the year:

	1870.	1871.
For the week.....	$2,174,516	$4,187,739

The imports for the week ending Dec. 31, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$648,938	$2,222,063
Gen. merchandise..... ..	2,098,495	2,902,333
Total for the week.....	$2,747,433	$5,124,396
Previously reported....	286,563,970	299,314 392
Since January 1.....	$289,311,403	$304,438,788

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Georgia 7s, gold, 98¾; North Carolina 6s, Special Tax, 18½; South Carolina 6s, new, Jan. and July, 62; do. April and Oct., 63½; Alabama 8s, 101½; Brooklyn 6s, W. L., 92½; Pacific R. HARVEY FISK. A. S. HATCH.

☞ FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU-ST., NEW YORK, Jan. 2, 1871.

The earnings of the CENTRAL PACIFIC RAILROAD for 1870 reach nearly $8,000,000, of which about $3,900,000 will be *net* after paying operating expenses—this is an increase over the previous year in Gross Earnings of $2,300,000, and in Net Earnings of $1,300,000. The earnings for the coming year, by a moderate estimate based upon reliable data, will exceed $10,000,000.

The security of the principal, and the assurance of regular and prompt payment of interest which are afforded in the valuable property and immense revenue of the road render these bonds *as safe and reliable an investment as can be made.* They are daily quoted on the regular call of the New York Stock Exchange, and of several of the most important Stock Exchanges of Europe, *and can be as readily sold at quoted market price as the bonds of the United States Government.*

We deal in them as freely as in Government Bonds, and are prepared to supply them in exchange for 5-20s, or for new investments at current market price.

We continue to buy and sell Government Bonds, Gold, &c., to make collections, receive deposits, allow interest thereon, and do a general banking business.

FISK & HATCH.

Kings County Steam Boiler Works.

We take great pleasure in recommending to our friends and patrons, the Kings County Steam Boiler Works, 345 and 347 First St., Brooklyn, E. D., New York, WM. R. TAYLOR, Proprietor, where he can always be found ready to furnish Estimates for Boilers, Tanks, Oil Stills, Condensors, &c. There is at present building in his shop, Five of the largest Oil Stills in the country, also a large number of Boilers and Tanks. Having a large number of first class mechanics for repairing, Mr. Taylor gives special attention to that class of work. We hope our friends will not forget when in want of new work or repairs to give him a call.

☞ During the stoppage of navigation this winter, the depth of the channel of the Pennsylvania Canal is to be increased to six feet, or two feet beyond the present dimensions.

☞ Ebenezer Westcott has been elected President, and R. R. Bateman secretary and treasurer of the Bridgeton and Port Norris (N. J.) Railroad company.

☞ The Swedesboro' R. R. Co. have declared a semi-annual dividend of three per cent., payable on demand at the office of the Treasurer in Clarksboro', N. J.

☞ The contract for the extension of the Portland and Ogdensburg railroad from Fryeburg to North Conway has been awarded.

☞ The Prussian electricians say that the American Brooks Insulators are the best in the world.

Movements of Produce.

Receipts of certain articles of domestic produce at the port of New York for the years—

West Wisconsin Railway.

As it will interest all our citizens to know the result of the conference with the representatives of the West Wisconsin Company, it is sufficient to say that at a meeting of some fifty or sixty of our leading business men at the Metaopolitan Hotel on Thursday night, a committee were appointed and empowered to complete arrangements with those gentlemen for the immediate completion of the West Wisconsin Railroad to St. Paul, and that these arrangements were completed and a formal agreement entered into on the following basis, of which we give simply the general outline:

That the citizens of St. Paul shall provide for the construction of the western half of the railroad from St. Paul to Hudson, some nine or ten miles, and for this purpose shall place the bonds of the St. Paul, Stillwater, and Taylor's Falls Railroad Co., secured on the road, &c., to an amount not exceeding $24,000 per mile, or from $220,000 or $240,000 in all.

The West Wisconsin Company, on their part, agree to provide for the construction of the eastern half of the road and bridge across Lake St. Croix. The work, including the bridge, is to be put under contract the moment the bonds are placed, and to be completed early next summer.

Messrs. Baldwin and Humbird were so entirely satisfied with the assurances they received, and the stipulations entered into, that they started yesterday morning for New York to make the necessary arrangements for their part of the undertaking.

There can be no question that the bonds will be promptly taken up by our citizens, and that the road will be at once pushed to completion, so that when the West Wisconsin reaches Hudson next summer, it will shake hands with the St. Paul road across Lake St. Croix. The road will be completed before January 1st to within thirty-four miles of Hudson, and to Hudson by July 1st, 1871. All the iron has been purchased to complete the road to that point. It has been determined that the St. Paul, Stillwater and Taylor's Falls Road shall be completed to Hudson by that time. The preliminary surveys are already in progress, and it is believed that a feasible line may be found not more than eighteen miles long from St. Paul to Hudson. One of a little over nineteen miles, with easy grades, has already been surveyed.—*St. Paul Press.*

Chicago and Northwestern Railway.

The following is the comparative statement of the earnings and expenses of the Chicago and Northwestern Railway, for six months of the fiscal years 1869 and 1870, ending November 30:

	Gross Earnings.	Operating expenses, interest, Rents, &c.	Net Income.
	1869.	1869.	1869.
June	$1,251,950 64	$976,439 15	$275,517 48
July	1,157,056 38	1,045,553 21	111,503 17

☞ The Bay de Noquet and Marquette Railroad Company (Lake Superior), have declared a dividend of 10 per cent., payable Dec. 31 at the Treasurer's office in Boston.

☞ The Georges Creek Coal and Iron Company has declared a dividend of $2 per share for the last six months, payable on and after 11th inst.

☞ The first regular passenger train over the Monticello and Port Jervis Railway left Monticello on the 29th ult., and the trains are now running regularly.

Journal of Railroad Law.

RAILROAD COMPANIES—CARRIAGE OF OIL—CONSTRUCTION OF CONTRACT AS TO FORWARDING.

The case of the Camden and Amboy Railroad Company *vs.* Forsyth, Brothers & Co., was an amicable action in case, entered May 13th, 1865. The declaration in several counts charging the Camden and Amboy Railroad Company, as common carriers, with negligence in not transporting safely 113 barrels of refined petroleum from Philadelphia to Red Hook, an oil depot about thirty miles below the City of New York.

The following is the opinion of the Court delivered by

SHARSWOOD, J.—The contract of the plaintiffs with the Pennsylvania Railroad Company, was to carry the barrels of oil received at Pittsburg to Philadelphia and there deliver them to Leech & Co., at the company's freight station. If there was any undertaking implied from the fact that the ultimate destination of the goods appeared on the bill of lading to be Red Hook and the freight was to be there received for the carriage over the whole route, it would be only an engagement to forward to that place. This is now the received doctrine in the American Courts, as is ably shown by Judge Strand in Jennison *vs.* The Camden and Amboy Railroad Co., 4 Am Law Reg., 234, who cites and comments on all the leading authorities. The limitations and stipulations contained in the contract in regard to the liabilities of the Pennsylvania Company as carriers, naturally apply only to that portion of the route in which they act as such, and not to the part in reference to which they are forwarders. Not that they could not as agents for the carriers, beyond the terminus of their own road, stipulate for a limitation also of their liability. The question is, have they done so in this instance? It is argued that whatever stipulations are contained in the bill of lading given for the goods when originally received, ought to be presumed to extend over the whole route. "The American cases upon the subject, with rare exceptions," says Judge Redfield, "recognize the right of a railway company to enter into special contract to carry goods beyond the line of their own road. And when different roads are united in one continuous route, such an undertaking in regard to merchandise received and booked for any point upon the line of the connected companies is almost matter of course," 2 Redfield's Law of Railways, 104. If this could be construed to have been a contract by the Pennsylvania Railroad Company to carry to Red Hook, then, indeed, it would be a natural and necessary presumption—that all its terms and limitations should apply to carriers over every part of the route. The Counsel on both sides of this case have relied on the Bristol and Exeter Railway *vs.* Collins, 7 House of Lords, 197. The contract there by the company who received the goods was to carry to the point of ultimate destination on another road. This was the decision of the Court of the last resort, and hence Lord Chancellor Chelmsford said: I think therefore that the contract was entire, was for the whole journey from Bath to Torquay, and was made with the Great Western Railway Company alone: that the goods were carried over the defendants' railway under the contract, and that the defendants are consequently either not liable at all, as no agreement was entered into with them, or that if the contract in any way attaches to them, the exception as to loss by fire accompanies it and exonerates them from liability." In the Exchequer Chamber the receipt note was considered as plainly showing that the contract of the Great Western Company was merely to carry to Bristol and to forward them by another carrier, and the exemption from liability provided for by the contract, was held to apply to the Great Western Company alone: 1 Hurlst. and N., 517. It is evident that the decision in the Exchequer Chamber is that which is applicable to this case of the Pennsylvania Railroad who were carriers only to Philadelphia and forwarders beyond.

The part of the bill of lading relied on as containing a stipulation relieving the defendants from liability, is the written memorandum subscribed in these words: "This oil is carried only on open cars, and entirely at the owner's risk from fire and leakage while in possession of the railroad company or carriers while standing or in transit." The first part certainly only applies to transportation by rail. Now beyond Philadelphia the transportation was by barges through the Delaware and Raritan Canal to Red Hook. If the memorandum looked beyond the terminus of the Pennsylvania Railroad Company, it would not have been stipulated that the oil should be carried only on open cars. "While in the possession of the railroad company" certainly means the Pennsylvania Company, "or carriers while standing or in transit," naturally following in the same track, means just as certainly "their carriers, whether standing at stations or depots, or in cars while actually moving." It would be a violent construction to conjecture that subsequent carriers were those meant. Doubtless it would have been so expressed if it had been so intended. The Court were perfectly right, therefor, in instructing the jury that there was no other contract with the defendants than the receipt of their shipping agent for the oil, which contained no limitation of a carrier's liability at common law.

Judgment affirmed.

Commerce of Buffalo.

The Boston *Commercial Advertiser* gives the following statistics of the commerce of that port during 1870:

ENTERED.

	No. of Vessels.	Tonnage.
Coastwise vessels entered	3,715	1,527,521
American vessels from foreign ports	755	455,638
Foreign vessels from foreign ports	846	89,720
Total entered	5,316	2,072,879

CLEARED.

Coastwise vessels cleared	3,768	1,550,244
American vessels for foreign ports	730	451,054
Foreign vessels for forei'n ports	811	83,616
Total cleared	5,309	2,084,914
	Vessels.	Tonnage.
Grand Total 1870	10,625	4,157,793
" 1869	10,201	4,007,496

☞ A bill has passed both branches of the Virginia Legislature authorizing the Atlantic, Mississippi and Ohio Railroad Company to construct a branch road to Richmond.

The Public Debt Statement.

The following is a recapitulation of the public debt statement December 31, 1870:

DEBT BEARING COIN INTEREST.	
Five per cent. bonds	$214,267,800 00
Six per cent. bonds	1,720,775,400 00
Total	$1,935,342,700 00
Accrued interest	45,930,828 49
DEBT BEARING INTEREST IN LAWFUL MONEY.	
Three per cent. certificates	$48,555,000 00
Navy Pension fund 3 per cent.	14,000,000 00
Certificates at 4 per cent.	678,362 41
Total	$58,228,362 41
Interest	446,631 29
Debt on which interest has ceased since maturity	$7,315,822 26
Interest	631,151 35
DEBT BEARING NO INTEREST.	
Demand and legal tender notes	$356,101,086 00
Fractional currency	39,995,089 88

Balance of interest paid by United States		6,354,526 55

☞ Messrs. Cutler, Jones & Co., of Cincinnati, have taken the contract for the building of the Eastern division of the Elizabethtown, Lexington and Big Sandy Railroad, commencing at Lexington and running to the Big Sandy River. Four thousand hands are to set to work about the 1st of next March, and the road is to be completed in two years.

☞ The New London Northern Railroad Company have voted to call in the second class stock, issuing three shares of the first class for four of the second.

List of U. S. Patents.

Issued for Improvements in Railroad Construction, Rolling Stock, &c., for the week ending Dec. 20, 1870, and each bearing that date. Reported for the AMERICAN RAILROAD JOURNAL, from the Office of DAVID A. BURR, Solicitor of Patents and Attorney for Patent cases, Washington City, D. C.

No.

110,195.—Seal Lock, Benjamin Briscol, Detroit, Mich.

110,204.—Car and other Springs, John W Cockran, New York, N. Y.

110,214.—Car Coupling, John C. Dearborn, Candia, N. H.

110,254.—Car Seat Lock, Adam Lœffelholz and Anton Prier, Milwaukee, Wis.

110,269.—Car Coupling, James C. Morris, Greenville, Tenn.

110,315.—Spark Arrester, Jason Weidman, John Major and John J. Sample, Pittsburg, Pa.

110,384.—Railway Rail Joint, William Moorehouse, Buffalo, N. Y.

110,394.—Refrigerating Car, Thomas L. Rankin, Granville, Ills.

110,350.—Rotary Steam Engine, George S. Follensbee, Philadelphia, Pa.

110,352.—Oscillating Steam Engine, Isaac N. Forrester, Bridgeport, Conn.

For the week ending Dec. 27, 1870, and each bearing that date.

110,416.—Railroad Car Ventilator, George B. Armstrong, Chicago, Ills., and George F. McLellan, Washington, D. C.

110,432.—Lubricating Compound for Steam and other Packing, William M. Canfield, Philadelphia, Pa.

110,441.—Self Cleaning Locomotive Smoke Stack, Samuel M. Cummins and Henry Israel, Allegheny, Pa., assignors for ⅓ their right to Ransom C. Wright.

110,446.—Snow Plow for Railways, Tiberius Dougherty, Philadelphia, Pa.

110,461.—Non-Conducting Compound for coating Steam Boilers, John Hessing, Patterson, N. Y.

110,463.—Compound and Process of removing incrustations of lime from Steam Boilers, metals, &c., J. Austin Hewett, Nora Springs, Iowa.

110,497.—Railway Car Spring, Albert Potts, Philadelphia, Pa.

110,499.—Lock Nut, James L. Randolph, Berkeley, Springs, W. Va., assignor to G. L. Denny, Christiana, Pa.

110,534.—Cope for casting Car Wheels, Albert Alling, Chicago, Ills.

110,553.—Preventing incrustation of Steam Boilers, Charles J. A. Dick, Paris, France.

110,563.—Car Wheel, William Goodman, Boston, Mass.

110,571.—Sleigh, Alvarado Joner, Randolph, Wis.

110,580.—Car Coupling, William H. Meadows, McMinville, Tenn.

110,602.—Safety Attachment for Railway Tracks, Arnold Strauss, New York, N. Y.

DESIGN.

4,541.—Railway Car Sash Lock, William H. Paige, Springfield, Mass.

☞ The Western Maryland railroad was formally opened to Mechanicstown, a distance of 61 miles from Baltimore, on the 29th of December.

Central Railroad Company of New Jersey.

119 LIBERTY STREET,
New York, December 17, 1870.

TO THE STOCKHOLDERS:

A semi-annual dividend of four per cent. has been declared payable on the 30th instant. The transfer books are closed from the 14th instant to the 3d proximo. Hereafter it is expected to return to quarterly dividends.

All the valuable lands held by the Company along and near the railroad have been transferred to "The Central New Jersey Land Improvement Company," at present cost: and scrip stock of the said Land Company received in part payment therefor, with thirty dollars credited on each share, subject to further calls of seventy dollars on each share. The balance of the purchase money will be paid by calls to be made, from time to time, for these remaining instalments.

This transfer does not cover or affect the lands and water rights of the American Dock and Improvement Company.

An allotment has been made among the stockholders of this scrip stock in the proportion of one scrip share of the stock of "The Central New Jersey Land Improvement Company," for every five shares of Central Railroad stock held at the closing of the books for the dividend.

No fractional certificates will be issued, but the stock representing such fractions will be sold to the best advantage, and the proceeds divided among the parties entitled thereto. Persons wishing to buy or sell will apply to Samuel Knox, Treasurer.

No calls will be made until full information of the values of the property has been furnished.

Certificates will be ready for delivery as soon as they can be prepared.

By order of the Board,
JOHN TAYLOR JOHNSTON, President.

☞ The following gentlemen have been elected directors of the Maryland and Delaware Railroad Company: Wm. Slaughter, David Knotts, J. A. W. Powell, Dr. G. W. Goldsborough, Dr. Alex. Hardcastle, J. P. Manlove, Samuel Hambleton. President, C. W. Huntington; Treasurer, Dr. G. W. Goldsborough The track is laid to within one mile of Easton.

☞ The total revenue to the government from duties collected on imports at the port of Baltimore in 1870 amounted to $9,122,239 20, against $9,027,513 63 in 1869, $6,217,466 41 in 1868, $5,798,820 85 in 1867, $4,065,064 35 in 1866, $2,983,202 33 in 1865, $2,167,120 05 in 1864 and $1,919,229 99 in 1863.

PROCLAMATION of the SALE of the HOUSTON TAP AND BRAZORIA RAILROAD, by the Governor of the State of Texas, in the name and by the authority of the State of Texas.—Whereas, The railroad company known as that of the "Houston Tap and Brazoria Railroad" is largely indebted to the School Fund of the State of Texas, for principal and interest of the Special School Fund loaned to the same under the act of the Legislature of August 13th, 1856, entitled "An Act to provide for the investment of the Special School Fund in the bonds of railroad companies incorporated by the State," and the amendments thereto, which principal and interest is secured by the bonds of said railroad company, made and executed to the State of Texas under said act and amendments; and

Whereas, Said railroad company, by failure to pay the interest and sinking fund of said indebtedness, has not complied with its obligations under said act of August 13th, 1856, and the amendments thereto, and has also not complied with the act of 13th of August 1870, entitled "An Act for the relief of railroad companies indebted to the State for loans from the School Fund;" and

Whereas, Because of such failure, the Governor of the State is required, by said acts of the Legislature, to cause said railroad to be sold in satisfaction of said indebtedness;

Now, therefore, be it known that in conformity with said acts of the Legislature, I, EDMUND J. DAVIS, Governor of said State, will, on WEDNESDAY, the 15th day of February, A. D. 1871, cause to be sold the said "Houston Tap and Brazoria Railroad," and the charter rights of said company, including the road-bed, right of way, grading, bridges, iron rails, equipments and masonry, and all the stock subscribed for in said company, all the depots and depot stations, and all the property owned by said company as necessary to its business—said railroad being about (60) fifty miles long.

Such sale to take place, at public auction, on said (15th) fifteenth day of February, A. D. 1871, at the door of the Capitol of the State at Austin, between the hours of 10 a. m. and 12 o'clock m., and the sale to be to the highest cash bidder; *provided, however*, that the Governor reserves the right, should he deem it advisable, to buy said property in, for the benefit of the School Fund, should no cash bid be made sufficient to cover the principal and interest due on the School Fund.

In testimony whereof I have hereunto signed my name, and have caused the great seal of the State to be [L. S.] affixed, at the City of Austin, this 12th day November, A. D. 1870, and of the independence of Texas the thirty-fifth. EDMUND J DAVIS, Governor.

By the Governor: JAMES P. NEWCOMBE, Secretary of State.

PROCLAMATION of SALE of the TEXAS AND NEW ORLEANS RAILROAD—By the Governor of the STATE OF TEXAS—In the name and by the authority of the State of Texas—Whereas, The railroad company known as that of the "Texas and New Orleans Railroad" is largely indebted to the school fund of the State of Texas, for principal and interest of the special school fund, loaned to the same under the act of the Legislature of August 13th, 1856, entitled "An Act to provide for the investment of the special school fund in the bonds of railroad companies incorporated by the State," and the amendments thereto—which principal and interest is secured by the bonds of said railroad company, made and executed to the State of Texas, under said acts and amendments; and

Whereas, Said railroad company, by failure to pay the interest and sinking fund of said indebtedness, has not complied with its obligations under said act of August 13th, 1856, and the amendments thereto, and has also not complied with the act of 13th of August, 1870, entitled "An Act for the relief of railroad companies indebted to the State for loans from the special school fund;" and

Whereas, Because of such failure, the Governor of the State is required, by said acts of the Legislature, to cause said railroad to be sold in satisfaction of said indebtedness:

Now, therefore, be it known, that in conformity with said acts of the Legislature, I, EDMUND J. DAVIS, Governor of said State, will, on TUESDAY, the 14th day of February, A. D. 1871, cause to be sold the said "Texas and New Orleans Railroad," and the charter rights of said Company, including the road-bed, right of way, grading, bridges, iron rails, equipments, and masonry, and all the stock subscribed for in said Company, all the depots and depot stations, and all the property owned by said Company as necessary to its business—said railroad being about one hundred and eight (108) miles long.

Such sale to take place, at public auction, on said 14th day of February, A. D. 1871, at the door of the Capitol of the State, at Austin, between the hours of 10 a. m. and 12 o'clock m., and the sale to be to the highest cash bidder; *provided, however*, that the Governor reserves the right, should he deem it advisable, to buy said property in, for the benefit of the school fund, should no cash bid be made sufficient to cover the principal and interest due the school fund.

In testimony whereof, I have hereunto signed my name, and have caused the great seal of the State to be [L. S.] affixed at the City of Austin, this 12th day of November, A. D. 1870, and of the independence of Texas the thirty-fifth. EDMUND J. DAVIS, Governor.

By the Governor: JAS. P. NEWCOMB, Secretary of State.

THE Firm of WM. J. YOUNG & CO., MATHEMATICAL INSTRUMENT Makers, consisting of WM J. YOUNG & CHAS. S. HELLER, was dissolved shortly before the death of Wm. J. Young. The undersigned, the late Partner of said Firm, (who was with Mr. Young continuously for 16 years), will continue in the same line of business at No. 33 North Seventh Street, (corner of Filbert).

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

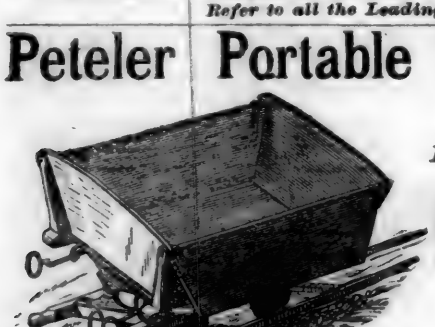
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

The New Mining Locomotives.

The Baldwin Locomotive Works have had on exhibition for the last three days two mining locomotives, ordered for the Wilkesbarre Coal and Iron Company's collieries in the third anthracite coal region. Mr. Parrish wishes to find some substitute for the mule as a carrier in the mine. During a strike or other suspension of work, a large stud of mules is a great expense. A locomotive costs nothing when it is doing nothing, and if well cared for does not grow old. Another outlay is saved in the item of drivers. One man suffices to drive a locomotive; and a few couplers to handle an entire train. The fire box is square and deep, and so little stoking is required, that the fire door need not be opened more than four or five times during the entire day. While the locomotive was standing on the track in the shop, the steam gauge indicated 120 pounds pressure in the boiler, and yet the engineer had laid a damper plate over the chimney hole. Had the chimney remained open, the safety valve would have deafened the shop. It seemed difficult to explain this excellent draft; but it was an evident fact. The machine was run across the floor at various speeds, started with ease, and stopped in the space of a foot or two. There was an appearance of perfect docility about it, which relieved us from all suspicion of accidents underground.

On examining the working gear this little locomotive appeared to be as staunchly built and well finished as any passenger engine, but was entirely without ornament. The wheels were necessarily small, but heavy, with a broad, flat tread, and very light flange. The two cylinders, 9 inches in diameter (inside) by 12 inches stroke, lie under the front end of the boiler. The piston rods play between groups of four square slide rods, and a simply adjusted link motion works just forward of the fire box. The connections are of course inside, on the cranked axle of one of the two pairs of drivers (of 30 inches), which are the only wheels. The fire box and low platform overhangs behind. As coal is always at hand, no coal space is needed, and the water-tank is folded over the top and sides of the boiler, acting as a jacket, and feeling quite hot to the hand.

This tank holds 190 gallons, and the whole engine, with fuel and water, weighs nearly 15,000 pounds. The makers guarantee that it shall haul, under all circumstances, with wet and dirty rails, on a level, 840 gross tons; on a 60 foot gradient, 80 gross tons; and on a 100 foot gradient, 50 gross tons. Under favorable circumstances it will of course do more.

The fire box platform is covered with a light wagon-top roof to guard the engineer's head. The extreme height is 5 feet 4 inches; extreme width, 5 feet 1 inch.

Several engines, somewhat similar to these, have been constructed in Pittsburg, and used in the mines of that neighborhood, giving satisfaction. These are somewhat simplified; but not to such an extent as to interfere with their being taken readily to pieces, examined, or repaired. It is needless to say that they are made with conscientious care, and made strong, to bear rough usage at the hands of ignorant or thoughtless persons.—*U. S. R. R. and Mining Reg.*

The New York Midland Railroad.

A recent article in these columns has maintained, against the volume of unwise and interested croaking, that the general condition of the railroads now building and in operation in this country is noticeably promising and sound. It may be pertinent to particularize somewhat. The New York and Oswego Midland Railroad, by reason of its constitution, history and prospects, is calculated to defy the scrutiny and command the respect of the gentlemen who make it their business to misrepresent and depreciate American railroad stocks. The practical value of this railroad to the magnificent section of country which it traverses, and to the Metropolis in which it terminates, is very great, and could not easily be overstated. It brings New York City forty-five miles nearer Oswego and the great cities of the British Provinces, which are destined, at no long interval, to be named among the United States. It shortens the distance from the Metropolis to Buffalo and the West by seventy miles. It taps the productive coal fields of the Delaware and Hudson Canal Company. It provides the great and fertile Midland counties with means of occupation and development never possessed before. By means of the Montclair Railroad, which, although closely joined in interest with the Midland, is itself an enterprise deserving special mention, a large section of the most picturesque and eligible portion of New Jersey is actually placed in more immediate and intimate relations with this city than the avenues of Brooklyn now occupied with the residences of New York merchants. These are some of the more obvious natural advantages of the New York and Oswego Midland road.

In the simplicity, economy and security of its financial basis we believe the Midland is unsurpassed by any railroad enterprise that can be named. The name of its President, Dewitt C. Littlejohn, is of itself a tower of strength in the region of the Midland counties, where he is best known for his shrewdness, pluck, public spirit, indomitable resolution and incorruptible personal integrity. The bonds are in the hands of Messrs. George Opdyke & Co., than which no financial house stands higher in reputation for substance, weight and honorable dealing. The bonds are issued in a definite proportion to the road actually completed, and certified thereto by the President and Superintendent. The towns and cities which have lent their aid to this enterprise by subscribing, in their corporate capacity, $6,500,000 capital stock, are restrained by a legal enactment from disposing of the stock without the consent of a majority of the individual tax payers. The trustees of the mortgage are Messrs. A. A. Low, George Opdyke, and Delos De Wolfe. Two hundred and twenty miles of the road are now completed and in operation, and making actual earnings more than enough to meet the current mortgage indebtedness. The grading for the entire road is nearly finished.

Here are assurances of the most tangible character that the year 1871 will witness the triumphant completion, upon a basis of the utmost financial security, of another great through route from the metropolis to the West. It is a road which will win from the start its share of the through traffic, which, vast as it now is, must inevitably increase immensely with the general prosperity and development of the country. It creates a lucrative way traffic, according to the evidence already furnished, as fast as it can be built. With these resources it will have to pay dividends on a capital stock of only $6,500,000,

which is secured effectually from getting into the hands of speculators, or undergoing the processes of indefinite depletion which sometimes unsettles the values of railway securities.

These are the facts which authorize the assertion that no railroad project of similar magnitude could have been achieved with greater economy, discretion or dispatch, or with more satisfactory guarantees of a large success.—*N. Y. Standard.*

New York State Canals.

EXTRACT FROM THE REPORT OF THE AUDITOR.

The following statement shows the entire receipts and revenues, from all sources other than taxation, of all the canals for the last fiscal year, and the expenditures and payments for the same period. It also shows the application of the surplus revenues, in accordance with the requirements of the Constitution.

Statement of the revenues of the State canals and the expenses of collection and ordinary repairs, during the fiscal year ending 30th September, 1870:

Receipts:		
Tolls		$3,080,893 57
Rent of surplus water		2,129 48
Interest on current revenues		22,420 52
Miscellaneous receipts		1,695 33
		$3,107,138 90
Payments:		
To Canal Commissioners for ordinary repairs	$421,455 37	
To contractors for repairs	838,091 13	
To superintendents for repairs	508,171 58	
To collectors for salaries, clerk hire, pay of inspectors & expenses of collectors' office	90,196 47	
To weigh masters	14,299 92	
For salaries chargeable to the annual revenues, refunding tolls, printing and other miscellaneous payments	73,421 45	
		1,945,035 92
		$1,161,502 98
Reserve for payment of ordinary repairs, advanced by the deposit banks in Albany prior to 30th September, 1870		591,528 37
"Surplus revenue,"		$569,974 61

This balance has been "appropriated and set apart" in accordance with the requirements of article 7 of the Constitution, as follows:

To sinking fund, under section 2	$569,974 61
To sinking fund, under section 3	Nothing.

The following statements will show the financial operations of the canals for the last fiscal year:

Balance in the Treasury and invested October 1, 1869	$3,854,944 59
Received during the year ending 30th September, 1870	4,843,537 09
	$8,698,481 68
Paid during the same period	5,955,039 81
Leaving a balance, 30th September, 1870, of	$2,743,441 87

The above balance is deposited and invested as follows, viz:

Amount deposited in banks	$2,689,642 87
Amount invested in U. S. 10-40's bonds	50,000 00
Real estate, etc., Bank of Corning	3,799 00
	$2,743,441 87

A comparison of the present Canal Debt with that of 1869 will show a reduction during the last year as follows:

Reduction of principal	$598,200 00
Reduction of interest	85,662 00

CANAL DEBT PAYING INTEREST 30TH SEPTEMBER, 1870.

	Principal.	Annual int.
Under article 7, section 1 of the Constitution.	$1,106,420 00	$55,321 00
Under article 7, section 3, of the Constitution	9,285,000 00	557,100 00
Under article 7, section 12, of the Constituti'n	1,575,000 00	94,500 00
	$11,966,420 00	$706,921 00

The application of the balances of the several sinking funds which are now in the treasury and temporarily invested, to the payment of the Canal Debt, would reduce it as follows:

Total Canal debt 30th September 1870, $11,966,580 00. Balance of sinking funds 30th September 1870, including temporary investments, $2,149,884 61. Balance of debt after applying all the sinking funds, $9,816,695 39.

By comparing the foregoing statement with that of last year, it will be seen that the gross amount of stock debt has been reduced $598,200 00 during the year, and that the balances in the sinking fund applicable to the payment of this debt have also been reduced $1,063,136 74; consequently the balance of the canal debt after the application of the balances now in the sinking funds, is $464,936 74 more than it was at the close of the previous fiscal year.

The changed condition of the debt and the sinking funds arises from the fact that the surplus revenues of the canals for the last fiscal year, have not been sufficient to afford any contribu ion to the sinking fund, applicable to the payment of this debt, or the interest thereon; therefore, the money in the sinking funds was used for that purpose.

The unpaid and outstanding Canal Debt on the 30th September last, and for which certificates of stocks have been issued, is $12,564,780, maturing as follows: In

1872	$2,257,900 00
1873	5,150,100 00
1874	3,205,420 00
1875	473,000 00
1877	880,000 00
Amount paying interest	$11,966,420 00
Amount not paying interest	160 00
Total debt	$11,966,580 00

The rate of interest on this debt is 5 91-100 per cent.

These stocks were, on the 30th September, 1870, held as follows, viz:

In the United States	$9,929,441 00
In foreign countries	2,036,979 00
	$11,966,420 00

The annual interest on the stock debt, under article seven, section three, of the Constitution is $557,100 00

Amount required to purchase coin for the payment thereof, estimating coin at 10 per cent. premium 55,710 00

$612,810 00

The balance in the sinking fund applicable to the payment of interest and the redemption of the principal of said debt, on the 30th September, 1870, was $267,736 22, less than the sum required to pay two quarters' interest.

Unless the surplus revenues of the canals are increased, a tax will be necessary to provide for a portion of the interest due on the first day of April, and the entire interest for the balance of the year.

In addition to the above stock indebtedness, as was more fully stated in the last financial report from this Department, the canal revenues are chargeable with a portion of the general fund debt of the State, known as the general fund debt, for which the canals are liable. This debt is now, in accordance with the provisions of section 2 of article 7 of the Constitution, the first lien on the "surplus revenues." The balance of this debt on the 30th September, 1870, was $3,031,050 66.

It will be seen from the preceding statements that, on the 30th day of September last, the aggregate amount of canal indebtedness, for which certificates of stock have been issued and now bearing interest, was $14,997,630 66.

The interest on this debt is payable quarterly, on the first days of January, April, July and October, in gold.

The sum required annually to pay the interest on the above debt, estimating the premium on gold at 10 per cent., is $1,020,671 52.

The following statement shows the aggregate receipts, and payments on account of the ordinary expenses of the canals for the years:

	1869.	1870.
Receipts from tolls etc	$4,161,280 10	$3,107,138 90
Payments to superintendents and repair contractors	$867,412 27	$1,346,272 71
Payments by Canal Commissioners for repairs	267,076 10	421,455 37
Payments to Collectors and their assistants and weigh-masters	90,039 03	104,486 39
Refunding tolls, salaries of officers, etc.	53,980 12	73,421 45
Advanced by deposit banks for ordinary repairs prior to 30th September		591,528 37
Total expense for the year	$1,278,507 52	$2,537,164 29
Net receipts	$2,882,772 58	$569,974 61

This statement shows a falling off in the toll receipts of the last fiscal year, as compared with those of 1869, of $2,312,797 97, as follows:

Decrease in tolls	$1,054,141 20
Increase in expenditures	1,258,656 77
Decrease in net receipts	$2,312,797 97

The decrease in net receipts for the last fiscal year are without precedent.

For the last quarter of a century, with the exception of 1858 and 1859, the net receipts have not fallen below one million five hundred thousand dollars in any one year. And the annual average for the last ten years has been $3,072,177 35.

The deficiency, as compared with previous years, must be mainly attributed to the reduction of tolls and an increased expenditure for repairs.

Boston and Lowell Railroad.

At the annual meeting of the stockholders of this corportation, held in Boston on the 4th inst., Francis B. Crowninshield, Josiah G. Abbott, William Minot, Jr., Hocum Hosford, and Edward W. Codman, were elected directors for the ensuing year. The following resolution was adopted:

Resolved, That the Directors be and are hereby authorized to issue new stock for the purchase of branch roads, and for the enlargement of terminal facilities in Boston, as recommend by them in the annual report for the year 1870, to the extent of one share for every three shares of old stock now outstanding, and including the amount that may hereafter be outstanding, for the conversion of the balance of the bonds of 1858.

The stockholders voted to accept the acts of the last Legislature relating to the Lexington and Arlington and the Mystic River Railroads.

☞ The new railroad from White Bear to Stillwater, Minn., was formally opened on the 5th inst.

Fitchburg Railroad.

We have been favored with a copy of the report of this company for the fiscal year commencing December 1, 1869, and ending September 30, 1870. The report is made for a period of only ten months, in accordance with an act of the Legislature which requires the annual returns heretofore made on or before the first Wednesday of January, to be hereafter made on or before the first Wednesday of November of each year.

The receipts from operations of this road for ten months ending September 30, 1870, were as follows:

From passengers		$445,777 76
" freight		584,360 25
" mails		8,041 67
" rents and interest		24,960 46
" express		22,797 22
		$1,085,937 27

Expenses, viz:

Repairs of road	$113,165 15	
" bridges	16,884 18	
" locomotives	93,480 43	
" cars	89,992 67	
" structures	38,813 15	
Renewals of iron	62,862 09	
Fuel	85,318 90	
Oil and waste	9,712 10	
Freight expenses	106,743 31	
Passenger expenses	79,828 63	
Switchmen, etc	19,953 54	
Removing ice and snow	8,606 25	
Taxes and insurance	84,014 70	
Gratuities and damages	9,043 53	
Salaries and office exp	20,238 15	
		833,651 78
Net earnings		$252,285 49

The company have 35 locomotives, 42 passenger, 11 baggage, 399 eight-wheel and 331 four-wheel merchandise cars, and 36 gravel cars. Number of miles run by locomotives, 538,088. Number of passengers carried, 1,630,975; do., carried one mile, 20,328,234. Tons of merchandise carried, 528,846; do., carried one mile, 18,568,559.

The assets of the corporation on the 30th of September last were as follows:

Notes receivable	$118,525 54
Cash	62,514 56
Due from connecting railroads	17,006 47
	$189,046 57

And the liabilities were:

Premium on stock	$32,497 92	
Unclaimed dividends	5,444 00	
Unclaimed State tax	2 81	
U. S. mails	399 86	
		38,344 09
Excess of assets, Sept. 30, 1870		$159,702 48

The corporation also owns real estate purchased for railroad purposes, valued at $201,181 04; also fuel, iron, lumber and other materials for renewals and repairs valued at $111,388 11. The report says:

By act of the Legislature of 1869, we were required to cause new draws of forty four feet in width, to be made forthwith in our railroad bridge over Charles River. Work upon the same was commenced as soon as the necessary plans were made and approved by the Harbor Commissioners. When the draws were partially constructed, a petition was presented to the Legislature, praying for a reduction in the width of all the proposed new draws over Charles River.

As any change would of course affect our plans, we immediately stopped all work upon them. During the latter part of the session of the Legislature, the width was reduced, and fixed at thirty-six feet; it was however, almost impossible for us to continue the work at that late season (the month of June), and it must now necessarily be delayed until the winter months, when navigation of the river can better be suspended.

During the past year, our bridge and wharf over Charles River have been widened by constructing a new wharf on piles of some 1000 feet in length, containing over 30,000 square feet. We have also built, adjoining our solid wharf over Miller's River, a new pile wharf of 1,870 feet in length, containing 62,000 square feet.

We have added three locomotives, two passenger cars, and forty-four eight-wheel freight cars, to our motive power and cars.

One thousand shares of new stock have been issued, and sold at public auction, in accordance with a vote of the stockholders in June last to that effect.

As the owners of the cattle market established at Cambridge more than twenty years ago determined that the cattle business at that place should cease, we were, therefore, obliged to locate and construct a new market for the proper accommodation of that branch of our business.

This market, called the Boston Union Cattle Market, is situated on the Watertown Branch Railroad, near the Arsenal Station, in Watertown.

The cattle yard restaurant, and other necessary buildings, as well as the cattle sheds and yards, are now all in progress. They are to be built in the most approved manner, and we believe, will compare favorably with any similar establishment in the country.

Trial Balance, Sept. 30, 1870.

Total of construction as per construction accounts		$3,640,000 00
Cattle market and new bridges		40,959 00
Cash		62,514 56
Notes receivable		118,525 54
Fuel		39,341 00
Stock materials		60,047 11
Real estate		201,181 04
Receipts from freight		19,687 25
		$4,182,255 50
Capital stock		$3,640,000 00
Profit and loss		501,230 63
Receipts from passengers		2,680 78
Premiums on new stock		32,497 92
Unclaimed dividends		5,444 00
Unclaimed State tax		2 81
United States mails		399 86
		$4,182,255 50

President.—Wm. B. Stearns.

Treasurer.—M. D. Benson.

Superintendent.—C. L. Heywood.

Railroad Over the Andes.

After an American has been cononized in China for leading the imperial armies to victory against the rebels, and after other Americans have entered the service of Egypt and made its armies effective, it is not strange that still another of our fellow citizens is preserving the peace of Peru. Harry Meigs, this last adventurer, uses the arts of peace, however, and by his extensive railroad undertakings does more to keep the country quiet than any other man in it, by giving employment to the lower classes. That, with good wages and prompt pay, makes them little inclined for fighting for no pay and find themselves. A private letter from Callao says that he has a great number of noted revolutionists under pay, without any employment, excepting drawing their salaries, "by which means he keeps the country quiet;" any other condition would be the death blow to his undertakings. At this time he is building a road from this place to cross the Andes, at a cost of sixty millions. For two years he has maintained peace, and although that is the average duration of that blessing in Peru, so that murmurings of a revolution begin to be heard, it is to be hoped that he will succeed in completing his projects, which will accomplish much in perpetuating the tranquility in which alone the country can prosper.

Of the man undertaking these great things a correspondent writes:—"This Harry Meigs, you will remember, was one of the most enterprising residents of California. He built blocks of houses, ships and railroads, until, embarrassed by some unexpected losses, he suddenly took his departure. The places that knew him once knew him no more, to their sorrow. As suddenly he loomed up in South America, the mighty proprietor of stupendous enterprises, and, what was best of all, he sent heavy remittances to California, discharging every obligation, with interest and often an advance. This proved him an honorable as well as a great man, and the adroitness with which he has secured the interruption of hostilities in and about Callao gives him much credit for generalship."—*N. Y. Herald.*

Finances of New Jersey.

The receipts into the State Treasury for the fiscal year ending October 31, 1870, were $631,303 66; and the disbursements, $562,123 71—leaving a surplus of $69,179 95. About two-thirds of the entire income of the State—irrespective of the annual levy to reduce the war debt—is obtained from three or four railway companies, or from interest upon their securities belonging to the State. Nearly one eighth of the entire receipts comes from riparian sources, leaving less than one-sixth of the aggregate amount from all other sources. The State is thus enabled to meet all its obligations, except the small annual contributions to pay interest on its war bonds, and provide for their gradual extinction, without the imposition of a tax upon corporate or private property, save as to the corporations named. The disbursements include the payment of the only floating debt the State had.

The outstanding indebtedness of the State (War Fund), on the 31st of October was	$2,996,200 00
From which deduct assets in hands of Commisioner of the Sinking Fund	1,116,605 42
Leaving an indebtedness beyond assets	$1,880,594 48

The "State Fund," comprised as it is of bonds and stocks of railway companies, county bonds, &c., now amounts to $1,587,870 44. If to this amount be added the sum in the hands of the Commissioner of the Sinking Fund, an aggregate of $2,702,975 86 is had, or an amount more than sufficient to cancel the entire obligations of the State of all kinds.

The School Fund has received during the year $98,154 56; and disbursed $93,516 59—leaving on hand $4,637 97.

☞ The receipts into the State Treasury of Indiana during the year ending Nov. 30, 1870, (including $373,249 95 from the previous year,) were $485,052 60; and the disbursements therefrom $167,426 21—leaving a balance at the close of the year of $317,626 39. The foreign debt of the State, except $178,000 of war loan bonds, has been redeemed, and the domestic debt, including $3,651,816 of the non-negotiable school fund, has been reduced to $3,970,601.

☞ John A. Poor has been elected President and John Neal Clerk and Treasurer of the Portland, Rutland, Oswego and Chicago Railway Company.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of December, were:

ENTERED FOR CONSUMPTION.

	1869.	1870.
Manufactures of wool....	$427,773	$784,282
" cotton...	366,681	1,179,025
" silk	664,444	1,722,776
" flax	384,548	664,382

Total entered at the port..	$3,768,779	$7,934,235

The imports of foreign dry goods at the port of New York for each month of the years 1869 and 1870 were as follows:

	1869.	1870.
January	$7,661,015	$7,629,753
February	9,201,193	10,796,404
March	13,321,059	12,983,106
April	7,928,674	7,982,484
May	6,993,707	7,221,398
June	4,368,184	4,558,546
July	7,936,470	6,990,722
August	12,775,441	14,002,482
September	8,956,602	11,076,597
October	6,059,108	9,365,558
November	5,746,185	8,957,238
December	3,768,779	7,934,235
Total	$94,726,417	$109,498,523

The following will show the relative proportion of the different classes of fabrics:

	1869.	1870.
Manufactures of wool ..	$28,526,020	$32,355,260
" cotton.	17,482,213	20,977,062
" silk...	24,995,838	30,004 407
" flax...	15,261,355	15,580,306
Miscellaneous dry goods	8,460,991	10,581,488
Total imports	$94,726,417	$109,498,523

The value of foreign dry goods entered directly for consumption at the port of New York, is as follows:

	1869.	1870.
January....	$5,066,833	$4,786,668
February	6,857,561	7,568,282
March	9,973,566	9,762,526
April	5,895,912	5,846,662
May	4,755,133	5,819,940
June.	2,975,773	3,486,569
July....	4,789,069	4,627,472
August.	8,961,771	10,146,200
September	6 543,092	8,981,377
October	4,178,511	7,547,625
November	3 828,351	6,488,302
December	2,240,660	5,053 810
Total...	$65,066,232	$80,065,383

The value of foreign dry goods entered for warehousing at the port of New York, is as follows:

	1869.	1870.
January	$2,594,182	$2,848,085
February.	2,843,682	3,228,172
March	3,847.693	3,220 580
April	2,042,762	2,185,822
May	2 238 574	1,401,458
June.	1,392,411	1,121.977
July	3,147,401	2,368,250
August	3,813,670	3,856 282
September	3.413,510	2,095,220
October	1,880,597	1,817,933
November	1,917,834	2,468,936
December	1,528,119	2,880,425
Total	$39,660,185	$29,433,140

The value of foreign dry goods withdrawn from warehouses at the port of New York, is as follows:

	1869.	1870.
January....	$1,937,274	$1,938,433
February.	2,696,567	3,359,689
March	3,447,321	4,032,585
April	2,188,853	2,864,810
May	1,747,901	2,444,039
June.	930,157	951,090
July	1,373,457	1,802,710
August.	4,246,681	4,038,510
September	3,399,918	3,267,375
October	2,152,369	1,797,501
November	1,732,828	1,652,124
December.	822,975	1,350,074
Total.	$26,676,303	$28,998,940

The total imports of foreign dry goods at New York from 1849, compare as follows:

Year.	Invoiced value.	Year.	Invoiced value.
1849	$44,135,571	1860	$103,927,100
1850	60,106,375	1861	43,636,689
1851	62,846,731	1862	56,121,227
1852	61,654,144	1863	67,274,547
1853	98,704,211	1864	71,589,752
1854	80,842,936	1865	91,965,138
1855	64,974,062	1866	126,222,855
1856	93,362,893	1867	86,263,643
1857	90,534,129	1868	80,905,834
1858	60,154,509	1869	94,726,417
1859	113,152,824	1870	109,498,523

All of the figures above given represent only the foreign cost of the goods in gold, freight and duty not included.

Finances of Maryland,

From the Report of the Comptroller we learn that the total receipts into the Treasury from all sources (including $445,340 41 from the previous year,) amounted to $2,967,819 34; and the disbursements to $2,475,069 17—leaving a balance in the treasury at the close the year of $492,750 17. The productive and unproductive stocks in which the capital of the State is invested amounts to $28,221,276 98—of which $8,105,568 40 are designated as productive, and $20,115,708 58 as unproductive; of the latter, $218,235 13 are considered as perfectly worthless. The aggregate funded debt of the State, on which interest has to be provided, is $13,317,475 77, of which the sum of $6,052,888 88 is sterling debt, on which the interest is payable in London. To meet these liabilities the State has available assets to the amount of $7,817,420 03, leaving the sum of $6,000,055 74, on which the interest must be provided by taxation until the stocks now styled unproductive shall become remunerative to a sufficient extent to balance the account. The receipts on account of the School Fund during the year (including $2,613 92 from the previous year,) were $88,272 97. The disbursements during the same period were $81,591 69—leaving a balance at the close of the year of $6,681 28. There was received during the fiscal year ended 30th September, 1870, the sum of $89,006 81 to the credit of the Sinking Fund, which is invested in bonds of the "Maryland Defence Loan," bearing interest from July 1, 1870, at 6 per centum per annum. The amount paid for bounties during the fiscal year ended 30th September, 1870, was $233,412 53 of which the largest portion was paid previous to January 1st, 1870. The amount paid on account of pensions was $89,660. In reference to the over due and maturing State bonds, the Comptroller says:

The act of 1870, chapter 275, provides for the renewal of the bonds and certificates of indebtedness of the State due and to become due in the present year, and authorizes the Treasurer "to issue new bonds or certificates of debt countersigned by the Comptroller, of like amount, and bearing the same rate of interest, as the bonds for which they may be respectively substituted, with coupons for the semi annual interest thereon, and redeemable in not less than ten nor more than fifteen years, which said new bonds shall be numbered and lettered to correspond with the bonds for which they are substituted," &c. In compliance with this act, the Treasurer has had the new bonds prepared and a large number have, since the close of the fiscal year, been exchanged for the old issue, which latter have been cancelled as directed by said act.

A few of the foreign holders of the old bonds have hesitated at exchanging them for the new issue, probably from fear that the value of the new issue might be impaired by the operation of the Legal Lender act of the United States. Believing this apprehension to be entirely groundless, I have expressed my opinion to that effect in the most decided manner, assuring such holders that the faith of the State would be maintained to the fullest extent, and that no obligation pertaining to the old bonds would be lessened in the smallest degree by the exchange for those authorized by this act.

Porto Alegre and New Hamburg Brazilian Railway Co. Limited.

This Company's capital is to consists of £292,500 in 14,625 shares of £20 each, divided into 4,625 ordinary shares representing £92,500, and 10,000 7 per cent. Preference shares representing £200,000. The present issue consists of 5,000 preference shares, upon which £2 per share is to be paid upon application, and £3 per share upon allotment; any further calls not to exceed £5 per share, nor to be made at less intervals than 3 months.

The object of this Company is to construct a railway about 27 miles long, from Porto Alegre, the capital of the Brazilian province of Sao Pedro do Rio Grand do Sul to New Hamburg, at the point where the 3 main roads from the interior of the country meet, passing through Sao Leopoldo, said to be one of the largest and most important towns in the German Colonies of the province. For this purpose the Provincial Government has granted a concession, confirmed by Imperial decree of Sept. 2d, 1869, which confers on the Company all the privileges granted to the San Paulo Brazilian Railway Company; stipulates that no other railway can be constructed within 20 miles of this line, and that all the necessary machinery, plant, rolling stock, &c, will be admitted free of duty for ten years; and guarantees 5 per cent. interest for 60 years, payable in gold, on a maximum capital of £292,500. thus securing an annual income of £14,650. In return, the Province reserves the right to purchase the railway after a term of 30 years from the date the line is opened for traffic, on paying the Company such an amount of Brazilian stock as will produce an income equal to the average dividend for the 5 previous years, and in no case inferior to 7 per cent. per annum.

It is therefore proposed to appropriate the above guaranteed interest to the payment, firstly, of a 7 per cent. dividend on the preference shares, which will be due half yearly from the date of allotment, at the rate of 27d. per mil-reis, and may be received in London. Share warrants "to bearer" can also be issued.

The contract entered into with contractors, who, it appears, have already successfully carried out similar works in Brazil, includes the purchase of all necessary lands, and the completion of the line and its delivery to the Company in full working order, inclusive of rolling stock for £280,000, in which sum is also comprised the purchase of the Concessions, with all its rights and privileges. In part payment the contractors will, it seems, take the £92,500 ordinary stock, enabling the Company to issue the 10,000 perference shares, of which the 5,000 now offered for subscription are part.

The Province of Sao Pedro is reputed to be one of the richest and finest in Brazil, and is often termed its "Granary." The German settlers in it supply an extensive and increasing tract of country and many important towns and markets with large quantities of food products. It is considered, certainly, equal in trade and traffic to the adjacent province of Sao Paulo; and the Prospectus draws especial attention to the circumstance that, whereas the Sao Paulo Railway through the Sao Paulo province has cost £24,000 per mile, and earns a net return of 5½ per cent. per annum, the proposed line, costing less than half as much, owing to the favorable nature of the country, may be reasonably expected to yield fully 11 per cent. per annum. Another advantage for the Porto Alegre Railway is, that the Sao Pedro Province is unincumbered with any debt, its revenue for 1869 showing a surplus of £17,800, and therefore offers good security for the performance of its engagement towards this Company.—*Herapath.*

Finances of the State of New York.

EXTRACTS FROM THE REPORT OF THE COMPTROLLER.

The total funded debt of the State on the 30th of September, 1869 and 1870, was as follows:

	1869.	1870.
General Fund...	$4,694,526 40	$4,040,026 40
Contingent.....	68,000 00	68,000 00
Canal.....	12,564,780 00	11,966,580 00
Bounty.....	25,938,000 00	22,567,000 00
	$43,265,306 40	$38,641,606 40

The amount of the State debt on the 30th September, 1870, after deducting the unapplied balances of the Sinking Fund at that date, was:

	Balances of sinking funds on the 30th Sept., 1870.	Balance of debt after applying Sinking Funds.
General Fund.	$1,008,975 74	$3,031,050 66
Contingent...	17,992 21	50,007 79
Canal	2,149,884 61	9,816,695 39
Bounty.....	3,055,609 58	19,511,390 42
Total.....	$6,232 462 14	$32,409,144 26

The State debt on the 30th September, 1869, after deducting the unapplied balances of the Sinking Funds, amounted to.....	$34,848,035 73
On the 30th September, 1870, to...	32,409,144 26
Showing a reduction of.....	$2,438,891 47

GENERAL FUND DEBT.

The following statement gives the items of the General Fund Debt on the 30th September, 1870:

Astor stock, chap. 302, Laws of 1827, and chap. 86, Laws of 1822.....	$561,500 00
Deficiency loans under chapter 216, Laws of 1848.....	3,237,887 77
Comptroller's bonds.....	66,443 76
Indian annuities.....	122,694 87
Not paying interest.....	51,500 00
	$4,040,026 40

The principal of the debt is payable as follows:

On demand.....	$30,443 76
1875	900,000 00
1878	800,000 00
At pleasure.....	2,258,082 64
Paying interest.....	$3,988,526 40
Not paying interest	51,500 00
	$4,040,026 40

GENERAL FUND DEBT SINKING FUND.

The following statement gives the receipts and payments on account of the General Fund Debt Sinking Fund, for the fiscal year, ending September 30th, 1870:

Receipts, viz:

Balance in the Treas., Oct. 1, 1869..		$1,370,263 78
Transferred from the Gen. Fund, for interest on money in the treasury during the year.....		72,789 60
		$1,443,053 38

Payments, viz:

Interest on Gen'l Fund Debt.....	$248,190 43	
Redempt'n of State stock 7s, July 1st, 1870....	654,500 00	
Premium on coin, to pay principal and interest of debt.....	93,426 38	
Indian annuities.....	7,861 67	
Premium on coin, to pay annuities, including commissions and exp.	573 77	
		1,004,052 25
Balance in the treasury September 30th, 1870.....		$439,001 13

This is the actual balance appearing on the books at that day, but to ascertain the real available balance, this sum of $439,001 13 is to be increased by the sum of $569,974 61, contributed by surplus canal revenues, under Section 2, Article 7, of the Constitution, and since paid in, making an available balance, as of that day, of $1,008,975 74. The contribution from surplus revenues, September 30, 1870, to this Sinking Fund, to satisfy said Section 2, should have been $1,500,000, instead of the $569,974 61, at which point the surplus was exhausted; but notwithstanding this deficiency of contribution, no tax will be necessary under Section 5 of Article 7, as the Sinking Fund is ample to meet all demands for several years; and long before its exhaustion, it is believed that the contributions from surplus revenues, under Section 2, will provide for both principal and interest.

Lake Superior Copper and Iron Business of 1870.

The product of copper from the mines of Lake Superior, for the year ending Dec. 1, 1870, has been in excess of that of any other year since mining operations were commenced. The mines in the Portage Lake district that have suspended or fallen off in their products, have been more than overbalanced by the enormous and steady yield of the Hecla Calumet, while the product of copper for the past year at the Quincy mine, if anything, is larger than that of the year previous, so that the diminution in yield at the Franklin Pewabic, Huron, South Pewabic, Shelden-Columbian, Portage and Isle Royal, will in no way affect the grand total of shipments for the last year, from Portage Lake; but, on the contrary, the figures show that several hundred tons more of copper were shipped than there was for the year ending Dec. 1, 1869.

The product of copper for the year ending Dec. 1, 1870, in Keweenaw County, is but a few tons less than it was the year previous. There has been a slight falling off in the product of copper in Ontonagon County, as compared with the figures of last year.

Below we give the total shipments of ingot copper and mineral from all the mines of Lake Superior for the past year:

	Tons.
Eagle Harbor, Central Mine.....	860
Eagle Harbor, Copper Falls Mine.....	491
Eagle Harbor, Amygadaloid Mine	25
Ontonagon, National	183
Ontonagon, Minnesota.....	256
Ontonagon, Ridge.....	155
Ontonagon, Rockland	64
Ontonagon Evergreen Bluff.....	72
Ontonagon, Caledonia.....	48
Ontonagon, Flint Steel, Aztec, Victoria, Mass, Adventure, &c.....	51
Total.....	824

RECAPITULATION.

	Tons.	Pounds.
Ingot copper shipped from Portage Lake.....	7,456	1,502
Mineral shipped from Portage Lake.	3,307	1,275
Mineral shipped from Eagle River..	1,224	414
Mineral shipped from Eagle Harbor.	1,376	....
Mineral shipped from Ontonagon...	824	....
Total Ingot copper and mineral.	14,188	1,191

Herewith we present ore and pig-iron shipments from the ports of Escanaba and Marquette for the season. They show an increase over those of last year of forty per cent., a fact which speaks for itself. The figures given are all net tons:

ESCANABA SHIPMENTS.

Mine.	Tons.	Mine.	Tons.
Jackson.....	126,678	Barnum.....	43,162
New York.....	93,871	Forster.....	26,047
Cleveland	94,759	Breitung.....	1,868
Lake Angeline..	59,883	McCumber	117
Total Iron ore.....			451,385

Furnace.	Tons.	Furnace.	Tons.
Pioneer.....	5,242	Morgan	46
Peer Lake.....	2,601	Jackson	6,792
Michigan.....	266	Champion.....	179
Greenwood.....	67		
Total Pig iron.....			15,203

MARQUETTE SHIPMENTS.

Mine.	Tons.	Mine.	Tons.
Lake Superior..	165,802	New England..	27,677
Cleveland.....	51,217	Champion.....	71,649
Washington	75,830	Marquette	3,900
Edwards.....	27,122		
Total Iron ore			423,197

Furnace.	Tons.	Furnace.	Tons.
Morgan Iron Co.	11,925	Collins.....	4,284
Michigan	10,580	Pioneer.....	27
Bancroft.....	3,743		
Total Pig iron			80,559

GRAND TOTAL, ORE AND PIG IRON.

Escanaba	466,588
Marquette.....	458,756
Total.....	929,344

The above figures show that Escanaba is 12,832 tons ahead, including the Jackson furnace. They also show that the Lake Superior is the first, the Cleveland the second, and the Jackson the third mine in the district.—*Houghton Gazette.*

☞ The gross earnings of the Philadelphia and Reading railroad for the year ending November 30, 1870, were $9,571,867; and the gross expenses, $6,508,786—making the net profits $3,062,581. Compared with the previous year, the gross earnings show a decrease of $1,637,014, with a decrease in expenses of $367,527—making the decrease in net profits $1,269,387.

☞ The following gentlemeT have been elected Managers of the Philadelphia and Reading R. R. Co. for the ensuing year: Franklin B. Gowen, H. Pratt McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashurst and Charles E. Smith; President, Franklin B. Gowen; Treasurer, Samuel Bradford; Secretary, J. W. Jones.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

Marked thus (*) are leased roads.	Stock outstanding.	Dividend Periods.	Last Dividend Payable.

American Railroad Journal.

Saturday, January 14, 1871.

Stock Exchange and Money Market.

Money has been in more liberal supply since our last, and the tendency of rates has been in favor of borrowers, call loan rates having been quoted back to 6@7 per cent., and strictly prime to good mercantile discounts at 7@9 per cent. per annum. The city banks have been large gainers from the accumulations at this point, through interest and dividend disbursements and they report an addition of nearly 13⅞ millions to their deposit averages; over 5½ millions to their specie reserve; and nearly 3⅞ millions to their reserve of legal tender notes. Their loan and discount averages have been enlarged about 2½ millions. Their circulation has been reduced $38,796. The Government disbursements have been extensive through the local office, the Sub-Treasury having paid out on the January Gold Interest on the Public Funds $9,243,127 of which $5,625,000 was prepared at the very close of the Old Year, and included in last week's review. The Office also disbursed the Greenback Interest on about $65,000 000 United States Currency 6 per cents, issued to the Pacific Roads, and $593,000 Gold on the Principal of the Loan of 1871. There was also a purchase of $2,000,000 United States 5-20s, for the Sinking Fund paid for in Greenbacks on the 4th inst. The receipts for Customs for the five business days of the week amount to $3,168,264. The Treasury sold $1,000,000 Gold on the 5th inst. The gain in the legal tender average at Bank is mainly due to the disbursements of the Treasury on Pacific Road Interest and for 5-20s, though it seems probable that legal tenders have come in, to a fair amount, by express from the country.

The specie reserve of the city banks according to the latest return is $26,358,191, against $35,664,830 same time last year. The city bank deposits are now $202,088,825, against $190,169,262 week ending Jan. 9 1870. The legal tender reserve amounts to $49,031,410, against $48,537,734 same time last year. The circulation now stands at $32,114,718, against $24,132,280 same time last year. The loans are now $265,578,027, against $253,475,453 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $100,288,180 a day, against a daily average of $93,538,596 the preceding week. The current week's exchanges average about 91⅜ millions a day. The city banks, last week reported a gain of $5,529,345 of specie, $13,814,830 of deposits, and $3,786,052 of legal tender notes. They increased their loans $2,160,609; and reduced their circulation, $38,796.

The city bank exchanges on Wednesday were 81⅜ millions.

National Bank notes to the amount of $389,240 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $388,254,858, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $33,045 589 leaving, with the existing 1,612 banks, (having an aggregate capital of $430,299,301,) an actual circulation at this date, of $305,209,269. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $346,850,000; and for the public deposits, $16,819,500—making a total of $362,649,500. The Treasury Department last week redeemed and destroyed $407,600 of worn and mutilated fractional currency, and issued $234,827 of new.

The cash balance in the Treasury Department at the opening of business on Monday, was $26,150,027 in currency, and $100,574,512 in coin, including $27,606,500 in certificates.

Government disbursed, last week, through the local office, $593,000 gold, in redemption of the matured Five per cent. bonds of 1871.

The U. S. Sub-Treasury receipts, week ending with Jan. 7, were $6,898,896 in coin, (including $3,166,000 from customs duties,) and $3,035,810 in currency; payments, $12,002,158 in coin, (including $9,243,127 of coin interest,) and $5,679,794 in currency; balance at the close of the week, included $61,581,202, of coin, against $66,664,450 the preceding Saturday, and $7,601,952 of currency, against $10,245,936 at the close of the preceding week. The business of the Office on the

first three business days of the current week, was as follows. Monday, receipts, $1,347,899 in coin, (including $583,249 from customs) and $468,289 in currency; payments, $781,564 of coin (including $601,000 of coin interest), and $637,934 of currency. On Tuesday, receipts, $1,481,288 in coin, (including $396,646 from customs,) and $212,293 in currency; payments $677,628 of coin (including $648,000 of coin interest), and $456,136, of currency. On Wednesday, receipts, $535,072 in coin (including $411,000 from customs), and $345,105 in currency; payments, $569,424 in coin (including $504,000 of coin interest) and $443,697 of currency. The balance at the close of business on Wednesday included $345,105 of currency, and $62,916 240 of coin, against a balance a week previous of $7,089,872 currency, and $61,803,965 coin.

The aggregate receipts of the U. S. Sub-Treasury in December were $57,088,358, including $7,902,817 from customs; aggregate payments, $45,698,064, including $3,576,110 of coin interest.

The U. S. Sub-Treasurer issued in December $11,479,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,821,320 of coin certificates, received for customs.

Government revenues have been yielding more liberally since our last. The excises during the past week yielded 3¼ millions; customs at the port of New York, $3,105,321, and at the outports about $950,000 (in coin) more, making the grand total income for the week equal to about $6,681,250 in currency. The income of the Government, from excises, since July 1, 1870, has been about 86½ millions.

Gold has been in rather more confident, speculative demand within a range of from 110½@111⅛, closing on Wednesday of the current week at 110⅞, against 110⅝ on the preceeding Wednesday. The customs inquiry has been more active. The export drain has been light.

The Treasury Department under its official programme for January, will sell Gold, during the month, as follows: Thursday, January 12, one million; Thursday, January 19, one million; Thursday, January 26, one million. And buy Five Twenties, as follows: Wednesday, January 18, two millions; Wednesday, January 25, one million.

The customs revenue on Wednesday was $411,000. The coin interest disbursements at the Sub-Treasury were $504,000.

The export drain was $481,997 week ending with January 7, against $482,670, same week preceding year. The shipments in all 1870 were $68,689,171, against $32,108,448 in 1869; $70,641,599 in 1868; $51,801,948 in 1867; $62,553,700 in 1866; and $30,003,683 in 1865. The exchanges at the Gold Exchange Bank, which were 28⅜ millions on Friday, of last week, were 27 millions on Saturday; 19⅛ millions on Monday; 15⅞ millions on Tuesday.

The customs demand for Gold last week, averaged $621,062 a day; thus far, this week, it has averaged $489,950 a day, or equal to a weekly aggregate of $2,939,700. The arrivals of specie from Europe, Havana and other foreign ports in all 1870, was $11,581,771, against $14,918,725 in 1869. The total customs revenue of the Government, in coin, at this port, in 1870, was $139,708,579, against $129,603,460 in 1869.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt in all 1870, $86,671,676 against $90,852,669 in 1869.

The customs revenue at the port of San Francisco, from Jan. 1 to Dec. 31st, was $7,692,041, against $8,812,159 same time in 1869.

The specie exports by steamer and railway, from San Francisco, from Jan. to Dec. 31st, 1870, were $33,150,000, against $38,100,000 same time in 1869.

Foreign exchange has been in more demand and quoted a shade stronger. Bankers' sixty day bills on London closed on Wednesday at 109¼@109⅜; sight bills on London, 109⅞@110⅛. The offerings of produce bills have been quite liberal. The week's exports of domestic produce have been to the currency value of $4,774,187. In all 1870, the produce exports reached $197,820,808, against $195,225,706 same time in 1869.

Government securities have been in more active request on investment account and quoted a fraction higher, closing firmly.

U. S. sixes of 1881 closed here on Wednesday of the current week at 110¾@110⅞; U. S. Five-Twenties of 1862, 109@109⅛; U. S. Five-Twenties of 1864 at 108⅛@108¾; U. S. Five-Twenties of 1865, 108⅝@108¾; U. S. Five-twenties of 1865 consolidated, 107⅛@107⅝; U. S. Five Twenties of 1867, 107⅞@108; U. S. Five-twenties of 1868, 108⅜@108½; U. S. Ten-forties at 107⅛@107⅜; U. S. Six per cent. currency bonds, 110¼@110½.

On Wednesday, Government bought in a million of Five-Twenties at 107 31@107 46, ex-interest. The amount of bonds offered was 3¼ millions.

State bonds have been less freely offered and have been in rather better demand, at firmer, but but at irregular prices.

Railway bonds have been in more general request for investment purposes at, rather stronger prices. Central Pacific Sixes have selling quite freely closing at 90⅛@90¾. Chesapeake and Ohio Sixes have been in fair demand at 90 and interest. Union Pacific Sixes have been quoted at 73⅛@73⅜.

The complete returns of the gross earnings of the Central Pacific railroad, in 1870, make the aggregate $7,988,518, against $5,670,882 in 1869, showing an increase of $2,312,631 for the past year. This is equal to an aggregate of over $18,500,000 for the past two years, of which aggregate full 50 per cent., or equal to nearly $7,000,000, are net earnings, over and above expenses.

Railway and miscellaneous share property has been fairly active, at stronger but quite variable prices, closing buoyantly. Union Pacific stock has been closed at 13⅛@13⅜. Western Union Telegraph closed at 45⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 20.	Jan. 4.	Jan. 10.
Consols	91⅞	92⅛	92⅜
U. S. 5-20's of 1862	88¾	89⅝	89⅝
U. S. 5-20s, 1865	88⅛	89⅛	89¼
" 1867	87¾	88¼	88¾
" 10-40s	87⅛	87¾	87¾
Erie	19	19⅛	18¾
Ill. Central	110	113⅛	114
At. and Gt. West	28¾	25⅛	28⅛

General Business has been more active in the line of domestic produce, and values have been quoted firmer, in several instances. Breadstuffs and Provisions closed buoyantly. Middling upland cotton closed on Wednesday at 15¼ cts. per lb. The stock of cotton now here is given at about 77,500 bales. The receipts at the port this week, have averaged about 8,500 bales a day. The receipts at all the ports, since Sept. 1, 1870, have been 1,763,911 bales, against 1,413,084 bales same time in 1869–'70; exports same time 1,007,300 bales, against 749,800 bales same time in 1869–'70; stock on hand at latest dates, 558,500 bales, against 414,950 bales same date 1869. The exports of domestic cotton goods from this port, in 1870, were 14,482 pkgs., against 21,047 pkgs., in 1869. From Boston, 7,550 pkgs. in 1870, against 7,185 pkgs. in 1869.

At the Live Stock markets, this week, Beeves have been in liberal supply and limited request from 8½@16½c. per lb.; week's receipts, 6,661. Milch cows quiet at $40@$110 each; receipts, 82. Veal calves in slack demand at from 5@12c. per lb.; receipts, 993. Sheep have been in moderate request at from 4@7½c. per lb.; receipts, 23,576. Swine in better request at 6¾@7⅜c. per lb., all live weight; receipts, 20,773.

Foreign merchandise has been quiet, and less firm. The dry goods entries at this port, last week, were $1,446,507, making with the general merchandise imports a total of $3,541,829.

Ocean freights have been less active, lower, and irregular. For Liverpool we quote flour at 2s. 6d. by sail, and 2s. 10½d.@3s. by steamer per bbl.; grain at 6d. by sail, and 6d.@6½d. by steamer per bushel; cotton at ¼d. by sail and $\frac{5}{16}$@⅜d. by steamer per lb.; and heavy goods 17s. 6d. @30s. by sail, and 30s.@55s. by steamer, per ton. Total number of vessels in port on Wednesday, 569.

The following will show the exports (exclusive of specie) from New York to foreign ports or the week ending January 10th, and since the beginning of the year:

	1870.	1871.
For the week	$3,518,756	$4,774,187
Previously reported	2,174,516	4,187,739
Since Jan. 1	$5,693,272	$8,961,926

Railroad Bridge at Parkersburg.

The bridge connecting the Baltimore and Ohio and the Marietta and Cincinnati Railroads over the Ohio river at Parkersburg was completed and the first train passed over it on Saturday last. The masonry and superstructure are said to be of the most superior character, and the bridge is one of the largest and most substantial in the country. Its height above low water mark is 90 feet, while its length exceeds 4,100 feet. The two centre or channel spans are each 350 feet in length. The whole number of spans is 42. Its cost exceeds a million of dollars. By the completion of this structure the method of transferring by boat between Parkersburg and Belaire is dispensed with, and passengers and freight are transported directly through from Baltimore to Cincinnati and points beyond, without change of cars or break of bulk.

☞ Joseph E. Brown has been elected President, E. W. Cole Superintendent, Mr. Smith Treasurer, and E. G. Cobia Assistant Treasurer of the Western and Atlantic Railroad Co.

☞ The Stockton and Copperopolis (Cal.) railroad has been completed for a distance of seven miles.

Hervey Fisk. A. S. Hatch.

☞ FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 Nassau st.,
New York, Jan. 2, 1871.

The subjoined table will show the gross earnings and operating expenses of the main line of the Central Pacific Railroad (Salt Lake to San Francisco), and the number of miles operated in each year, from the commencement to the present time:

Miles operated.	Gross earn'gs.	Oper. expenses.
1865.. 31 to 56	$401,941 92	$121,669 53
1866.. 56 to 94	864,917 57	200,710 61
1867.. 94 to 137	1,470,653 50	380,913 33
1868..137 to 468	2,300,767 17	848,066 54
1869..468 to 742	5,670,822 25	2,998,428 19
1870..742 to 900	7,920,710 98	4,060,564 95
Total.....	$18,629,813 39	$8,550,543 15

The net earnings, interest liabilities, and surplus earnings for the same period were:

Net earnings.	Interest on outstanding bonded debt.	Surplus of net earnings over interest.
$10,079,265	$4,184,221	$5,895,042

From the foregoing it will be seen that the Central Pacific Railroad has earned, in six years, more than $10,000,000 net over operating expenses, and nearly $6,000,000, over operating expenses and interest on its bonds; while, during four years and a half of that time, the road was under construction, without through business, and, for the first three years, with less than 100 miles in operation.

Of the earnings for 1870, at least 65 per cent. was local business.

The security of the principal, and the assurance of regular and prompt payment of interest which are afforded in the valuable property and immense revenue of the road, render the Central Pacific bonds as safe and reliable an investment as can be made.

We deal in them the same as in Government Bonds; they are daily quoted on the regular call of the New York Stock Exchange, and of several of the most important Stock Exchanges of Europe, and can be as readily sold at quoted market price as the bonds of the United States Government.

We buy and sell Government Bonds, Gold, &c., make collections, receive deposits, allow interest thereon, and do a general Banking business.

☞ The Attleborough Branch of the Boston and Providence railroad, about four miles in length, has been completed and opened for business.

Journal of Railroad Law.

RAILROAD COMPANIES—DEATH BY NEGLIGENCE—RECIPROCAL DUITES OF COMPANY AND PERSONS CROSSING TRACK.

The facts of the late case of The Lehigh Valley Railroad Company *vs.* Hall (61 Penn. 361) are fully and clearly stated in the following able opinion by

WILLIAMS, J.—There are ten specifications of error in this case, nine of which relate to the charge of the Court, and one to the admission of the testimony of Harrison Bietler, to prove the marriage of the plaintiff below with the deceased. The testimony of Bietler, showing that the parties lived together as man and wife, and that they were treated and recognised as such by the neighbors was properly received. Marriage is regarded in this State as a civil contract, and is provable in all civil actions by cohabitation, reputation, acknowledgement of the parties, reception of the family, and any other circumstances from which it may be inferred.

The charge which is the basis of the other assignments, is not properly on the record. No exception was taken to it, nor was the court asked to reduce it to writing, and file it at the time of the trial. It was filed as the presiding judge certifies, at the request of the counsel of the defendants below, made more than seven months after the verdict was rendered, and a month after judgment was entered thereon, and without any bill of exceptions being sealed thereto. As the charge has not been brought upon the record in either of the modes provided by law, Wheeler *vs.* Winn 3 P. T. Smith 122, it is not properly before us, and this would be a sufficient reason for disregarding the assignments of error and affirming the judgment. But if it had been made part of the record, no sufficient grounds have been shown for a reversal of the judgment.

On the trial, the counsel of the railroad company submitted a number of points, all of which the court affirmed, and in the general charge laid down the law in strict accordance with the principles stated in the points, and submitted the question arising thereon under the evidence with great fairness and impartiality, to the jury.

Under the instruction of the court the jury found that the deceased was killed on the street, while lawfully crossing the railroad, and that his death was the result of carelessness on the part of the company's agents in charge of the train, without concurrent negligence on his part. The company now complains that the court erred in submitting these questions to the jury, and insists that it ought to have instructed them, that there was no proof that the deceased conducted himself with ordinary care in crossing the railroad and no evidence that would warrant the inference that his own negligence did not contribute to his death; and that in the absence of affirmative proof of the exercise of proper care on his part, the plaintiff below was not entitled to recover. But the court was not asked to withdraw the case from the jury by a binding direction that there could be no recovery under the evidence, and it would have been error to have given any such instruction if the request had been made.

The evidence showed that the railroad crossed Linden street, near its intersection with Front street with a double track; that the deceased was last seen alive coming down Front some distance above Linden street; that he was found dead on the railroad, lying between the rails of the eastern track about fifty feet above Linden street; that there were marks of blood on the outside or eastern rail at the crossing on Linden street. The accident occurred between 7 and 8 o'clock in the evening and the night was dark. Two coal trains belonging to the company, one coming down and the other going up passed each a square or two below Linden street; the down train had a head light, the up train, by which the deceased was killed, had no head light, and gave no warning of its approach by bell, whistle or other signal as it passed through the town. It was running at the usual rate of speed, and must have reached Linden street crossing just after the down train had passed over it.

Under the evidence, it is clear that the case could not have been withdrawn from the jury. It was their province to deal with the facts, and to draw from them the proper conclusions. The court could not assume that the deceased was a trespasser on the railroad, and had no right to be where he was at the time he was struck by the passing train. Nor could it assume that his own negligence contributed to his death, and that it was not occasioned by the negligence alone of the company's agents in charge of the train. If there were blood marks on the rail on Linden street, might not the jury properly infer that the deceased was killed while crossing the railroad at that place, and as it was a public street, that he was rightfully there? And if the train was running without a head light, and without giving any other notice or warning of its approach, might not the jury infer that his death was occasioned by the recklessness of the company's agents in thus running the train, rather than by any want of care on his part in not observing it in time to avoid danger? It is true that it was the duty of the deceased, before he attempted to cross the railroad, to stop and look both ways, and listen for approaching trains, but it does not follow that there can be no recovery for his death, in the absence of direct and positive evidence that he observed these precautions. Nor does it follow that he failed to observe them because he was struck by the passing train.

How could he distinguish the noise of the train which went down with a head light from that of the train which was coming up; and what reasons had he for supposing that a train was coming up at that hour without a head light, or signal of any kind? Where one is killed by such negligence as shown in this case by the agents in charge of the train, the law will not presume in the absence of proof that his own negligence contributed to his death. If the court had charged that the legal presumption in such case is, that the deceased was guilty of concurrent negligence, and that there could be no recovery for his death, without affirmative proof that he exercised due and proper care in crossing the railroad, and that he observed all the requisite precautions before he attempted to set his foot upon the track, it would have been an error.

The plaintiff in error, then, as we have endeavored to show, has no reason to complain of the charge; it was as favorable as the company had any right to expect. Whether a wife is en-

titled to recover as damages for the death of her husband only the difference between the worth and the value of her services and of the support which she would be entitled to receive from her husband, as the court charged in this case, it will be time enough to consider when the question arises.

Judgment affirmed.

Railroads in Maine.

At the close of the year 1870, Maine had in operation 780 miles of railroad, 78 miles of which were put in operation during the year. The exact cost cannot be stated with entire accuracy, but the sums expended on the completed lines will exceed $25,000,000. In addition to this expenditure, for completed roads, a large sum has been laid out in extending other lines now in progress, the Portland and Rochester road beyond Springdale, the Portland and Ogdensburg road north of Baldwin, the Maine Central extension from Danville to Cumberland, the Knox and Lincoln road between Bath and Rockland, the Somerset road from West Waterville to Solon, the European and North American Railway from Mattawamkeag to the Brunswick line. The roads in progress, will add 184 miles of new line, and probably, during the present year—so that at the close of 1871, we may expect an aggregate of 964 miles of completed railway within the State of Maine costing $33,000,000 and over. It may be of interest to give a list of our railroads, with their length and cost of construction.

	Miles.	Cost.
Androscoggin	70½	$1,252,677
Atlantic and St. Lawrence	149	7,645,089
Calais and Baring	6	266,160
Gt. Falls and South Berwick	6	170,000
Dexter and Newport	15	300,000
E. and N. A. Railway Co.	58	2,500,000
Lewey's Island	16	385,000
Machiasport	8	120,000
Maine Central	110	4,212,401
Portland and Kennebec	109	3,894,965
Portland and Oxford Central	28½	450,000
Portland and Rochester	36	about 1,200,000
Portland and Ogdensburg	34	" 1,000,000
P., S. and Portsmouth	51	1,500,000
Belfast and Moosehead Lake	35	910,000
Bangor and Piscataquis	40	950,000
Houlton Branch	8	200,000
	780	$26,896,292

Lines in Progress:

Portland and Rochester	16
Portland and Ogdensburg	16
Somerset	34
Maine Central extension	18
Knox and Lincoln	46
E. and N. A. Railway	54
	184

Charters have been granted for the Portland and Rutland, now Portland, Rutland, Oswego and Chicago Railway Company, and the Penobscot River Railway Company, the construction of which are soon to be entered upon. Many new charters are to be applied for the present year, principally connecting links proposed between existing lines.

The Saco River Railroad Company has been organized to construct a line from the water at Saco, up the Saco river. The Portland, Rutland, Oswego, and Chicago Railway Company have recently organized, surveyed this line from Portland harbor to the State line of New Hampshire, a distance of 40 miles, the location of which was filed in 1870, in the counties of Cumberland, York and Oxford.

The alignment of this road runs due west from Portland to the Saco River, thence northwest to the valley of the Ossipee, striking the line of New Hampshire at Freedom, by the cheapest route, over which any line of equal length has been located in the State.

It is in contemplation to enter upon the construction of this line, as soon as the arrangement is perfected for the formation of a through line to Oswego. The charter granted at the last session of the Legislature of Maine, authorizing the formation of a single company for this purpose from Portland west, across the States of Maine, New Hampshire, Vermont and New York, and the necessary legislation has been secured, and companies formed for the entire distance, except from Fort Ann to Oswego, and for this portion means have been taken to form the New England and Oswego Railroad Company, the preliminaries having been agreed upon.

This line though extending in other States like the Atlantic and St. Lawrence Railroad, is a portion of the Maine system of roads, as is also the Nashua Extension which is to be a part of the Portland and Rochester line, and the Ogdensburg road as built beyond the State boundry. A line of railway is contemplated from some point on the line of the E. and N. A. Railroad to Houlton, and to the northern boundry of the State at the St. John river, but further legislation may be required before the work is entered upon.

The recent movements to introduce Swedish Immigrants into Northern Aroostook has called attention to the valuable lands in Northern Maine, which hold out attractions for settlement beyond any now offered in Minnesota, or any other western State, and no doubt the present Legislature will look carefully into this question of railroads and immigration as effecting the settlement of the country.

There are several railroad projects in this State, for which charters have been secured, the International railway from Milford to Calais,—the Penobscot and Union River railroad from Bangor to Ellworth, the Androscoggin Valley railroad from Lewiston to Rumford, the Andover railroad from Bryants Pond to Umbagog Lake, with several lines of less importance,—upon none of which are there any movements looking to their construction.

Maine has as much territory as the five New England States; which have 3,557 miles of railroad in operation, and are still at work constructing new lines,—and the sperit now manifested, by the people of the State, renders it certain that the work of constructing railroads, is to go on hereafter, at an accelerated pace.—*Portland Argus.*

☞ The Lewiston *Journal* says that Managing Director Brydges, of the Grand Trunk Railway, will at once co operate with the building of the proposed railroad from the Grand Trunk to connect with the Androscoggin Railroad. It is proposed to lay three rails, for wide or narrow gauge.

☞ Through trains are now running on the Nova Scotia railway between Halifax and Amhurst via Truro, there connecting with trains on the European and North American railway for Shediac and St. John, N. B.

☞ Trains are now running on the Pittsburg and Connellsville railroad from Cumberland to Bridgeport. The work on the unfinished portion of the road is progressing rapidly.

☞ The Detroit and Milwaukee and Great Western Railway of Canada have guaranteed the bonds of the Port Huron and Lake Michigan railroad, which insures its speedy completion.

☞ A contract to extend the track of the Atlantic and Pacific road from Neosho sixty miles into the Indian territory, has been awarded to Mr. Judson.

☞ The Illinois Central Railroad company have declared a dividend of five per cent. *in gold*, payable January 30, 1871.

MIDLAND BONDS

IN DENOMINATIONS OF

$100, $500 and $1,000.

These favorite SEVEN PER CENT. GOLD BONDS are secured by a first mortgage on the great Midland Railroad of New York, and their issue is strictly limited to $20,000 per mile of finished road, costing about $40,000 per mile. Entire length of road, 345 miles, of which 220 have been completed, and much progress made in grading the remainder.

RESOURCES OF THE COMPANY.

FULL PAID STOCK SUBSCRIPTIONS, ABOUT	$6,500,000
SUBSCRIPTIONS TO CONVERTIBLE BONDS	600,000
MORTGAGE BONDS, $20,000 PER MILE ON 345 MILES	6,900,000
TOTAL	$14,000,000

EQUAL TO $40,000 PER MILE.

The road is built in the most thorough manner, and at the lowest attainable cost for cash.

The liberal subscriptions to the Convertible Bonds of the Company, added to its other resources, give the most encouraging assurance o. the early completion of the road. The portion already finished, as will be seen by the following letter of the President of the Company, is doing a profitable local business:

NEW YORK, Dec. 2, 1870.

Messrs. George Opdyke & Co., New York:

GENTLEMEN,—Your favor of the 1st inst., asking for a statement of the last month's earning of the New York and Oswego Midland Railroad, is at hand. I have not yet received are port of the earnings for November.

The earnings for the month of October from all sources were $53,709 17, equal to $524,510 04 per annum on the 147 miles of road, viz: Main Line from Sidney to Oswego, 125 miles; New Berlin Branch, 22 miles.

The road commenced to transport coal from Sidney, under a contract with the Delaware and Hudson Canal Company, in the latter part of November. The best informed on the subject estimate the quantity to be transported the first year at not less than 250,000 tons, while some estimate the quantity at 300,000 tons. This will yield an income of from $375,000 to $450,000 from coal alone on that part of the road.

Taking the lowest of these estimates, it gives for the 147 miles a total annual earnings of $899,510 04. The total operating expenses will not exceed fifty per cent., which leaves the net annual earnings $449,755 02, which is $214,555 02 in excess of interest of the bonds issued thereon.

I should add that the earnings from passengers and freight are steadily increasing, and that, too, without any through business to New York. Yours truly,

D. C. LITTLEJOHN, President,
N. Y. and O. Midland Railroad Co.

The very favorable exhibit presented in the foregoing letter shows that this road, when finished, with its unequaled advantages for both local and through business, must prove to be one of the most profitable railroad enterprises in the United States, and that its First Mortgage Bonds constitute one of the safest and most inviting railroad securities ever offered to investors.

For sale, or exchanged for Governments and other current securities, by

GEORGE OPDYKE & CO.,

REISSUE.

4,224.—Securing Railway Rail Joint, Lyman Fay, Worcester, Mass., assignor to Joseph M. Rice, same place, and Daniel Pratt, New York. Patent No. 35,597, dated June 17, 1862.

☞ The following gentlemen have been elected directors of the Cincinnati and Indianapolis Junction R. R. Co., for the ensuing year: Lewis Worthington, Wm. Woods, J. M. Donohue, J. A. Fraser, C. J. Acton, of Cincinnati; J. M. Ridenour, of Indianapolis, and A. H. Campbell, of Liberty, Ind. President, Lewis Worthington; Secretary and Treasurer, M. H. Coates.

☞ The Oshkosh and Mississippi Railroad Company, it is announced, has secured money enough to build its road from Oshkosh to Ripon, and it is expected that portion of the road will soon be constructed.

☞ The railroad connecting Winona with the Milwaukee and St. Paul railroad, near LaCrosse, has been completed, and is now open for business. A temporary bridge has been built at Winona over the Mississippi river.

☞ The Lehigh Valley R. R. Co., has leased the Southern Central Railroad of New York, extending from Sodus Bay, Lake Ontario, to Athens, Pa., and will operate it in connection with their line."

☞ The Augusta (Ga.) *Chronicle*, says that the survey of the projected road to connect Macon and Knoxville, has been commenced. It is understood that the contemplated line will pass near Lawrenceville, Gwinett county.

☞ The Winona *Republican* mentions the completion of the Winona Eastern Connection Railroad, and of the St Paul and Winona Railroad to Weaver, a short distance above Minneiski.

☞ The Board of Directors of the Cold Water and Lake Michigan railroad have accepted the terms of consolidation with the Cold Water and Michigan railroad.

☞ The Hoosac Tunnel has been completed 2 7-12 miles, leaving 2 2-12 miles to be penetrated.

PROCLAMATION of the SALE of the HOUSTON TAP AND BRAZORIA RAILROAD, by the Governor of the State of Texas, in the name and by the authority of the State of Texas.—Whereas, The railroad company known as that of the "Houston Tap and Brazoria Railroad" is largely indebted to the School Fund of the State of Texas, for principal and interest of the Special School Fund loaned to the same under the act of the Legislature of August 13th, 1856, entitled "An Act to provide for the investment of the Special School Fund in the bonds of railroad companies incorporated by the State," and the amendments thereto, which principal and interest is secured by the bonds of said railroad company, made and executed to the State of Texas under said act and amendments; and

Whereas, Said railroad company, by failure to pay the interest and sinking fund of said indebtedness, has not complied with its obligations under said act of August 13th, 1856, and the amendments thereto, and has also not complied with the act of 13th of August 1870, entitled "An Act for the relief of railroad companies indebted to the State for loans from the School Fund;" and

Whereas, Because of such failure, the Governor of the State is required, by said acts of the Legislature, to cause said railroad to be sold in satisfaction of said indebtedness;

Now, therefore, be it known that in conformity with said acts of the Legislature, I, EDMUND J. DAVIS, Governor of said State, will, on WEDNESDAY, the 15th day of February, A. D. 1871, cause to be sold the said "Houston Tap and Brazoria Railroad," and the charter rights of said company, including the road-bed, right of way, grading, bridges, iron rails, equipments and masonry, and all the stock subscribed for in said company, all the depots and depot stations, and all the property owned by said company as necessary to its business—said railroad being about (50) fifty miles long.

Such sale to take place, at public auction, on said (15th) fifteenth day of February, A. D. 1871, at the door of the Capitol of the State at Austin, between the hours of 10 a. m. and 12 o'clock m., and the sale to be to the highest cash bidder; *provided, however*, that the Governor reserves the right, should he deem it advisable, to buy said property in, for the benefit of the School Fund, should no cash bid be made sufficient to cover the principal and interest due on the School Fund.

In testimony whereof I have hereunto signed my name, and have caused the great seal of the State to be affixed, at the City of Austin, this 12th day November, A. D. 1870, and of the independence of Texas the thirty-fifth. EDMUND J DAVIS, Governor.

[L. S.]

By the Governor: JAMES P. NEWCOMBE, Secretary of State.

PROCLAMATION of SALE of the TEXAS AND NEW ORLEANS RAILROAD—By the Governor of the STATE OF TEXAS—In the name and by the authority of the State of Texas—Whereas, The railroad company known as that of the "Texas and New Orleans Railroad", is largely indebted to the school fund of the State of Texas, for principal and interest of the special school fund, loaned to the same under the act of the Legislature of August 13th, 1856, entitled "An Act to provide for the investment of the special school fund in the bonds of railroad companies incorporated by the State," and the amendments thereto—which principal and interest is secured by the bonds of said railroad company, made and executed to the State of Texas, under said acts and amendments; and

Whereas, Said railroad company, by failure to pay the interest and sinking fund of said indebtedness, has not complied with its obligations under said act of August 13th, 1856, and the amendments thereto, and has also not complied with the act of 13th of August, 1870, entitled "An Act for the relief of railroad companies indebted to the State for loans from the special school fund;" and

Whereas, Because of such failure, the Governor of the State is required, by said acts of the Legislature, to cause said railroad to be sold in satisfaction of said indebtedness;

Now, therefore, be it known, that in conformity with said acts of the Legislature, I, EDMUND J. DAVIS, Governor of said State, will, on TUESDAY, the 14th day of February, A. D. 1871, cause to be sold the said "Texas and New Orleans Railroad," and the charter rights of said Company, including the road-bed, right of way, grading, bridges, iron rails, equipments, and masonry, and all the stock subscribed for in said Company, all the depots and depot stations, and all the property owned by said Company as necessary to its business—said railroad being about one hundred and eight (108) miles long.

Such sale to take place, at public auction, on said 14th day of February, A. D. 1871, at the door of the Capitol of the State, at Austin, between the hours of 10 a. m. and 12 o'clock m., and the sale to be to the highest cash bidder; *provided, however*, that the Governor reserves the right, should he deem it advisable, to buy said property in, for the benefit of the school fund, should no cash bid be made sufficient to cover the principal and interest due the school fund.

In testimony whereof, I have hereunto signed my name, and have caused the great seal of the State to be affixed at the City of Austin, this 12th day of November, A. D. 1870, and of the Independence of Texas the thirty-fifth. EDMUND J. DAVIS, Governor.

[L. S.]

By the Governor: JAS. P. NEWCOMB, Secretary of State.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

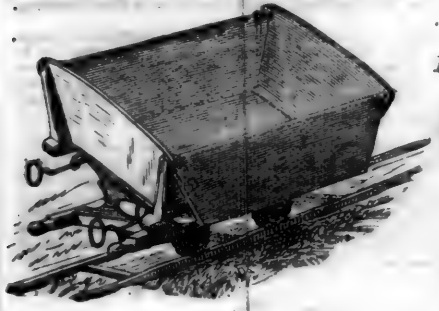
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

On the Use of Cast Iron in the Construction of Iron Bridges.

A Criticism on "THOMAS C. CLARKE'S Criticism of F. C. LOWTHORP'S paper 'On the use of Cast Iron for Compressive Members in the Construction of Iron Bridges,'" published in the AMERICAN RAILROAD JOURNAL of December 17, 1870.

If my paper was not "published by the Society in the usual course of its papers," can Mr. C. state the reason why? Or can he inform me what object the committee of publication, (of which his friend Gen. Geo. S. Green, was chairman) had in view, in (when they *did* publish it) first expunging from it several important paragraphs, and then circulating it minus the engraving which should have accompanied it, and without which it could not be properly understood.

The following are the paragraphs which were omitted:—(1). Having recently had my attention directed to an article published in the Feb. No., 1870, of the Journal of the Franklin Institute of Phila., Pa., over the initials "A. P. B.," in which the writer in his attempt at criticising "A Work on Iron Truss Bridges for Railroads," by Brevet Col. W. E. Merrill, U. S. A., after quoting the names of numerous authors, arrives at the strange conclusion, that cast iron is an unsafe material to use in such structures.

(2). Believing the article in question—appearing as it did in a leading Journal of science—was calculated to mislead many who are deeply interested in the subject, but whose time is so taken up in the discharge of other duties as to prevent their investigating the matter, I have been led to prepare and read before you the following facts and observations:

(5). I think it very remarkable indeed that A. P. B. who has enjoyed the great advantage of examining so many authors, should have done it in a manner so superficial as to overlook the results of the numerous experiments of such men as Tredgold, Hodgkinson, Whipple and Maj. Wade of the U. S. Ordnance Corps; as also the practical experience of such well-known engineers and builders of bridges, as Whipple, Bollman, Fink, and others; or surely he would never have taken for granted the statements of Mr. Edward Clarke, that "Cast Iron Changes its Length nearly twice as much as Wrought Iron for every Ton of Imposed Load," and "that it does not recover itself fully after the load is removed, even when that load is but *one ton to the inch*."

These properties A. P. B. observes, "are sufficient to give wrought iron the preference for compressive members in bridge construction."

In contradiction to the preceding, I quote the following facts:

(43). Having described the details of the two bridges, I will proceed to show the advantages which I think the one possesses over the other.

(44). In the Linville Bridge, the lower chord bolts must be drilled exact or they will not have a bearing, and being flat, expose about ⅗ more surface for painting and corrosion than would round bars of equal area. The whole strain is thrown upon the connecting pins at every panel. Should one of the chords, main or counter diagonals break, it could not be replaced except with great difficulty and danger, as the least spreading of the truss would prevent the pins re-entering the eye holes.

(47). In the Linville Bridge, the whole length of the interior and exterior of the shaft of the post M. M. from E. to E. is exposed to corrosion, and there is little or no chance afforded for repainting the interior.

(48.) Although in the drawing, which is a correct copy of a lithograph of the Linville bridge sent me, the important parts C. and D. are represented as of wrought iron, all I have seen or examined were made of cast iron, and the post having one round bearing, loses one third of its legitimate strength.

(50.) Any one must perceive at a glance that the upper chord of the Linville bridge, being composed of several members in sections, presents a great amount of surface both on the exterior and interior, subject to corrosion more than double what there is on the upper chord of my bridge.

(51). In conversation with the late Mr. Roebling, a short time previous to his death, he remarked to me, "I do not like the upper chord of the Keystone Co.'s bridge, I see no possible way to prevent interior corrosion."

(52). A few years since, Prof. McGowan (I think that was the name,) before a scientific association in London, remarked, in allusion to the wrought iron bridges of Great Britain:

"Our Iron Bridges are gradually melting away, forty tons of rust having been removed from the outside of the Britania bridge, which does not indicate nearly the whole amount of corrosion, as that of the interior has not been taken into consideration."

(53). Mr. L., in order to secure a square bearing for the nuts of the upper ends of his main and counter diagonals, uses a cast iron angle block (G. G. figs, 6 and 7,) some of which broke on the Easton bridge, I have been informed, during the process of erecting and adjusting; had they formed a part of the chord itself, such an accident could not have occurred.

(54.) In placing the angle block G. on top of the chord, as is done by Mr. L., a large amount of the effective strength of the chord is lost, for it will be perceived that if a force acting on the main diagonals H. H. be resolved into the counter-acting vertical and horizontal forces, the latter will be found exerting itself along the upper surface of the top chord, instead of the central axis of the same, the tendency of which is to buckle it. For a common, but much worse example, see fig. 5.

(55.) In a top chord 21 inches wide, Mr. L. can use but two main and one counter diagonal. In my bridge, the upper chord which is of cast iron,

is composed of one member in sections and the bearings for the mains and counters are always so arranged that the resolution of their forces into the vertical and horizontal ones invariably cause the latter to be exerted along the line of their axes. In an upper chord of 15 or 16 inches diameter or width I can use double the number of main and counter diagonals of equal size, that Mr. L. can in his chord of 21 inches, and my chord has the further advantage of angle bearings which cannot break. As there is safety in numbers there certainly must be more in double than in half the number of bolts.

(56.) However much Mr. Edwin A. Clarke may distrust the use of cast iron in bridges, Mr. Linville has shown great confidence in it, or he would not have made his end posts, and main and counter diagonal bearings entirely of it, as also all of the intermediate post bearings, as he has done in all of the bridges built for the Penn. C[illegible] R. Co. across the Schuylkill river, including the one for the Junction R. R. which has a span of 250 feet. Indeed it would be highly criminal for any engineer or builder to use cast iron in parts of such vital importance if he thought it unsafe.

(63.) So far as my own experience goes, which has been of many years and over a tolerably broad field, I have endeavored to give you a true statement, as I have also, so far as my time would permit of such facts as have a bearing upon the subject, which I have been able to collect from the experiments and writings of others.

In justice to the Society I should state that upon my speaking of the action of the committee, some of the members present expressed their surprise and indignation at such a lack of courtesy, one of them offering a resolution which was promptly adopted, to the effect that "hereafter no paper read before the Soc. and referred to the pub. committee shall be either abridged or published without the full consent of the author."

As the article of A. P. B. was published in a leading scientific Journal, mine which was a reply, was of course intended for the public as well as for the Society. As for the "facts and observations," of which there appeared to be too many for the committee, the paper speaks for itself. I gave no list of my bridges, merely mentioning four by way of illustration.

Mr. C. remarks, "*if* moreover *it can* be shown that some of his bridges are strained beyond what the best practice of the engineering profession has fixed as the limits of safety;" would it not have been more prudent in him to have ascertained whether the parts in question *were* so strained, before so expressing himself. Had he done so, I think he would have found himself mistaken. I do not suppose my works to be perfect, but when I discover errors, endeavor to correct them.

It was to be expected that one of the great advantages to be derived from an association of Civil Engineers, would be the critical examination of Public Works, Scientific essays, etc., by whomsoever designed and constructed, or written; but it seems that my attempt in that direction has provoked considerable feeling, which I much regret.

In reference to cast iron columns my critic ys, "but there is another fact to be taken into ccount, and that is, that a compressive force acting along the axis of a column will produce a tensile strain acting at right angles to it." Now I assert that a column along whose axis is erected a compressive force can be affected by no other strain, unless it bends from weakness. And Mr. C. knows that posts or upper chords so defective, will be found in no bridge designed and constructed by a competent engineer or builder.

Again, he says, "Mr. Lowthorp quotes Hodgkinson, whose experiments *are our sole* authority upon the strength of cast iron struts. From his experiments Hodgkinson derived a formula which is the best means we have of ascertaining the strength of any cast iron columns. By this formula a hollow cylindrical cast iron column whose length does not exceed 14 or 15 diameters (which is about the proportion of Mr. Lowthorp's upper chord) will bear before failing about 50,000 lbs. pr. sq. in. The factor of safety as usually taken by engineers is from 1-5 to 1-7 of the ultimate strength. Mr. Lowthorp admits that in one instance he has subjected his cast iron upper chords to a strain of 19,000 lbs. pr. sq. in. and wishes us to believe, on his sole authority, that the elasticity of the metal is not impaired. It is evident that Mr. Lowthorp has not followed the excellent advice of Mr. Whipple, quoted by himself."

I am surprised at Mr. C.'s making the last remark, for if he will but refer to his memory he will recollect that at the time of the letting of the Quincy Bridge, I remarked to him, in substance, as follows, "I do not see the propriety of submitting the cast iron to a uniform strain regardless of the lengths and diameters of the pieces (according to his specifications "the wrought iron must not be submitted to a tensile strain of more than 10,000 lbs. pr. sq. inch, nor the cast iron to a compressive strain of more than 6,000 lbs. pr. sq. in."). It is evident if we take three posts or columns of the respective lengths of 10, 20, and 30 ft. and of equal diameter and sectional area, that the forces required to break them will differ greatly, owing to the want of perfect uniformity in the texture or particles of the materials. Was I not the first that suggested to him the idea of proportioning his columns in lengths, diameter, and sectional area, according to the loads they would be required to bear. If not, why did he draw up his specifications in the manner mentioned, when in some cases 6,000 lbs. would be entirely too much, and in others much too little for economic safety.

My chords vary in length and diameter, according to the weight they are required to sustain, the one alluded to, as bearing a strain of 19,000 lbs. pr. sq. in. was, I believe, about 11 diameters in length.

Hogdkinson—high as he justly stands with the Engineering profession—is not our *sole* authority upon the strength of cast iron struts. Mr. S. Whipple from numerous experiments, has also produced a formula, and has constructed a table which, for all practical purposes, is quite as safe as Hodgkinson's. In proof of which I deduce the following: According to H. a column of 30 diameters length broke with a load of 32,595 lbs. pr. sq. in. Whipple's safe load (for R. R.) on such a column is 5,400 lbs. or about 1-6 of the breaking strain. A second column of 34 diameters length broke with a load of 26,282 lbs. pr. sq. in. W's safe load for the same is 4,554 lbs. or about 1-6 of the ultimate strength. A third column of 40 diameters length broke when loaded with 25,098 lbs. pr. sq. in. W's safe load for which, is 3,625 lbs. or about 1-7 of its ultimate strength. According to Mr. W's tables, the safe load which hollow cylindrical columns—for R. R. purposes—may bear, varies from 2,500 lbs. to 3,600 lbs. pr. sq. inch, on columns from 2 to 40 diameters in length.

Not having Hodgkinson's work at hand, I have referred to his tables as published in "Francis Work on the Strength of Cast Iron Pillars," from which, page 24, I quote as follows, "Hodgkinson's experiments indicate that wrought iron pillars with flat ends, of lengths equal to 30 diameters, are only about one-tenth stronger than cast iron pillars of the same dimensions. In a single experiment on a wrought iron pillar with flat ends of a length equal to about 15 diameters, *the strength was nearly* 40 *per cent. less than that of a like pillar of cast iron.* This great difference in the relative strength of cast and wrought iron pillars of different lengths in proportion to their diameters, arises from the greater strength of wrought iron to resist a tensile force, and *its less strength to resist a crushing force*, the strength of short pillars depending mainly on the power of the material to resist the latter force."

According to the preceding quotation a cast iron post of 30 diameters and ⅛ inch thickness is stronger than one of wrought iron of same length and diameter and 7-16 inch thick, and, of course, much cheaper; and for upper chord pieces which are shorter very much safer and cheaper; the action of gravity on the latter is hardly worth noticing.

Both Hodgkinson's and Whipple's experiments were made, I believe, on cast iron of average strength.

If "Hodgkinson is our *sole* authority on the strength of cast iron struts," why quote the absurd statement of E. Clarke that cast iron takes a set even under the first ton of compression?

Mr. C. speaks of it being an impossibility to detect flaws, honey-combs, &c., in castings; in this he is mistaken, such imperfections generally appear at the surface, and can readily be detected by those familiar with cast iron work. That the case is very different in regard to wrought iron has already been demonstrated by my paper. As however, Mr. Clark does not appear to comprehend that paper, I would advise him to take a walk along the line of a new Railroad laid with rails of the best wrought iron, and see if he can detect any flaws, and then let him repeat that walk after the road has been in use a few years, and state what other reason than that of defective welding, he can give for such a multitude of imperfect rails as he will find.

Finally; Mr. C. remarks, "No man in his senses would allow of the use of cast iron in the floor beams of a bridge." It occurs to me that he would not have made that remark, had he recollected the fact of his having suspended the draw-bridge at Quincy from the *cast iron cap* of the pivot pedestal, the strain on which is the same as that on floor beams when loaded.

A skilful engineer will be governed by circumstances; if he cannot procure the best material, he will so proportion his work with the material at hand as to insure perfect safety.

Believing that my paper has been fully vindicated, I remain, &c.

F. C. LOWTHORP,
Trenton, N. J.

January 16, 1871.

Philadelphia and Reading Railroad.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 9th inst., the following report was presented:

To the Stockholders of the Philadelphia and Reading Railroad Company:

The managers submit the following report of the receipts and expenditures for the year ending November 30, 1870, together with the Treasurer's general balance sheet, exibiting the financial condition of the company at that date.

The following tabular statement in detail for each branch of traffic shows the comparative results of the year:

	1869.	1870.		
Travel	Passengers, 435,754	Passengers, 446,328	$1,205,539	Inc. $21,533
Merchandise	Tons. 1,422,738	Tons. 1,754,943	1,690,444	Inc. 110,821
Coal	4,239,457	3,750,990	6,498,871	Dec. 1,847,369
Mail	1,579,623	....	84,242	Inc. 5,072
Miscellaneous	6,346,240	....	142,271	Inc. 73,029
Gross receipts	29,170		$9,571,367	Dec. $1,637,014
Gross expenses	69,342		6,508,786	Dec. 367,527
	$11,208,881		$3,062,581	Dec. $1,269,487
Net profits	6,875,813			
Gross expenses including renewal fund, rents of lateral roads, taxes, &c., in the year 1869 were 61 35-100 per cent. of gross receipts.	$4,332,068			
Gross expenses, including renewal fund, rents of lateral roads, taxes, &c., in the year 1870 were 68 per cent. of gross receipts.				

The receipts and expenses per passenger and per ton have been as follows:

	1869. Cost.	Received.	1870. Cost.	Received.	pr. ct.
Per passenger	$1 44.0	$2 71.7	$1 32.4	$2 70.1	1.8
Merchandise, per ton	59.7	1 11.0	46.1	96.3	
Coal, per ton	88.8	1 96.9	99.8	1 78.3	

In this statement and in those of a similar character which have appeared in previous reports of the company, the amounts representing the cost per passenger and per ton of merchandise and coal respectively, include only such expenses as appear in the transportation and income account under the heads of running account, workshop account, depot account, superintendence account and roadway department—the latter embracing bridges, buildings, machinery, Richmond wharves, police and sundries—and do not include the items under the several heads of drawbacks and allowances, rents and ground rents, &c., renewal fund and interest on bonded debt, and on bonds and mortgages; and in ascertaining the cost and receipts per ton of coal, the divisor used has been the aggregate coal tonnage of the main line only. To exhibit the actual cost of these several items of traffic, including all the disbursements of the company shown under the heads last named, and to show the average cost and receipts per ton of coal, calculated as well upon the coal tonnage of the main line only, as upon the entire coal tonnage of the company, the following statements have been prepared:

1. Including renewal fund, rents of laterals, taxes, interest, &c., and based upon coal tonnage of main line only:

1870.			
Per passenger	cost $1 84.8	received	$2 70.1
Mdse., per ton	cost 68.1	received	96.8
Coal per ton	cost 1 85.2	received	1 78.3

2. Including renewal fund, rents of laterals, taxes, interest, &c., and based upon entire coal tonnage of the company on main line, and on the branches or laterals:

Per passenger	cost $1 84.8	received	$2 70.1
Mdse., per ton	cost 68.1	received	96.8
Coal, per ton	cost 1 09.5	received	1 40.3

In all of these statements it must be borne in mind that the entire cost of working the road, renewal, interest, &c., is charged against passenger, merchandise and coal traffic, leaving nothing to the debit of the receipts from mail and miscellaneous service.

The result of the year's business, as condensed from transportation and income account, may be stated thus:

Receipts over cost of working the road		$3,062,581 70
Add balance of interest account, &c.	$221,718 08	
Less drawb'cks on traffic of 1869	$71,692 37	
Loss on busin's of Schuylkill Canal as below	11,973 88	
	83,666 25	
		$138,051 83
Amount to credit of reserved fund 1869	$623,743 32	
Amount of United States tax on dividend of Jan., 1870, deducted from income in last report, which was not paid and which, by decision of U. S. Circuit Court, is not due.	110,828 48	
		734,571 80
Amount heretofore deducted from income for account of sinking fund of loans, now all either converted into st'k or cancelled.	$636,050 60	
Less other sinking funds over invested	143,713 01	
		492,337 59
		$4,427,542 92
From which deduct—		
Debit balance of renewal fund.	$56,204 67	
Interest on bonded debt	517,747 00	
Interest on bonds and mortgages	65,426 63	
Sinking funds	68,600 00	
		707,978 80
Dividend fund of 1870		$3,719,564 62
Out of which has been paid in July, 1870:		
Five per cent. dividend on $30,401,600 28	$1,520,080 01	
United States & other taxes, do.	123,179 56	
		1,643,259 57
		$2,076,305 05

There has been declared a dividend payable in cash on the 27th of December, 1870, of 5 per cent. on the preferred and common stock

$31,411,600 28	$1,570,580 01	
State tax	78,429 00	
		1,649,109 01
		$427,196 04
From this deduct the following sums for new work, the aggregate of which is charged against income account as representing the average gold premium upon the amount of the convertible 7 per cent. bonds of the company issued upon a currency basis during the year:		
New tracks and sidings, main line	$158,770 11	
New tracks and sidings, laterals	27,522 93	
New bridges	5,145 98	
New depots	19,727 55	
New retaining wall Mt. Carbon and Port Carbon Railroad	11,667 61	
New hoisting and dumping machine at Richmond	2,447 75	
		225,281 47
Balance of reserved fund		$201,914 57

During the year just closed the coal traffic of the company was very seriously diminished in consequence of the protracted suspension of mining operations in the first and second coal fields. For two weeks in the month of March, and for the entire period between April 1st and August 1st, there was an almost total cessation of transportation of anthracite coal, and out of the forty weeks constituting the shipping season of 1870, fully one-half was lost to the company, to the coal operators, and to the workmen themselves.

Nearly all the miners and laborers of the several anthracite coal fields of Pennsylvania, are united in an organization known as the Workingmen's Benevolent Association, the avowed object of which is to protect its individual members, by securing a uniform rate of wages, based upon, and rising and falling with the market price of coal. In the year 1869 the three transporting and mining companies of the Wyoming and Lackawanna regions refused to pay their workmen upon any basis of wages that would be affected by the price of the commodity, and a disagreement between the operators and the workingmen of the Lehigh region occurring at the same time, the result was the protracted strike of 1869, which continued for five months in the Wyoming, Lackawanna and Lehigh coal fields. Pending this strike the operators and workingmen of the first and second coal fields agreed upon a basis of wages under which work was resumed in all the regions depending for an outlet upon the roads of this company, and the large tonnage of 1869 was obtained. The rate of wages thus agreed upon that year was based upon $3 per ton of coal at Port Carbon as the minimum price, and recognized the right of the workingmen to be paid upon this $3 basis, no matter how much lower the market price of coal would fall. As the supply in 1869 was very much curtailed by the suspension in the other regions, the price of coal was high, and the operators, taking advantage of the idleness of their competitors, were enabled to pay wages upon this basis and realize some profit from their business; but at the opening of trade in 1870, after the companies and operators of the other regions had either compromised with their men or accepted the terms of the basis, it became evident that the high rate of wages which prevailed in Schuylkill, Northumberland and Columbia counties in 1869 could not be paid by the operators, for it was well known that if all the coal fields were producing largely the average price of coal at Port Carbon would not exceed from $2 25 to $2 50 per ton, and that if wages at the $3 basis of 1869 were paid, the cost of the coal at Port Carbon would not exceed the market price.

Under these circumstances the coal operators' association, known as the Anthracite Board of

Trade, proposed a new basis for 1870—recognising $2.50 as the minimum price of coal at Port Carbon—but the workingmen insisted upon the basis of 1869, refused to accept the proposition, and suspended work. After being idle for four months, and entailing a loss upon the members of their association of at least $1,500,000, and of twice that amount upon the other interests connected with the trade, work was resumed on the 1st of August, under a compromise basis, which might probably have been obtained during the first week of the strike but for the feeling existing between the contending parties.

The strike of 1869 in the upper regions enabled the operators of the first and second coal fields to obtain high prices and to pay high wages, and the suspension of 1870 in the lower coal field enabled the Wyoming and Lackawanna Companies and the Lehigh operators to do the same. The capacity of production bears such a proportion to the demand for consumption that a stoppage of any one large region enables the operators and workingmen of the others to realize large prices for their coal and high wages for the labor, and thus a disposition is engendered on the part of those interested in mining to look upon the coal trade as a speculation, in which the unfortunate disagreements between labor and capital in one section may be turned to the profit of both in another, always at the expense of the public, and ultimately to the injury of every industry connected with the trade.

The controlling power in the Workingmen's Association is held by the delegates from the upper coal fields, who, by their votes in the general council, are enabled to force a suspension of the first and second coal fields, the result of which is to raise the price of coal, and enable the workingmen represented by the majority to obtain high rates of wages at the expense of the idleness and suffering of those represented by the minority. Another great evil results from the attempts of the Workingmen's Association to enforce the short-sighted policy of raising prices by stopping the production of coal, forgetting that high prices and uncertainty of supply will drive away buyers, force manufacturers to turn to other fuels, and prevent the natural increase of demand which would soon supply a certain market for any temporary over production.

There can be but little doubt that an organization like that of the Workingmen's Benevolent Association, acting in each region independently of the other, dealing directly with the representatives of their employers, and in all cases of difference referring to the decision of some disinterested umpire, instead of resorting to a strike, would be productive of good results.

These questions are, of course, to be settled entirely by the operators and, the wordingmen themselves, but as the frequency of strikes and the uncertainty and irregularity of the supply of coal seriously affect the great manufacturing interests of the Schuylkill Valley, as well as the traffic of the company, the managers have thought it advisable to announce, and they will enforce such a policy in the adjustment of tolls as will probably prevent the recurrence of any long, continued strike in the future.

In view of the long suspension of the past year, the stockholders of the road may be congratulated upon the fact that the coal tonnage has been greater than that of any previous year, with the exception of 1869, and that while the charges of transportation upon coal have been less than they have been for seven years past, the rates of passenger fares reduced ten per cent. below what they were in 1869, and the charges upon merchandise freights as low as, or probably lower than those of any other road in Pennsylvania, the total expense of operating the road for the year has been but 68 per cent. of the gross receipts, and the net profit has been over three million of dollars.

The entire coal tonnage of the main line for the year was 3,750,990 tons, and the actual number of tons of coal transported on the main line and branches was 4,633,504, leaving 882,514 as the tonnage of the branches not included in that of the main line. During the four months ending November 30, the coal tonnage of the road was greater than that of any four months of any previous year. Notwithstanding the reduction of rates, and the decrease of travel and merchandise traffic, which always attends a suspension of the coal trade, the receipts for merchandise, passenger, mail, &c., have been greater during the last year than in any previous year of the company's existence. The condensed table accompanying this report shows the receipts from these sources for each year since the year 1850, and exhibits the gratifying fact that they have increased from $292,227 in 1850 to $984,388 in 1860, and $3,072,496 in 1870.

During the year the graduation and masonry of the Perkiomen Railroad, between Schwenksville and Green lane have been completed, the construction of the Pickering Valley Railroad has been pushed rapidly forward, and the whole line will be ready for the superstructure early in June next. The Lebanon and Pine Grove branch has been finished and put into operation; the Allentown Railroad, between Topton and Kutztown, has been completed, and a large amount of work has been done between Kutztown and Port Clinton; the extension of the Lorberry Creek Railroad to the coal openings upon the Fishing creek estate has been constructed, and a number of branches to new collieries in the other coal regions have been built, all of which are expected to be productive during the coming year.

The system of railways now controlled and worked by the company aggregates 1,168 miles of single track, as shown in detail by the accompanying report of the Chief Engineer, and to operate all of these lines, together with the Schuylkill Canal, require the services of a force of over 12,000 employees.

During the year new cars and engines to the value of $367,620 04 have been added to the property of the company, and in addition thereto $224,172 36 has been expended in rebuilding engines and cars, and charged to renewal fund.

The rolling stock of the company is now in a very high state of efficiency. The rebuilding of engines and cars, to take the place of those worn out or destroyed, and the large amount of repairs annually expended on those in use, have kept it at all times practically equal to what it was when new, as a very large amount of this equipment has been, during the last few years, paid for out of the surplus earnings of the company, and charged to income account as expenses. The amount charged to locomotive engines and cars in the capital account of the company, $6,082,149 77, but very inadequately represents its extent or value. Some idea of the amount of this equipment may be formed from the fact that the rolling stock of the company, if placed in one continuous line upon a track, would form a train of over fifty-five miles in length. To replace this rolling stock would cost at least $11,500,000, and the following table exhibits a moderate estimate of its present value:

266 first-class locomotives...	$11,500	$3,059,000
43 2d, 3d and 4th class locomotives, average.....	4,000	170,000
5,728 eight-wheeled coal cars.	525	3,006,150
4,437 four-wheeled iron and wooden cars....	195	865,215
3,331 four-wheeled navigation cars....	175	582,925
1,479 eight-wheeled freight cars, average....	690	1,020,510
196 four-wheeled freight cars, average	185	85,260
101 eight-wheeled pass. cars.	8,850	888,850
43 baggage & express cars..	1,650	70,950
462 cars in transportation and roadway departments, and sundry rolling stock in each, as per statement D.....		250,000
		$9,448,860

The Real Estate of the company is worth in cash, at a moderate estimate, fully fifty per cent. more than is charged against it, and it is believed that, if a fair inventory of all of the property of the company at its present value was taken, it would show it to be worth fully ten millions of dollars more than the united capital and debt of the company.

The product of the rolling mill during the year was 17,557 tons, which cost to re-roll an average of $21.30 per ton. The following statement exhibits in detail the number of tons of rails rolled by the company during the last three years, with the quantity of each year's product worn out up to November 30, 1870, and shows that out of an aggregate of 43,565 tons only 1,252¼ tons, or less than 3 per cent. of the entire amount, has been removed from the road:

Years.....	1868.	1869.	1870.	Total.
	Tons.	Tons.	Tons.	Tons.
Product	8,971	17,037	17,557	43,565
1868—worn out...	5			5
1869—worn out...	175	2¼		177¼
1870—worn out...	904	164¼	1¼	1,070
Total worn out.	1,084	166¼	1¼	1,252¼
Per cent	12	.0698	.00085	.028

During the year four more steam colliers have been added to the property of the Company—two of 800 tons burden and two of 1,000 tons each, these, together with the two of 600 tons burden constructed during the year 1869, represent an investment of $588,486 30. The entire receipts of the fleet during the year were.....$199,727 43
Expenses 183,004 12

Balance $16,723 31

The difficulty of obtaining coal freights during the suspension of mining, and a necessity of employing the vessels in a general merchandise coasting trade, together with the costs of remedying several defects in their original construction, so greatly increased the expenses that until the end of October the line was in debt—the profits for the single month of November being greater than the credit balance of the entire year. With constant employment during the year in the coal trade between Richmond and one or two eastern and southern ports, it is expected that the line will meet the expectations indulged when it was originated, and become a source of revenue to the company.

The several companies known as the Mahanoy and Broad Mountain Railroad Company, the Mahanoy Valley Railroad Company, the Enterprise Railroad Company, the Shamokin and Trevorton Railroad Company, and the Zerbe Valley Railroad Company, have been merged into one corporation, called the Mahanoy and Shamokin Railroad Company, and the investments of the company in all these five several railways now appear consolidated in the Treasurer's general account, under the head of Mahanoy and Shamokin Railroad Company's stock.

A very complete and extensive new iron foundry has been built during the year at Reading, which, for very many years to come, will supply all the wants of the company.

Annexed to the report will be found the usual detailed statement showing the amount of property added to the capital of the company during the year, and also a statement showing the value of a new work charged to income account, as representing the difference between gold and currency upon the amount of the new convertible bonds issued during the year.

Upon the 12th of July last, after a negotiation of many months, the company entered into a lease and contract with the Schuylkill Navigation Company and took possession of the works and property of the latter company, thus terminating, in a friendly spirit, and, it is believed to the satisfaction of the holders of the securities of both companies, a rivalry that had existed so many years. A full copy of the lease and contract is annexed to the report for the examination of the stockholders.

The business of the canal since the date it passed into the control of this company is shown by the following statement:

Receipts from coal from July 11 to November 30, inclusive		$867,937 79
Receipts from merchandise from July 11 to November 30, inclusive		55,438 86
Receipts from water rents from July 11 to November 30, inclusive		20,112 76
		$443,488 91
Expenses—repairs	$85,433 39	
Current expenses	22,746 11	
Expenses of landings	25,881 84	
Net loss in working canal between June 1 and July 11, when under control of the Schuylkill Navigation Company, and accounted for to said company	13,147 58	
		146,708 42
Profit in working canal six months		$296,780 49
Less loss in working line of boats owned by the company		40,295 46
		$256,485 03
Proportion of rent from June 1 to November 30, inclusive		268,458 91
Net loss charged to profit and loss		$11,973 88

The capacity of the canal will be very much increased in 1871 by the addition to the transportation stock of over one hundred new boats, which are now being built. When these are added to the number on hand, the canal will be fully equipped for a business of 40,000 tons of coal per week. The capacity of the railroad in 1871 will be at least 140,000 tons of coal per week, so that at the opening of the shipping season of 1871 the two lines will be equipped for a coal tonnage of 180,000 tons per week, in addition to the merchandise and passenger traffic, and exclusive of the coal tonnage of the laterals, which does not pass over either the main line of railroad or the canal. The numerous collieries situated upon the laterals of the company will be able to furnish a much larger tonnage.

It is a gratifying fact that the consumption of coal in 1870 exceeded that of 1869 by about 2,000,000 tons.

With moderate prices and a continuous trade for 1871, it is believed that the market will take fully 1,500,000 tons more than was produced in 1870. The experience of the past year, and the suffering incurred by the workingmen, in consequence of the protracted strike which resulted so disastrously to them, seem to afford some guaranty that the business of the company will not soon again be suspended for any great length of time by similar causes. If a tonnage approximating to the capacity of the avenues of the transportation controlled by the company is furnished, the managers feel confident that it can be transported at such rates as will secure the market to the transporters without effecting the customary dividend to the stockholders.

Upon the 1st of December, 1870, the railroads and property of the Philadelphia, Germantown and Norristown Railroad Company, the Chestnut Hill Railroad Company and the Plymouth Railroad Company passed into the possession and control of this company under leases for 999 years, copies of which will be found annexed to this report. For some years the managers have felt the necessity of providing more tracks for the accommodation of the business of the company between Norristown and Philadelphia, and it was thought better to lease the Philadelphia, Germantown and Norristown Railroad and its branches than to incur the cost of widening the road and laying additional tracks upon the western side of the river. Although the rent paid for these roads is high, there can be but little doubt that the largely increased local traffic upon them will soon compensate the company for the outlay, while the advantages of securing an outlet for distribution, extending through so great a portion of the thickly settled districts of the city, can hardly be overestimated.

The attempts of the officers of the Internal Revenue Department of the United States Government to collect taxes upon dividends and coupons, since January 1, 1870, for which there was no warrant of law whatever, was promptly resisted by the managers, and the State courts applied to for relief. Injunctions were obtained restraining the officers of the United States from attempting to collect the tax, and, upon a test case being made before the United States Circuit Court a decision was rendered fully sustaining the position taken by the managers. During the past eight years this company has paid in cash for United States and State taxes over four millions of dollars, of which amount more than one-half was paid to the Federal Government for Internal Revenue taxes. So long as the law existed the company paid the taxes with regularity, but when it expired and an attempt was made to levy taxes to a large amount upon no other warrant than the peremptory order of the Commissioner of Internal Revenue, the managers felt it to be their duty to protect the rights of the stockholders by a resort to the courts.

Prodeedings have also been taken to recover from the Government a large amount of taxes paid by the company prior to the year 1866, upon dividends and coupons paid to non-resident aliens, which at that date were not taxable. During the last year $84,124 15 of this amount was refunded by the Government, and as much more will probably be recovered during the present year.

It is with very great regret that the Managers close the report for the year by alluding to the loss sustained by the company in the death of its faithful and efficient Secretary, Mr. William H. Webb, who died at his reridence in Germantown, on the evening of December 23, 1870, in the 36th year of his age. Thoroughly conversant with all the details of his office, zealous and prompt in the discharge of his duties, he possessed to the fullest extent the confidence and respect of every one connected with the company, while the gentleness of his manner and the blameless purity of his life endeared him as a friend to all who knew him. The vacancy occasioned by his death has been filled by the election by the Managers of Mr. J. W. Jones, late Purchasing Agent and Auditor of the company.

By order of the Board of Managers.

FRANKLIN B. GOWEN, President.

Railroads in Arkansas.

The following extracts relating to the progress of railway construction in Arkansas are taken from the annual message of Governor Clayton:

In my first message to the General Assembly delivered July 3d, 1868, I took occasion to recommend the passage of a bill authorizing the loan of the bonds of the State to aid in the construction of railroads. The Legislature acted promptly in the matter, and passed a bill which at the general election following was submitted to the people, and approved by a very large majority. To the passage of this and its auxiliary, the Funding Bill, may be attributed the impetus that has been given to several of our most important railroad enterprises. All of the roads to which aid was awarded but one, are in rapid process of construction. The completion of these railways will be of incalculable benefit to the State at large, and will doubtless eventually result in making this, our capital city, one of the great railroad centres of the United States.

MEMPHIS AND LITTLE ROCK R. R.

The following is a statement of the present condition of the work on this road furnished to Hon. R. C. Brinkley by the Chief Engineer, J. L. Meigs, December 13, 1870:

"Miles of track laid, 115.77; miles of track to be laid, 15.35, of the road-bed upon which the track is yet to be laid, 3.14 miles are ready for the rails; 1.41 miles are nearly completed, and 3.76 miles are half done; the remainder, 6.84 miles, have strong forces actively at work on them. White River bridge masonry will be ready for the drawbridge by January 1st, and the river piers are believed to be so far advanced as not to be in danger of an overflow this winter. The iron drawbridge is complete, together with the iron work of the fixed spans. The wooden work and brace pieces are sawed and ready for transportation. More than one hundred men are at work on the road and the arrangement for the completion of Cache River Valley earth work and pile work are such that there is no ground to apprehend delay from high water. We may now confidently expect the completion of the road early in 1871."

LITTLE ROCK AND FORT SMITH R. R.,

Is now open to Lewisburg, fifty miles, and has been running regular trains to that point since November 21. Fifty miles more are already graded, and the ties are down ready for the iron. This second division will be ready for travel in February, and the entire road from Little Rock to Fort Smith will be completed on or before the 1st of January, 1872. The track, locomotive, passenger and freight cars are first class in every respect. Close connections are now made by stages from Lewisburg to all points from there to Fort Smith and Van Buren and points beyond.

LITTLE ROCK, PINE BLUFF AND NEW ORLEANS RAILROAD.

The following report of J. E. Sickles, Chief Engineer, is submitted:

"Fifty-five miles of the road-bed of the Little Rock, Pine Bluff and New Orleans railroad have been graded, bridged and furnished with crossties, and sixteen miles of the track has been laid.

"The work was commenced in January last, and has been steadily prosecuted westward from the nearest available landing on the Mississippi river during the summer months, and notwithstanding the sickliness of the season, which was unprecedented, a large force of laborers has been kept employed. The number of laborers now at work will reach at least six hundred, and, at the present rate of progress, I think it entirely safe to promise that the road will be opened to Pine Bluff before the first of March A. D. 1871. The preliminary surveys between Pine Bluff and Little Rock have been completed, and the corps of engineers are now engaged surveying the route from Monticello, southward through Hamburg to the State line."

MISSISSIPPI, OUACHITA AND RED RIVER RAILROAD.

The following report of this road is from Hon. Thomas Bowen, its President:

"I have to report that between forty and fifty miles of the Mississippi, Ouachita and Red River Railroad, commencing at the Mississippi river, have been graded, bridged and tied, and that between sixteen and twenty miles of the track (being about one-eighth of the line) has been laid, and the road for that distance put into operation. We have two locomotives and a number of box and flat cars. The work is progressing in a manner highly satisfactory to the management, and the survey and engineering is progressing from Camden, west. The people along the line of the road have been extremely liberal in voting corporate subscriptions, and I feel entirely safe in saying that the road will be completed to Camden by the last of June next, unless prevented by causes unseen at this time. The Company had contracted for seventy five miles of iron, the delivery of a large portion of which has been delayed, otherwise we could have been running the road to Saline river, fifty miles from the eastern terminus, some time since."

☞ The Philadelphia *Ledger* says that measures are in progress to build a railroad from Woodstown (N. J.) to Pennsgrove; another from the same village to Bridgeton; another from Woodstown to Swedesboro'; and another from Bridgton to Salem. Charters for these roads will be granted by the Legislature at this session.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "Italics." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, January 21, 1871.

Stock Exchange and Money Market.

The Money market has been more active than usual at this season of the year,—chiefly in the line of call loans, which have been in quick request at from 7 per cent. currency to the same rate in gold, on a less liberal offering of capital, from banks as well as through private channels. At the close on Wednesday, the tendency was in favor of responsible borrowers, with 7 per cent. in currency as the most general quotation to the Stock Exchange firms. Mercantile credits have met with a fair demand, on the basis of 7@8½ per cent. per annum, for the better grades. Part of the activity in Money, through the week, was due to the preparations, on the part of the city, to liquidate its Revenue bond debt of $5,750,000 of which amount, $3,500,000 were paid off on Saturday, and the balance on Monday following. The pressure on Tuesday and Wednesday was largely due to speculative manipulations of the market. The city banks, last week, had their deposit line enlarged $11,864,949; their specie average, $2 632,213; and their legal tender reserve, $1,544,501. They added $3 632,995 to their loan and discount averages, and diminished their circulation $64,914. The U. S. Sub Treasury, last week, gained $2,743,590 of currency, and $207,252 of coin, as the result of the week's business of the office.

The specie reserve of the city banks according to the latest return is $28,990,404, against $37,510,467 same time last year. The city bank deposits are now $213,408,774, against $202,396,331 week ending Jan. 16, 1870. The legal tender reserve amounts to $50,575,911, against $52 248,475 same time last year. The circulation now stands at $32,049 804, against $23,966,823 same time last year. The loans are now $269,211,022, against $259,101,106 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $85,531,901 a day, against a daily average of $100,288,596 the preceding week. The current week's exchanges average about 112 millions a day. The city banks, last week reported a gain of $2,632,213 of specie, $11,364,949 of deposits, and $1,544,501 of legal tender notes. They increased their loans $3,632,995; and reduced their circulation, $64,914.

The city bank exchanges on Wednesday were 102½ millions.

National Bank notes to the amount of $569 340 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $338,824,198. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $33,685,319 leaving, with the existing 1,612 banks, (having an aggregate capital of $430,299,301,) an actual circulation at this date, of $305,738,879. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $347,223,700; and for the public deposits, $15,769,500—making a total of $362,993,200. The Treasury Department last week redeemed and destroyed $544,000 of worn and mutilated fractional currency, and issued $763,319 of new.

The cash balance in the Treasury Department at the opening of business on Wednesday, was $27,200,000 in currency, and $103,500,000 in coin, including $30,500,000 in certificates.

The U. S. Sub-Treasury receipts, week ending with Jan. 14, were $6,479,248 in coin, (including $2,977,000 from customs duties,) and $6,944 827 in currency; payments, $6,686,500 in coin, (including $3,819,933 of coin interest,) and $4,201 287 in currency; balance at the close of the week, included $61,873,350, of coin, against $61,581,202 the preceding Saturday, and $10,345,543 of currency, against $7,601,952 at the close of the preceding week. The business of the Office on the first three business days of the current week, was as follows. Monday, receipts, $731,168 in coin, (including $627,000 from customs) and $212,041 in currency; payments, $1,031,771 of coin (including $474,353 of coin interest), and $667,453 of currency. On Tuesday, receipts, $693,584 in coin, (including $617,000 from customs,) and $197,763 in currency; payments $515,394 of coin (including $479,999 of coin interest), and $448,697, of currency. On Wednesday, receipts, $624,340 in coin (including $504,969 from customs), and $236,092 in currency; payments, $479,506 in coin

(including $461,014 of coin interest) and $1,150,072 of currency. The balance at the close of business on Wednesday included $8,926,722 of currency, and $61,377,821 of coin, against a balance a week previous of $8,345,105 currency, and $62,916,240 coin.

The U. S. Sub-Treasurer retired, last week, $2,682,044 of coin certificates, received for customs.

Government revenues yielded rather more liberally, during the week. The excises during the past week yielded 2¾ millions; customs at the port of New York, $2,935,044, and at the outports about $970,000 (in coin) more, making the grand total income for the week equal to about $7,046,000 in currency. The income of the Government, from excises, since July 1, 1870, has been $87,793,808.

Gold has been without remarkable activity since our last, and the range of the price has been from 110⅛@111, closing on Wednesday at 110⅝, as on the preceding Wednesday. There has been less disposition to operate on speculative account. The export drain has been light, less than half a million last week. On Wednesday, the shipments were $198,000, all in Mexican dollars. The customs call has been more extensive.

The Treasury Department under its official programme for January, will sell Gold, during the month, as follows: Thursday, January 26, one million. And buy Five Twenties, as follows: Wednesday, January 25, one million.

The customs revenue on Wednesday was $504,969. The coin interest disbursements at the Sub-Treasury were $461,013.

The export drain was $495,373 week ending with January 14, against $232,923, same week preceding year. The shipments since July 1, 1870, have been $12 389,014, against $17,401,053 same time in 1869–'70. The exchanges at the Gold Exchange Bank, which were 26⅛ millions on Friday, of last week, were 32⅛ millions on Saturday; 32¾ millions on Monday; 43⅞ millions on Tuesday; and 27 millions on Wednesday.

The customs demand for Gold last week, averaged $498,174 a day; thus far, this week, it has averaged $583,000 a day, or equal to a weekly aggregate of $3,498,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $46,335, and since Jan. 1, 1871, $79,246, against 263,783 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $76,930,758, against $68,925,986 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $56,474,484 against $57,477,806 same time in 1869–'70.

The customs revenue at the port of San Francisco, from Jan. 1 to Dec. 31st, 1870, was $7,752,181, against $8,339,379 in 1869.

The specie exports by steamer and railway, from San Francisco, in all, in 1870, were $33,566,898, against $37,287,118 in 1869.

Foreign Exchange has been quoted firm on a moderate volume of business. Bankers' bills have not been offered freely. Bankers' sixty day bills on London closed on Wednesday at 109⅛@109⅜; sight bills on London, 109⅞@110⅛. The offerings of produce bills have been fair. The week's exports of domestic produce have been to the currency value of $4,607,757, and since Jan. 1, 1871, $13,569,683, against $8,156,050 same time in 1870.

The dealings in Government securities have been rather more extensive at generally well supported prices, though the unexpectedly large offerings of bonds to the Sub Treasury, at the Bond purchase on Wednesday, had the effect of temporarily depressing values. At the close, the market was firm, and the available supply of the coin-bearing issues, moderate.

On Wednesday, Government bought in two millions of Five-Twenties at 107 06@107 29, ex-interest. The amount of bonds offered was $6 842,000.

U. S. sixes of 1881 closed here on Wednesday of the current week at 110⅛@110¾; U. S. Five-Twenties of 1862, 109⅛@109¼; U. S. Five-Twenties of 1864 at 108½@108¾; U. S. Five-Twenties of 1865, 108⅝@108¾; U. S. Five-twenties of 1865 consolidated, 107⅜@107½; U. S. Five Twenties of 1867, 107⅛@108; U. S. Five-twenties of 1868, 108⅛@108⅜; U. S. Ten-forties at 107⅝@107⅞; U. S. Six per cent. currency bonds, 110@110¼.

State bonds have been in fair demand, at firmer, though irregular prices.

Railway bonds have been in good request for investment purposes at generally buoyant prices. Central Pacific Sixes have been selling more freely, closing at 90⅛@90¾. The very favorable exhibit of the earnings of the Central Pacific Road for 1870 has stimulated the demand for the Bonds of the Company. The average of the monthly earnings of the Road, in 1870, was $665,276, against a monthly average of $472,490 in 1869, showing an increase of $192,786 in the average monthly earnings, last year, or an aggregate increase of $2,313,432 in the earnings of the whole year. Chesapeake and Ohio Sixes have been in moderate demand at 90 and interest. Union Pacific Sixes have been quoted up to 75¼@75½.

The Union Pacific Company will buy on Feb. 1, $50,000 of their Land Grant Mortgage Bonds, under sealed proposals received at the office of the Company, in Boston, to the hour of noon on that day.

Railway and miscellaneous share property has been quite freely dealt in, and notwithstanding the more active Money movement, prices have been quoted stronger but quite variable, closing buoyantly. Union Pacific stock has been closed at 15⅛@15⅜. Western Union Telegraph closed at 47¼@47½

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 4.	Jan. 10.	Jan. 16.
Consols	92¼	92⅜	92⅛@92¼
U. S. 5-20's of 1862	89⅝	89⅝	90⅛@90¼

" 1867	88¼	88¼	88⅛
" 10-40s	87¾	87¾	88@88⅛
Erie	19½	18¾	——
Ill. Central	113½	114	——
At. and Gt. West	28½	28½	——

General Business has been less active in most lines, though Provisions have been moving more freely, the demand for them having been more liberal, chiefly for shipment and on speculative account. Breadstuffs closed firm, but dull. Middling upland cotton closed on Wednesday at 15⅜ cts. per lb. The stock of cotton now here is given at about 78,500 bales. The receipts at the port this week, have averaged about 4,500 bales a day. The receipts at all the ports, since Sept. 1, 1870, have been 1,896,013 bales, against 1,501,777 bales same time in 1869–'70; exports same time 1,105,371 bales, against 792,247 bales same time in 1869–'70; stock on hand at latest dates, 549,900 bales, against 487,062 bales same date 1869.

At the Live Stock markets, this week, Beeves have been in less request from 8@16c. per lb.; week's receipts, 6,526. Milch cows quiet at $40 @$110 each, receipts, 73. Veal calves in moderate demand at from 5@12½c per lb.; receipts, 100. Sheep have been in less request at from 4@7½c. per lb.; receipts, 23,157. Swine in pretty active request at 7⅜@7¾c. per lb., all live weight; receipts, 15,736.

Foreign merchandise has been quiet, and less firm. The dry goods entries at this port, last week, were $1,811,342, making with the general merchandise imports a total of $5,640,792, against $4,552,895 same week last year.

Ocean freights closed tame and weak, with a more liberal supply of tonnage available For Liverpool we quote flour at 2s. 6d. by sail, and 2s. 9d.@3s. by steamer per bbl.; grain at 5½d. by sail, and 6d.@6¼d. by steamer per bushel; cotton at ⅛@⅜d. by sail and ⅜ by steamer per lb.; and heavy goods 17s. 6d. @30s. by sail, and 30s.@55s. by steamer, per ton. Total number of vessels in port on Wednesday, 624.

The following will show the exports (exclusive of specie) from New York to foreign ports or the week ending January 10th, and since the beginning of the year:

	1870.	1871.
For the week	$2,462,778	$4,607,757
Previously reported	5,693,272	8,961,926
Since Jan. 1	$8,156,050	$13,569,683

The imports for the week ending Dec. 31, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,297,855	$1,811,342
Gen. merchandise	3,255,040	3,829,450
Total for the week	$4,552,895	$5,640,792
Previously reported		
Since January 1	$4,552,895	$5,640,792

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

R., 20@21; George's Creek Coal, 57@62; Atlantic Coal, 1.50@1.50.

☞ The Boston *Journal* of January 12, says: We notice the first public sale of the Missisquoi Sevens, a branch road from the Vermont and Canada to be operated by the management of the Vermont Central and Vermont and Canada, and the interest guaranteed by these roads. The whole amount of the loan is $500,000. We look upon this home security, lying in New England, as a very safe investment, and at the price at which it is sold as profitable as any in the market.

☞ The contract for 3000 tons of Steel Rails for A. T. Stewart's Hempstead Railroad has been awarded to Hermann Boker & Co., for their German Puddled Steel Rails, on terms not made public.

☞ The Parkton and Manchester Railroad is nearly half graded between Parkton and Manchester.

☞ The Quincy Mining Company have declared a dividend of $4 per share, payable on the 6th of February.

☞ The California and Oregon Railroad is completed to Tehama, 122 miles above Sacramento.

HARVEY FISK. A. S. HATCH.

☞ FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU ST.,
NEW YORK, Jan. 20, 1871.

United States Five-twenty Bonds, if allowed to run until 1875, will pay but FOUR PER CENT. Gold on the investmant at present market rates, while they are likely to be funded at a lower rate of interest before that time.

THF FIRST MORTGAGE BONDS OF THE CENTRAL PACIFIC RAILROAD COMPANY, at present market price, will pay nearly SEVEN PER CENT. in gold on the investment, and cannot be called in or the interest reduced under twenty-five years.

A difference of from FIFTEEN to TWENTY PER CENT. may be realized in exchanging Government Bonds for Central Pacific, or saved in making new investments.

The safety and value of the First Mortgage Bonds of the Central Pacific Railroad Company are thoroughly established and universally recognized.

The value of the property, the immense and increasing revenues of the Company, and its able and honorable management, assure the security of the principal and prompt and regular payment of interest beyond question.

We have introduced them into our regular business upon the same basis as Government Bonds, and buy and sell them as freely at current market rates, and are prepared to furnish them to investors or others at daily quotations.

We buy and sell Government Bonds, Gold, and Coupons, execute orders in miscellaneous securities at the New York Stock Exchange, make collections, receive deposits subject to check at sight, allow interest on balances, and do a general banking business.

FISK & HATCH.

☞ RAILROAD BONDS.—Whether you wish to buy or sell, write to CHARLES W. HASSLER, 24 Broad Street, New York.

☞ The Fairbanks patent for railroad track scales has just been extended by the commissioner of patents for seven years, the proofs showing that these scales have been but in use to the amount of $789.000.

☞ The contract or lease of the Portsmouth, Saco and Portland Railroad to the Eastern and Boston and Maine Roads, which was made in 1847, terminated on the 20th inst.

Journal of Railroad Law.

RAILROAD COMPANIES—LAW OF DAMAGES WHEN SERVANTS OF COMPANY ARE INJURED THROUGH NEGLIGENCE OF CO-EMPLOYEES.

The facts in the late case of The Pittsburg, Fort Wayne and Chicago Railway Company *vs.* Devinney, (17 Ohio, 197,) are fully and clearly stated in the following opinion by

BRINKERHOFF, J.—The bill of exceptions sets forth all the evidence given on the trial below; but it would be a useless labor to repeat it here. It is enough to say, that it establishes, beyond reasonable question, the fact that the plaintiff below, being a brakeman on a train going east, received the injury of which he complains, through the negligence and misconduct of the conductor or engineer, or both, in charge of the train number eleven going West, and with which the train on which the plaintiff below belonged, and on which he was serving, came in collision.

The motion for a new trial on the ground that the verdict was against the evidence, and the latter part of the charge of the Court below to the jury, both, therefore, present the distinct question, whether—in the absence of any evidence that the railroad company had knowingly or negligently employed an incompetent conductor or engineer for the train, through the faulty running of which the collision occurred—the company is, in law, responsible for an injury received by a brakeman of one train, in consequence of the negligence or mismanagement of the conductor or engineer of another train of the same Company?

A comprehensive summary of the branch of the law applicable to this question, as settled by cases so uniform and numerous that it is needless to cite them, in England, New York, Massachusetts, Pennsylvania, and the most of the other States of the Union, is thus stated by Read, J. delivering the opinion of the Supreme Court of Pennsylvania, in Caldwell *vs.* Brown, 6 Am. L. Register N. S., 752:

"A servant, by entering into his master's service, assumes all the risks of that service which the master cannot control, including those arising from the negligence of his fellow servants. In case of an injury to one servant by the negligence of another, it is immaterial whether he who causes and he who sustains the injury are or are not engaged in the same or similar labor, or in positions of equal grade or authority. If they are acting together, under one master, in carrying out a common object, they are fellow servants. The master, indeed, is bound to use ordinary care in providing suitable structures, engines, tools and apparatus, and in selecting proper servants, and is liable to other servants in the same employment if they are injured by his own neglect of duty. But it makes no difference, whether, the master is an individual or a corporation; in either case he is responsible to his servants for his own negligence but not for that of their fellow servant."

But on this general doctrine a single exception has been engrafted in this State—first, by a divided Court, in Little Miami Railroad Company *vs.* Stevens, 20 Ohio, 415, and afterwards by a full Court in C. C. and C. R. R. Co. *vs.* Keary, 3 Ohio St., 201, and thenceforward recognized by this Court in subsequent cases. That exception is this, that where one servant is placed in a position of subordination to, and subject to the orders and control of another servant of a common master, and the subordinate servant, without fault of his own, and while in the performance of his duty, is injured through the negligence of the superior servant, while acting in the common service, an action lies in favor of the inferior servant so injured, against the master.

But this is the extent and limit of the exception. Beyond it no case in Ohio has ever gone: but on the contrary, the language of the Court in all the cases is careful to exclude the conclusion that an action might be maintained against the master by one servant, who has been injured through the negligence of a fellow servant, where no relation of superior and subordinate existed between them.

And the case of Whalen *vs.* The M. R. and L. E. R. R. Co., 8 Ohio St., 249, turned upon this limitation. The decision in that case was made by a unanimous bench; and we are unable to see how the rulings of the Court below can be sustained without overruling that case.

The case of Hutchinson *vs.* Railway Company, decided by the Court of Exchequer in 1850, (5 Ex. R., 342,) is even more closely in point. There, in one aspect of the case assumed by the Court to be the true one, the party injured was, as here, employed as a servant of a railway company on one train, and was injured by a collision with another train, occurring through the negligence of other servants of the same company in the management of the latter train. The Court held that the company was not responsible, unless the company had been culpably negligent in the selection of the servant or servants through whose fault the injury arose; and no such negligence appeared in that case, as there does not in this.

Indeed in all the books, I am unable to find a single case which would justify the rulings of the Court below, with the single exception of Chamberlain *vs.* Mil. and Miss. R. R. Co., 11 Wis., 239, which seems to go to the full length of holding that a master is in all cases liable for an injury received by one servant, by means of the negligence of a fellow servant engaged in a common employment, irrespective of any circumstances of superiority, subordination, rank or grade. In going to this extent, I believe the Supreme Court of Wisconsin stands alone. A majority of this Court is unwilling to follow it, believing, as we do, that it would be wrong in itself, and disasterous in its tendencies to every business requiring many hands to prosecute it. Yet I am unable to see how, if we sustain the rulings of the Court below, we can, on any well grounded distinction, stop short of proceeding to the same extreme length.

Employers are not omniscient, and if they were, they would hardly be able to find employees whose vigilance was incapable of relaxation, and whose carefulness would never lapse into negligence. It is therefore unreasonable to expect such results from employers of ordinary penetration and insight into character, and wrong to exact it from them. And if it be a crime, or quasi crime, as some who argue the question of the masters responsibility seem unconsciously to intimate, to put in operation the tremendous and dangerous enginery and natural forces which modern civilization has discovered, invented and applied, it is surely a sufficient answer to a claim of responsibility on that ground against the employer, on the part of the employee, to say that the latter is a voluntary *particeps criminis*. And in the consideration of questions arising under the law regulating the rights and obligations of master and servant, it is important that we should not forget that the same rules which we apply as against railways and other rich and powerful corporations, must also be applied with equal hand to private employers of labor in analogous cases.

The true general rule is, and so it must be, that when men are employed for the prosecution of a lawful but hazardous business, they assume the hazards of such employment arising from the negligence of co-employers, and stipulate for compensation, according to their estimate of such hazards; subject, however, to this exception, that the master is liable for such injuries as accrued to the servant from the negligence of a fellow servant in the selection of whom the master has been culpably negligent; and to this we in Ohio have added the further exception of a case where the servant injured is subordinate to, and acting under the orders of, the culpable fellow servant.

For the reasoning on which the decisions establishing this exception are based, the members of this Court, as now constituted, are not responsible; nor are we at all bound to carry out their logic to its ultimate consequences. In subsequent cases, strictly analagous in their facts, those decisions will doubtless be accepted as authoritative; but the case now before us does not require us to review them.

In adding this last named exception to the rule elsewhere generally established, we have already diverged from the general current of judicial decision elsewhere. A majority of the Court are unwilling to increase the divergence; doubting, as we do, the wisdom of such a step, and being unwilling to assume the responsibility of what would savor so strongly of judicial legislation.

A majority of the Court are of opinion that the Court of Common Pleas erred in overruling the motion for a new trial, on the ground that the verdict was against the evidence, and also in the latter part of the charge to the jury, as being calculated to mislead the jury into the belief that the plaintiff below was entitled to recover on the facts of the case above assumed to be shown by the record.

Judgment reversed, and cause remanded to the Court of Common Pleas.

☞ Hon. James M. Stone of Charlestown, Mass., has been elected President, James S. Draper of Wayland Clerk, and Col. F. J. Parker of Boston Treasurer of the Massachusetts Central R. R. Co. The expenditures of the past year have been $9,771 82. It is estimated that three-quarters of a million additional, amounting to $3,750,000 in all, will be ample to complete all the equipments.

☞ The traffic receipts of the European and North American Railway in December, 1870, were $21,102 85, against $15,387 54 in 1869, and $14,779 31 in 1868.

☞ The old board of officers of the St. Louis, Vandalia, Terre Haute and Indianapolis Railroad were re-elected on the 12th inst.

Metropolitan (Mass.) Railroad.

The following is the report of the Directors of the Metropolitan Railroad for the year ending Nov. 30, 1870:

During the year ending Nov. 30, 1870, the income has been as follows:

From passengers and tickets sold		$822,697 69
From other roads, as tolls or rent for use of road	6,592 64	
From other sources	13,249 35	
Total earnings		$842,539 68
The total expenses have been		708,219 97
Net earnings		$134,319 71
Add surplus of 1869		77,802 86
Total		$212,122 57
From which paid dividends, January and July	$125,000 00	
U. S. internal revenue tax on same	6,578 94	
		131,578 94
Leaving a surplus of		$80,543 63

ASSETS.

Road	$974,490 04
Real estate and buildings	288,565 04
170 cars	153,165 94
914 horses	113,669 69
Sleighs and coaches	59,623 35
General equipment, consisting of engines, machinery, grist mill, tools, snow ploughs, harnesses, etc	47,138 71
Hay, straw and grain	9,891 63
Cash and sundry accounts	37,900 01
Tremont street land account	75,425 14
	$1,759,869 55

LIABILITIES.

Capital stock	$1,250,000 00	
Notes & bills payable	230,668 08	
Sundry accounts	28,492 88	
Outstanding tickets	17,685 42	
		1,526,846 38
Excess over liabilities		$233,023 17

The cars and other vehicles of the Company have run, during the year ending Nov. 30, 1870, 243,500½ round trips, a total distance of 2,059,043 miles, and have carried in all 14,681,316 passengers, being an average of 5641 miles run, and 40,223 passengers carried, for each day in the year.

The increase in cost of road is $10,502 98, and has arisen from the construction of additional tracks.

Five new cars have been built at the Company's shop during the past year, and cost of same charged to general expense of repairs.

The lease of land occupied by the car house and stable at East Boston having expired, the same has been purchased by the Company.

Land has been purchased on Warren street, and stable and car house built, for the better accommodation of our business.

The increase of floating debt arises from cost of building new tracks, the purchase of land at East Boston and on Warren street, and the building of new stable and car house on Warren street.

☞ N. G. Hickborn has been elected President, H. Herriman Clerk, and C. Gordon Treasurer of the Penobscot Bay and River R. R. Co. The office of the company is at Belfast, Me. The length of the road is fifty miles extending from Rockford to Winterport.

☞ The earnings of the New Jersey Southern Railroad for the six months ending December 31, 1870, were $292,261 41, against $166,514 31, for the corresponding period of the previous year—an increase of $125,747 10, or about 78 per cent.

New York Central and Hudson River R.R.

According to the official report required by law to be submitted annually to the State Engineer at Albany the operations of the New York Central and Hudson River Railroad Company for the year ending September 30, 1870, were as follows:

The receipts were:

From passengers	$6,738,592
Freight	14,489,216
Other sources	1,135,511
Total	$22,363,319

The payments, other than for construction, were:

Transportation expenses	$14,066,079
Interest	1,093,841
Dividends on stock	6,863,241
United States tax on earnings	168,975
Rents	60,000
Sinking fund	111,183
Total	$22,363,319

The capital stock and debts of the company are as follows:

Stock	$45,000,000
Consolidated certificates	44,428,330
Funded debt	13,681,807
Floating debt	1,167

New York and Harlem Railroad.

A report from the New York and Harlem Railroad Company to the State Engineer for the year ending September 30, 1870, gives the following statements:

The receipts were as follows:

From passengers	$1,048,887
From freight	1,288,688
Mail service	12,587
Expresses	15,964
Rents receivable	48,468
Haulage of cars	85,788
Miscellaneous	1,000
New Haven Co.—use of road	207,695
Total	$2,709,077

The payments, other than for construction, were as follows:

For transportation expenses	$1,685,472
For interest	363,506
For dividends on stock—8 per cent.	631,578
United States tax on earnings	26,216
Cash on hand	2,305
Total	$2,709,077

The stock and debts of the company are as follows:

Capital stock	$8,000,000
Funded debt*	5,072,840

* Real estate mortgage not included in above, $629,000.

☞ The following gentlemen have been elected directors of the Philadelphia, Wilmington and Baltimore Railroad Company for the ensuing year: Isaac Hinckley, Sam'l M. Felton, William Sellers, Samuel Welch, Jesse Lane, Joseph Bringhurst, Samuel Harlan, Thomas Whitridge, Thomas Kelso, Thomas Donaldson, Jacob Tome, Nathaniel Thayer, S. M. Shoemaker and Wm. Minot. President, Isaac Hinckley; Vice-President, Enoch Pratt; Secretary and Treasurer, Alfred Horner.

☞ George M. Lefevre has been elected President of the Pennsylvania and Delaware Railroad Company. The directors are: J. M. Pomeroy, Levis Pennock, Jr., George B. Pharpe, Martin Landenburger, Charles Brothers, J. M. Broomall, George Jones, and Samuel R. Parke.

Pacific Mutual Insurance Company.

HOWARD BUILDING, 176 BROADWAY,
NEW YORK, January 12, 1871.

The following statement of the affairs of this Company is published in conformity with the requirments of Section 12 of its charter:

Outstanding premiums, Jan. 1, 1870		$106,924 04
Premiums received from Jan. 1, to Dec. 31, 1870, inclusive		484,840 67
Total amount of Marine premiums		$591,764 71

This Company has issued no policies, except on cargo and freight for the voyage.

No risks have been taken upon time or upon hulls of vessels.

Premiums marked off as earned, during the period as above		$506,753 79
Paid for losses and expenses, less savings, &c., during the same period	$345,355 70	
Return Prem.	$42,670 02	

The Company has the following assets:

Cash in Bank	$76,532 35
United States, and other stocks	417,918 38
Loans on stocks, drawing interest	272,540 00
	$766,990 73
Premium notes and bills receivable	175,133 84
Subscription notes in advance of premiums	56,000 00
Re-insurance, and other claims due the company, estimated at	18,575 83
Total assets	$1,016,700 40

SIX PER CENT. INTEREST on the outstanding Certificates of Profits, will be paid to the holders thereof or their legal representatives, on and after Tuesday the 7th day of February.

FIFTY PER CENT. of the OUTSTANDING CERTIFICATES OF THE COMPANY OF THE ISSUE OF 1866, will be redeemed and paid in cash, to the holders thereof or their legal representatives, on and after Tuesday, the 7th day of February next, from which date interest on the portion redeemed will cease. The Certificates to be produced at the time of payment and cancelled to the extent paid.

A dividend in Script of TWENTY PER CENT. is declared on the net amount of Earned Premiums for the year ending December 31st, 1870, for which Certificates will be issued on and after Tuesday, the 4th day of April next.

Trustees.—John K. Myers, A. C. Richards, G. D. H. Gillespie, C. E. Milnor, Martin Bates, Moses A. Hoppock, B. W. Bull, Horace B. Claflin, W. M. Richards, A. S. Barnes, Egbert Starr, A. Wessen, John A. Bartow, Oliver K. King, Alex M. Earle, William Loconey, Wm. T. Blodgett, H. C. Southwick, Wm. Hegeman, James R. Taylor, Adam T. Bruce, Albert B. Strange, A. Augustus Low, Emil Heinemann, Jehial Read, John R. Waller, William A. Hall, Francis Moran, Theo. W. Morris, Stephen C. Southmayd.

President.—JOHN K. MYERS.

THOMAS D. STETSON, Solicitor of American and Foreign Patents, and Professional Expert in Patent Cases. No. 5 Tryon Row, New York.

PROCLAMATION of the SALE of the HOUSTON TAP AND BRAZORIA RAILROAD, by the Governor of the State of Texas, in the name and by the authority of the State of Texas.—Whereas, The railroad company known as that of the "Houston Tap and Brazoria Railroad" is largely indebted to the School Fund of the State of Texas, for principal and interest of the Special School Fund loaned to the same under the act of the Legislature of August 13th, 1856, entitled "An Act to provide for the investment of the Special School Fund in the bonds of railroad companies incorporated by the State," and the amendments thereto, which principal and interest is secured by the bonds of said railroad company, made and executed to the State of Texas under said act and amendments: and

Whereas, Said railroad company, by failure to pay the interest and sinking fund of said indebtedness, has not complied with its obligations under said act of August 13th, 1856, and the amendments thereto, and has also not complied with the act of 13th of August 1870, entitled "An Act for the relief of railroad companies indebted to the State for loans from the School Fund;" and

Whereas, Because of such failure, the Governor of the State is required, by said acts of the Legislature, to cause said railroad to be sold in satisfaction of said indebtedness;

Now, therefore, be it known that in conformity with said acts of the Legislature, I, EDMUND J. DAVIS, Governor of said State, will, on WEDNESDAY, the 15th day of February, A. D. 1871, cause to be sold the said "Houston Tap and Brazoria Railroad," and the charter rights of said company, including the road-bed, right of way, grading, bridges, iron rails, equipments and masonry, and all the stock subscribed for in said company, all the depots and depot stations, and all the property owned by said company as necessary to its business—said railroad being about (50) fifty miles long.

Such sale to take place, at public auction, on said (15th) fifteenth day of February, A. D. 1871, at the door of the Capitol of the State at Austin, between the hours of 10 m. and 12 o'clock m., and the sale to be to the highest cash bidder; *provided, however*, that the Governor reserves the right, should he deem it advisable, to buy said property in, for the benefit of the School Fund, should no cash bid be made sufficient to cover the principal and interest due on the School Fund.

In testimony whereof I have hereunto signed my name, and have caused the great seal of the State to be [L. S.] affixed, at the City of Austin, this 12th day November, A. D. 1870, and of the independence of Texas the thirty-fifth. EDMUND J DAVIS, Governor.

By the Governor: JAMES P. NEWCOMBE, Secretary of State.

PROCLAMATION of SALE of the TEXAS AND NEW ORLEANS RAILROAD—By the Governor of the STATE OF TEXAS—In the name and by the authority of the State of Texas—Whereas, The railroad company known as that of the "Texas and New Orleans Railroad" is largely indebted to the school fund of the State of Texas, for principal and interest of the special school fund, loaned to the same under the act of the Legislature of August 13th, 1856, entitled "An Act to provide for the investment of the special school fund in the bonds of railroad companies incorporated by the State," and the amendments thereto—which principal and interest is secured by the bonds of said railroad company, made and executed to the State of Texas, under said acts and amendments; and

Whereas, Said railroad company, by failure to pay the interest and sinking fund of said indebtedness, has not complied with its obligations under said act of August 13th, 1856, and the amendments thereto, and has also not complied with the act of 13th of August, 1870, entitled "An Act for the relief of railroad companies indebted to the State for loans from the special school fund;" and

Whereas, Because of such failure, the Governor of the State is required, by said acts of the Legislature, to cause said railroad to be sold in satisfaction of said indebtedness:

Now, therefore, be it known, that in conformity with said acts of the Legislature, I, EDMUND J. DAVIS, Governor of said State, will, on TUESDAY, the 14th day of February, A. D. 1871, cause to be sold the said "Texas and New Orleans Railroad," and the charter rights of said Company, including the road-bed, right of way, grading, bridges, iron rails, equipments, and masonry, and all the stock subscribed for in said Company, all the depots and depot stations, and all the property owned by said Company as necessary to its business—said railroad being about one hundred and eight (108) miles long.

Such sale to take place, at public auction, on said 14th day of February, A. D. 1871, at the door of the Capitol of the State, at Austin, between the hours of 10 a. m. and 12 o'clock m., and the sale to be to the highest cash bidder; *provided, however*, that the Governor reserves the right, should he deem it advisable, to buy said property in, for the benefit of the school fund, should no cash bid be made sufficient to cover the principal and interest due the school fund.

In testimony whereof, I have hereunto signed my name, and have caused the great seal of the State to be [L. S.] affixed at the City of Austin, this 12th day of November, A. D. 1870, and of the independence of Texas the thirty-fifth. EDMUND J. DAVIS, Governor.

By the Governor: JAS. P. NEWCOMB, Secretary of State.

THE Firm of WM. J. YOUNG & CO., MATHEMATICAL INSTRUMENT Makers, consisting of WM. J. YOUNG & CHAS. S. HELLER, was dissolved shortly before the death of Wm. J. Young. The undersigned, the late Partner of said Firm, (who was with Mr. Young continuously for 15 years), will continue in the same line of business at No. 33 North Seventh Street, (corner of Filbert).

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

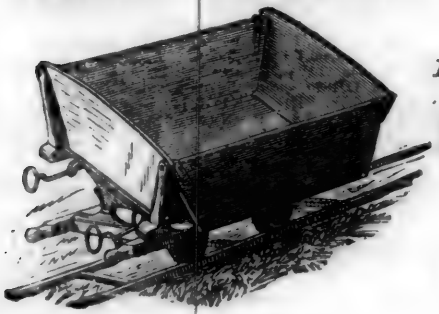
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Prospects of Railroad Earnings.

Without entering upon an elaborate review of the general condition of railroad property in the United States, it may be found interesting to collate and present a few considerations bearing upon the probable earnings of railroads during the next few months at least, and perhaps for a longer period. Doubtless the facts are known to most of those directly interested; but to group them together in their proper relations may be necessary to the thorough understanding and appreciation of them.

First, then, the effect of the revised tariff. About mid-summer, Congress passed a law materially reducing the impost duties on many leading articles of import—coffee, tea, sugar, spices, etc.; and placed many others on the free list; but provided that this law should not go into effect till January 1, 1871. It requires but little business knowledge to understand that the result was to restrict the trade in the articles which were to be thus reduced in cost. We may say this without touching even remotely upon the general subject of impost duties. During the fall months dealers in the interior have been accustomed to lay in their winter stores of "groceries," when a large proportion of the transportation of such goods was done by canal and lake. The desire to get the advantage of the reduced tariff naturally induced the trade to limit purchases previous to the 1st inst. to the most pressing needs. We therefore find the interior of the country quite bare of sugar, tea, molasses, coffee, rice, and many other staples, with no means other than the railroads afford for the transportation of the goods which they may require. This state of affairs must continue, with minor exceptions, till about the first of May, and naturally increase largely the quantity of merchandise to be moved westward over the railroads from the seaboard, and that, too, at a season when a great many cars, under the most favorable circumstances, must be returned empty.

Secondly, the hog crop. The packing season shows, thus far, that about 1,800,000 hogs have been slaughtered, against about 1,300,000 for the corresponding period in the last season—an increase of about 500,000 hogs. But the actual increase is even greater than the apparent, for the hogs are now much fatter and heavier than last year. To reckon, therefore, the hog crop at an increase of fifty per cent. over that of last season is not unreasonable. The whole crop must of course be moved by rail. There is, at the seaboard, an unusually large demand for hog products—bacon, lard and pork—for export; partly stimulated by the lower prices as compared with late years, and partly arising out of the needs of the European belligerents. The provisioning of the British navy brings us large orders, while the devastation caused by the war in France creates a demand upon Great Britain from whence she formerly drew supplies.

Third, the supplies of breadstuffs. Partly through speculation, and the anticipation of higher prices as the result of the war in Europe, the late crop of wheat was not marketed freely, and the close of inland navigation found the Atlantic seaboard with deficient supplies of grain. In this market alone, the stocks of wheat and corn are about a million bushels less than last year at this date, and the demand is far more peremptory and general at this time than it was then. The drought which prevailed in the late summer and early autumn months nearly ruined the corn crop of New England, and so crippled that of the Middle and South-Atlantic States, that they have much less to spare, to be shipped coastwise in sail vessels, than last winter. England, too, with a recent advance in her markets of five shillings per quarter, shows a disposition to take Indian corn from us, after an abstinence of nearly two years. The late crop of corn at the West was a magnificent one, both in respect to its quality and condition. It is coming into the Western markets very freely; and the accumulating stocks must be relieved, as well as the needs of the Atlantic States be supplied, exclusively by rail. Last winter we did not bring much corn eastward by rail; not more than one-third as much as we shall now require, on a very moderate calculation. Last winter, and in the spring before the opening of canal navigation, more than two million bushels of wheat were delivered in this market by rail. With a smaller stock, and a larger demand, it is not extravagant to estimate that at least three million bushels of wheat and half as much corn must be brought to us by rail in the next few months.

There is another advantage which the great trunk roads will have this season over last. Then, they were obliged to stimulate the eastward movement of grain by putting rates of freight exceptionally low. Now, the eastward movement takes place at highly remunerative rates.

We do not now recall a single fact, or circumstance, which should throw a cloud over the agreeable prospect which the above facts seem to present to those interested in railway property, and must offer our congratulations upon a state of affairs embracing a combination of advantages rarely enjoyed.

☞ The opening of the first division of the Poughkeepsie and Eastern Railroad to Stissing, twenty-one miles, was celebrated on the 24th inst.

The Newark Bay Pivot Draw Bridge.

EDITOR AMERICAN RAILROAD JOURNAL:

Dear Sir:—In my article of the 16th inst., criticising the Criticism of Mr. T. C. CLARKE, I did not allude to the breaking of the Newark Bay Pivot Draw Bridge, feeling conscious that no one acquainted with the circumstances would attribute it to a fault in its construction. The untair allusion to it, however, by Mr. Clarke, renders it necessary for me to do so.

Reaching the scene of the disaster very soon after it occurred, I will state what I believe to have been the cause, which is as follows:

The track rails, in the long line of pile trestling approaching the Draw had contracted (from the very cold weather) so as to leave a space of three or more inches between it and the end of the Bridge, and, as a consequence, the locomotive being driven at a reckless rate of speed (which was demonstrated by the effects produced), its truck wheels first sunk in the depression caused by the three inch space, and then jumped forward, the flanges of the left ones alighting on the top of the rail, and after passing on some six or eight feet turned to the left, running off of the ends of the shorter cross-ties, (between the ends and central part of the bridge the cross-ties are but eight feet long, with the exception of one long one for each panel; the panels being about 18 ft. long,) jumped several spaces of about 13 ft. in the clear, each, breaking all of the long cross-ties in its course, when it knocked a post out of the centre truss; the right wheel, in the meantime, breaking off the shaft of the pinion of the turning gear. Some part of the locomotive next came in contact with the cap of the pivot, which weighs some 1,700 lbs., making an indentation in it about 8½ inches long, and from ¼ to ⅜ of an inch deep, after which it is supposed that the engine plunged into the centre truss, causing that part of the structure to buckle and go down with the locomotive. The plunging of the engine truck must necessarily have jerked back the lock bolts of the Draw, and the last blow of the locomotive, doubtless, knocked the ends some few inches out of line, in which condition it is said to have been found. On my arrival at the bridge the East end was resting on the East abutment, the part near the pier though submerged, being still held in position by the counter-diagonal-suspension-bolts. The Western half of the bridge was yet in position and, although minus a post, a platform car heavily loaded with lumber was safely pushed over it.

Owing to the grade line of the railroad being located so very near the surface of the water, the bridge has frequently been endangered. On one occasion a schooner was run into it at the rate of 8 or 9 knots an hour. It was, of course, considerably injured on the one side; but in about one hour, the opposite track was made passable for the trains. The schooner, however, fared worse, the bowsprit and foremast being broken short off even with the hull, and a clean sweep made back to the main-mast. At the point of fracture the bowsprit measured 16x18 inches square, and the foremast 18 inches in diameter (it was 8 sided) and both of good sound pine timber.

On another occasion, when the "Communipaw," one of the largest ferry boats in New York harbor, was passing by, it struck and made a short bend in one of the main-suspension-diagonal-bolts, giving it a set from which it did not recover; the tensile strain on the rod at the time being fully 40,000 lbs.

The very short space of time (only two weeks) in which R. E. RICKER, Esq., the Superintendent of the railroad, was enabled to get the bridge in running order again, notwithstanding the exceeding cold weather at the time, and the very exposed situation, was truly extraordinary, and reflects great credit upon his untiring energy.

It is impossible for any iron truss bridge to resist such a blow. If such a force were applied to the outside of a brigde of 200 ft. or 300 ft. span, it would knock it entirely off its bearings. On one occasion I was present when a locomotive collided with the rear end of a coal train, knocking 12 heavily loaded cars off the track. What folly, then, for a man to talk of slender wrought iron columns, already under a heavy compressive strain, resisting such a force. No; our only safety consists in having our bridges made abundantly strong for sustaining the moving load, and each of the track rails well guarded with additional rails spiked inside, similar to the manner in which the safety switches and frogs are protected, as also the short curves of street railways.

Indeed I think our first class railroad companies would be the gainers if they would also have such guards placed in all lines of trestle work, and high and steep embankments. A guard timber at two feet or so from the rail can be of little use, for if the wheels once leave the track, there is no knowing where the trucks may cause the locomotives or cars to plunge.

Guard rails, of the kind I have suggested as being the most efficient, were placed upon an iron bridge I erected several years ago for the Central Railroad Co. of New Jersey, over Middle Brook. On one occasion COL. JAMES MOORE, Chief Engineer, informed me that as a train of loaded coal cars were rapidly approaching the bridge, one of them got off of the track, but one of the guard rails drew the wheels of the car in, and confined them close to the track, enabling it to pass safely over the bridge, after which the coupling broke and the car fell over. I know of no other bridge at the present time, which is guarded in a similar manner.

That Mr. Clarke has had some unusual advantages for obtaining valuable information relative to the construction of iron bridges, I am well aware. Of the following resources Engineers and Builders do not generally avail themselves. Several parties, myself among the number, were invited to prepare plans, and to offer bids for the construction of the Quincy Bridge. Having so prepared myself, the appointed time found us on our way to Quincy, where I soon met with other parties who had come for the same purpose. On the morning following our arrival we called at the office of the Engineer; upon being introduced to Mr. C., made known our business, and after some conversation, left in his charge our plans and bids, as also all bills of materials, etc., for the purpose of enabling him to examine and report to the Directors or Executive Committee his opinion regarding their respective merits.

Day after day we looked for that committee, but they did not make their appearance until the seventh day, and after detaining us two days longer (for the purpose, I suppose, of enabling Mr. C. and his assistant to copy all he could desire from detail drawings, diagrams of strains, bills of materials, etc.,) we were informed that they would not decide at present, but would let us know by mail to whom the contract would be assigned.

Some months subsequently I met one of my competitors, and upon inquiring who received the contract, received this reply: "No one; it is being made at the 'Detroit Bridge and Iron Works,'" (in which, we were told, one or more of the Quincy Bridge directors were heavily interested, and of which Charles Kellogg, of the late "reliable firm" of Kellogg, Clarke & Co., was Superintendent). On asking whose plan had been adopted, the reply was, in substance, "I presume it is one furnished by Mr. Clarke, which he has been enabled to get up from the various plans we (the bidders) furnished for his inspection."

It seems very strange that Mr. C. should, in publishing such a voluminous description of the Quincy Bridge as he did, have failed to describe by sectional drawings, etc., such an important part as the *Pivot*, and *Pedestal* on which it turns; as is always customary in works of the kind.

Such being at least one of the instances, to my knowledge of Mr. C.'s gaining valuable information, I charge him with ingratitude in making the statement he did, without knowledge of the facts, in regard to the Newark Bay Bridge disaster. I say ingratitude, because the information he received from myself alone, which cost me much labor and expense, and for which I received not even thanks, entitled me to, at least, a correct, and *not* a *supposititious* statement. There were no wedges under the ends of the Newark Bay Draw, but simply rollers, and the ends were firmly secured with strong lock bolts in a manner similar to the Pivot Bridge of the Pennsylvania Railroad Co. over the Schuylkill at Philadelphia.

As there ought always, practically speaking, to be a space of from ⅛ to ¾ of an inch at the shifting ends of all switches, turn-tables and Pivot Bridges, there must of necessity occur some slight jar from passing trains.

Had Mr. C. not made an error in his calculations, the ends of his Quincy bridge would not have sunk so very much below the level of the track of the fixed spans as to require the use of the "powerful cams," which he says "*My* firm" are going to make further improvements in, for the Hudson River Bridge. A more simple arrangement ought to have answered for any slight depression.

I regret being obliged to allude to the Quincy Bridge, but as Mr. C. has seen fit to bring it before the public in the manner he has, I consider it only justice to others as well as to myself, to state a few of the facts in regard to it, which he has omitted.

Hoping I have not trespassed too much upon your time and space, I remain very respectfully,

F. C. LOWTHORP.

☞ The work on the extension of the East Brandywine and Waynesburg Railroad to New Holland, is progressing rapidly. This road is to be continued from New Holland to intersect the Reading and Columbia road, at or near Manheim, or with the Pennsylvania road at some point in Lancaster county.

Boston and Providence Railroad.

The earnings of this road for ten months ending September 30, 1870, were as follows:

From passengers		$576,424 28
" freight		431,190 76
" rents		11,697 73
" expresses		19,523 39
" mails		4,207 50
" interest, etc		4,881 90
" dividends		1,200 00
		$1,049,125 56

From which deduct dividend 5 per cent. paid July 1, 1870		185,000 00
Balance to new account		$504,422 06

By an Act of the Legislature passed at its last session, the several railroad corporations in this Commonwealth were required to make up their accounts, and change the period of their returns, to the 30th day of September, instead of the 30th day of November in each year.

In consequence of this change, the directors are compelled to limit their customary report of the operations and affairs of the corporation for the present year to a period of ten months, from the first day of December, 1869, to the first day of October, 1870.

Under these circumstances, it will be apparent to the stockholders that the accompanying tables from the Treasurer's books can only furnish a statement of the actual results of the business of the corporation for the ten months embraced in them, and afford no means of instituting the usual comparison of the receipts and expenditures between the present and previous years.

In the absence of the requisite materials for these customary statements and comparisons, the directors take pleasure in stating generally, that the year has been a satisfactory and prosperous one,—and that as an approximate estimate of our gross receipts the earnings have been fully equal to those of the corresponding period of the last year. When it is considered that the receipts of that year were enlarged by several exceptional items, arising out of the marked increase in our earnings for the month of June, derived from the stimulus given to our local travel by the occurrence of the Musical Jubilee in Boston, and the transfer of several suspended accounts of former earnings which were adjusted in that year, the result is a gratifying proof of the steady and substantial advance in the value of the property of the corporation, and its healthy and progressive capabilities of making remunerative returns to its stockholders.

While the directors have steadily pursued the policy indicated in their last report, of increasing the facilities and accommodation of the public, in the renewal of our equipment, rolling stock, and motive power, and the introduction upon them of new and valuable inventions designed to promote the safety and comfort of passengers, they have not withheld the necessary expenditures for the erection of new station houses and the improvement of existing ones, which the increase of population and traffic on the line of the road has seemed to demand.

The most important of these have been the completion and occupancy of the new freight station in Boston,—an improvement which our experience has already proved was not made a day too soon to meet the exigencies of our business, and the substantial and commodious character of which has been already satisfactorily tested. This model structure, six hundred feet in length by one hundred and twenty-five in width, covering an area of seventy-five thousand square feet or nearly two acres of land, has elicited the highest ecomiums, both from the managers of railroads who have visited it from all parts of the country, and from the most intelligent freighters, who see in it, not only the greater facilities it furnishes for moving their merchandise, but the vastly greater security it affords to their property while deposited within its spacious walls. It will also be gratifying to the stockholders to know, that while it meets with such acceptance and approval from the public, its durability and adaptation to the future wants of the corporation have been carefully considered by the directors in its construction. Its erection has been accomplished mainly by days' work under the most faithful supervision, with a degree of despatch highly creditable to the mechanics employed upon it, and limited only by the time necessary to secure the highest degree of fidelity and skill in the performance of the work. The completed edifice will give us convenient and permanent freight accommodations for our increasing business, at a great saving of annual expenditure, and enable us in the future to handle our freight in the most expeditious and economical manner.

In conjunction with the Mansfield and Framingham, and the Taunton Branch Railroad corporations, we have made a considerable outlay in the purchase of land and the erection and enlargement of the necessary buildings at Mansfield, including a commodious and substantial engine house and turn-table, to meet the requirements of our freight business at that point, which promises, by the new connections opened and opening to us, to grow into largely increased importance.

We have also, under the authority given by the Legislature at its last session, in the Act incorporating the Attleborough Branch Railroad corporation, entered into an agreement with that corporation for a lease of its road, now nearly completed, and which will probably be in operation early the present year. It is confidently expected that the connection which this arrangement will establish between our main track at Attleborough and the enterprising and thriving community at the other terminus of the branch, a distance of about four miles, will be mutually advantageous to all the parties interested in its construction and maintenance.

The laying of the "third track," referred to in our last annual report, has been prosecuted with as much diligence as the nature of the work, and the desire of the directors have felt to secure the land required for its construction by negotiations and purchase, rather than a resort to litigation with its numerous owners, would permit. The removal, by blasting, of a large mass of rock at a point upon the line known as the "Roxbury Ledge," has been expedited as rapidly as was practicable, having a prudent regard to the security of the populous neighborhood by which it was surrounded, and the safety of our trains passing it at nearly all hours of the day, and it has at length been completed without accident or injury to persons or property.

Upon the completion of the new iron bridge at Centre Street, in place of the inadequate and unsightly structure known as "Hog Bridge," there will remain no further obstacle to the completion of the track, which we hope to have in successful operation the coming Spring.

The improvements which the laying of another track made a present necessity at this point, where the road was narrowed to a width barely sufficient for the passage of the trains, in a low, marshy soil, between high embankments, although requiring a large expenditure, were of such vital importance to the road as to have become absolutely indispensable, independent of the requirements of a third track—and without the necessity which that imposed, could not have been much longer delayed at whatever cost to the corporation. It is a subject of congratulation, that by an amicable and satisfactory negotiation with Mr. Lowell, the proprietor of the adjoining estate, these great improvements have been made possible at a reasonable cost, and that a portion of our road which, from its original construction, has been an eyesore to stockholders and passengers alike, will be soon transformed into one of its most commodious and attractive sections.

It is doubtless known to most of the stockholders that negotiations have been for some time pending between the City of Boston and this corporation, to enable the former to extend its spacious thoroughfare known as Columbus Avenue, from its present terminus in the rear of our passenger station, to Pleasant Street and Park Square. Although the accomplishment of this enterprise is not within the authority of the City Government except with the consent of this corporation, and although its consummation involves very serious consequences to us, yet the directors have not failed to see that so important an improvement will continue to be pressed both upon the City Government and upon this corporation with constantly increasing urgency and force. They have therefore been disposed to meet the municipal authorities in a just and liberal spirit, and they feel that this disposition has been clearly indicated in the course of their negotiations. That the stockholders may have the opportunity to judge for themselves how far the directors are justified in this conclusion, they have appended to this report the correspondence they have had with the Committee on streets, embraced in the report of that Committee (City Doc. No. 114) of the present year, which very clearly and fairly exhibits the progress and present position of these negotiations.

President.—JOHN H. CLIFFORD.

Directors.—John H. Clifford, Samuel T. Dana, Geo. W. Hallet, J. Huntington Wolcott, T. P. L. Goddard, Wm. R. Robeson, F. M. Weld.

Treasurer.—BENJ. B. TORREY.

Superintendent.—A. A. FOLSOM.

☞ H. Wood, Esq., of Philadelphia, has been elected President of the Philadelphia and Baltimore Central Railroad Co.

Port Huron and Lake Michigan Railroad.

To the Stockholders of the Port Huron and Lake Michigan Railroad Company:

The present annual meeting finds our company with forty-two miles of rails laid, and thirty-eight miles of road in operation. The adverse decision of the Supreme Court of this State upon the question of municipal aid to railroads, made some change indispensable in our financial policy. The localities most interested have however responded to the consequent requirements of the company in such manner as to insure the continued prosecution of our work and its completion to Lapeer city this year, and at least twenty miles more of road would have been brought into operation but for another failure on the part of the contractors for rails and other material. The arrangements heretofore reported as existing with those parties have therefore been cancelled. Everything that the company has received from them or from any other source, has been paid for, and the report of the Treasurer, accompanying this, indicates a prosperous condition of our financial affairs.

In addition to the shops and station buildings mentioned in the last yearly report, the company have completed commodious depots at the Grand Trunk crossing, at Capac, and Imlay City, and have laid over three thousand feet of side track, and have completed and put into use over one thousand feet of dock at Port Huron city. The road bed is well ditched, and the track properly ballasted and in fine condition for winter traffic. Sufficient additions have been made to the equipment to meet the increased demands of business, and nearly all repairs required are done at our own shops.

The road was opened for traffic to Capac on the 8th day of June last and to Imlay City on the 28th day of July following. The gross receipts from traffic have been $41,259 02. The number of passengers carried is 16,657 and the amount of freight moved 17,8661 3-20 tons. The running expenses have been light, being only $12,315 47. It may therefore be safely said that our brief experience has demonstrated that when the road shall be completed, the most sanguine expectations of its friends as to the business demands awaiting it will be more than realized.

E. White, *President.*

Port Huron, December 1st, 1870.

W. L. Bancroft, Treasurer, in account with Port Huron and Lake Michigan Railroad Company:

* Dividends marked thus are for the first six months of the year 1869-'70.

Little Schuylkill Railroad and Coal Co.

PHILADELPHIA, January 9, 1871.

The managers submit to the stockholders a statement of the business of the company for the year ending November 30, 1870. As will be seen by the report of the Treasurer, the mortgage debt has been reduced $12,000 by a payment on account of lands sold to Messrs. Roberts and others, trustees. There have been $5,374 51 collected from former sales of lands and town lots, which sum is held in reserve, as it belongs to the account of "capital."

In accordance with the statement made in last report, the regular expenses of the company have not exceeded $1,500 for the year, being $1,957 91 less than the previous year.

From the profits of the year a dividend of three and one-quarter per cent., free of tax, was declared in July, and one of three and one-half per cent., free of tax, was declared December 31.

The amount required to pay semi-annual dividends of three and one half per cent., clear of taxes, (due under the present laws) is $188,160 14, being about $2,000 less than the net receipts for the past year.

By order of the Managers.

JOHN F. BLANDY, President.

INCOME ACCOUNT

for the year ending November 30, 1870:

Receipts:	
Philadelphia and Reading Railroad Company:	
Lease of 1868	$185,227 00

Profits for the year ending Nov. 30, 1870	190,144 20
	$268,481 39
Dr. Dividend No. 24, (January, 1870, 3¼ per cent.)	$89,681 25
Dividend No. 25, (July, 1870, 3¼ per cent.)	89,681 25
Balance to credit	89,118 87
	$268,481 39

JOS. LAPSLEY WILSON,
Treasurer and Secretary.

☞ The St. Louis *Democrat* says the Cherokees have passed an order granting to the Atlantic and Pacific Railway Company (formerly south Pacific) a right of way through the lands of the reservation; also full right to take freely all the timber necessary in the construction of the road through the same.

☞ The survey for a railroad proposed from Brookline (Mass.) to Tyngsborough, through Pepperell and Dunstable, has been completed, and it is found that the route is very feasible.

☞ The extension of the Great Falls and Conway Railroad from Union Village (N. H.) to Westosipee, 28 miles, will be finished in June next.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 28, 1871.

Stock Exchange and Money Market.

Money has been working easier for the borrowing interest through the week, despite the persistent speculative manipulations of the supply, and the less favorable weekly exhibit of the city banks, the latter showing a general falling off in the resources, with an increase in the loan and discount averages. The speculative inquiry for aid has been less urgent, and has been met with promptness on the basis of 5@7, mostly 5@6 per cent. on call to the Government houses and the leading Stock Exchange firms. The mercantile demand has been comparatively moderate, and prime commercial credits have been in more favor with lenders on the basis of the legal rate of 7 per cent. per annum. At the close, the tendency of the whole market was to increased ease. The glut of national bank notes continues, embarrassing the city banks, which manifest some eagerness to distribute it, even at a fractional discount, in exchange for legal tender notes. The outstanding circulation of the national banks of the whole country is now over 306¼ millions.

The specie reserve of the city banks according to the latest return is $28,520,495, against $39,454,008 same time last year. The city bank deposits are now $211,690,030, against $207,479,828 week ending Jan. 23 1870. The legal tender reserve amounts to $49,774,557, against $54,619,433 same time last year. The circulation now stands at $31,988 274, against $33,806.721 same time last year. The loans are now $270,853,791, against $259,592,756 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $94.778.069 a day, against a daily average of $85,581,901 the preceding week. The current week's exchanges average about 93 millions a day. The city banks, last week reported a loss of $469,309 of specie, $1,713,744 of deposits, and $801,364 of legal tender notes. They increased their loans $1,642,769; and reduced their circulation, $61,530.

National Bank notes to the amount of $569 340 were issued last week by the Treasury Department. Deducting from the grand total issue to 1741 banks the currency returned, including worn out notes, amounting to $36,194,638, the existing 1,636 banks, (with an aggregate capital of $430,299,301,) retain an actual circulation of $306,288,567. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $348,867,200; and for the public deposits, $15,719,500—making a total of $364,086,700. The Treasury Department last week redeemed and destroyed $719,100 of worn and mutilated fractional currency, and issued $704,366 of new.

The cash balance in the Treasury Department at the opening of business on Monday, last was $26,294,000 in currency, and $101,823,000 in coin, including $30,950,000 in certificates.

The U. S. Sub-Treasury, last week, reduced its coin balance $571,302, and its currency reserve, $2,921,966. On Wednesday of this week, it closed with a balance of $7,120,615 in currency, and $61,096,519 in coin, against a balance a week previous of $8,926,722 currency, and $61,377,321 coin.

The U. S. Sub-Treasurer retired, last week, $2,865,287 of coin certificates, received for customs.

Government revenues, from excises, during the past week were about two millions; customs at the port of New York, $3,176,287, and at the outports about $1,050,000 (in coin) more, making the grand total income for the week equal to about $6,668,915 in currency. The income of the Government, from excises, since July 1, 1870, has been $89,763,755.

The Gold speculation has been comparatively tame and uninteresting, the price showing very slight changes from day to day. The extremes of the week were 110⅛@110¾, and the closing quotation on Wednesday was 110⅝. The customs drain, last week, exceeded a daily average of half a million. Thus far, this week, it has been equal to only about $308,000 a day. The exports of specie last week were $807,868. The shipments on Wednesday of this week were $63,520 in silver bars. The Gold interest disbursements at the Sub-Treasury, last week, were $2,849,596, and through the first half of this week, $725,225.

The Treasury Department under its official programme for January, sold a million of Gold, on

Thursday, January 26, at equal to the market rates.

The customs revenue on Wednesday was $286,000. The coin interest disbursements at the Sub-Treasury were $164,228.

The export drain was $807,363 last week against $600,088, same week preceding year. The shipments since July 1, 1870, have been $43,196,377, against $18,001,141 same time in 1869–'70.

The customs demand for Gold last week, averaged $549,167 a day; thus far, this week, it has averaged $307,736 a day, or equal to a weekly aggregate of $1,846,416. The arrivals of specie from Europe, Havana and other foreign ports last week were $79,471, and since Jan. 1, 1871, $159,416, against 270,377 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $80,277,409, against $71,701,481 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $58,824,080 against $59,824,576 same time in 1869–'70.

Foreign Exchange has been quoted quite firm, and inclined to buoyancy, on a lighter general offering of prime bills, and a pretty fair demand. Bankers' sixty day bills on London closed on Wednesday at 109¼@109⅜; sight bills on London, 110@110¼.

Government securities have been quoted higher, on a reduced offering of nearly all issues, and a more active inquiry, particularly for the May and November Five-Twenties, the issue of 1867, and the Ten-Forties. At the close, the market was generally strong and buoyant.

On Wednesday, Government bought in a million of Five-Twenties at 107 33@107 50, ex-interest. The amount of bonds offered was $2,247,000.

U. S. sixes of 1881 closed here on Wednesday of the current week at 111½@111¾; U. S. Five-Twenties of 1862, 109½@109¾; U. S. Five-Twenties of 1864 at 109@109⅛; U. S. Five-Twenties of 1865, 109@109⅛; U. S. Five-twenties of 1865 consolidated, 107⅞@108; U. S. Five Twenties of 1867, 108¼@108⅜; U. S. Five-twenties of 1868, 108⅝@108⅞; U. S. Ten-forties at 108⅝@108⅞; U. S. Six per cent. currency bonds, 110⅝@110¾.

State bonds have been in fair demand, at firmer, though irregular prices.

Railway bonds have been in fair demand at generally firmer prices. Central Pacific Sixes have been selling more freely, closing at 90⅝@90¾. Chesapeake and Ohio Sixes have been in moderate demand at 90 and interest. Union Pacific Sixes have been quoted up to 77½@77⅝.

Railway and miscellaneous share property has been more active, and decidedly stronger, though variable, as to prices. The tendency at the close of Wednesday was to higher values, in nearly all instances, on an enlarged volume of dealings. Union Pacific stock has been closed at 22½@22¾. Western Union Telegraph closed at 47⅜@47½.

There has been a somewhat livelier movement in general business. Foreign goods have been in more request, and held with increased confidence. Domestic Produce has been quoted stronger in the leading instances with a freer movement in Cotton, Breadstuffs and Provisions. Middling upland cotton closed on Wednesday at 15⅛ cts. per lb. The receipts at all the ports, since Sept. 1, 1870, have been 2,040,514 bales, against 1,597,176 bales same time in 1869–'70; exports same time 1,226,964 bales, against 842,872 bales same time in 1869–'70; stock on hand at latest dates, 547,729 bales, against 469,589 bales same date 1869.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 10.	Jan. 16.	Jan. 24.
Consols	92⅜	92⅛@92¼	92½
U. S. 5-20's of 1862	89⅜	90⅛@90¼	90⅛
U. S. 5-20s, 1865	89¼	89⅛@89⅜	89¾
" 1867	88¼	88⅝	88⅞
" 10-40s	87¾	88@88⅛	88¾
Erie	18¾	—	18⅞
Ill. Central	114	—	110
At. and Gt. West	28½	—	27½

At the Live Stock markets, this week, Beeves have been in light stock and quite moderate request from 9½@16c. per lb.; week's receipts, 4,861. Milch cows quiet at $40@$110 each, receipts, 75. Veal calves in fair demand at from 5@12½c. per lb.; receipts, 796. Sheep have been in moderate request at from 4½@9c. per lb.; receipts, 24,895. Swine in better demand at 7¾@8⅜c. per lb., all live weight; receipts, 11,796.

Ocean freights have been quoted lower and irregular as to rates, on a moderate business. For Liverpool we quote flour at 2s. 6d. by sail, and 2s. 9d.@3s. by steamer per bbl.; grain at 5¼d. by sail, and 6¼d.@6d½. by steamer per bushel; cotton at ¼@$\frac{5}{16}$d. by sail and $\frac{5}{16}$@⅜ by steamer per lb.; and heavy goods 15s.@30s. by sail, and 25s.@40s. by steamer, per ton.

The following will show the exports (exclusive of specie) from New York to foreign ports or the week ending January 24th, and since the beginning of the year:

	1870.	1871.
For the week	$2,696,806	$5,134,499
Previously reported	8,156,050	13,569,683
Since Jan. 1	$10,852,856	$18,704,182

The imports for the week ending Jan. 21, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,571,194	$2,045,948
Gen. merchandise	2,786,324	3,544,586
Total for the week	$4,357,518	$5,590,534
Previously reported	4,552,895	5,640,792
Since January 1	$8,910,413	$11,231,326

Erie Railway.

From the Annual Report of this company made to the State Engineer and Surveyor at Albany for the year ending September 30, 1870, the following figures are obtained: Length of road, Jersey City to Dunkirk, 459 miles; length of double track, including sidings, 289¾ miles; length of branches owned by the company, 364¼ miles; length of double track on same, 60 miles. Number of engines, 440; number of first class passenger cars (rated as 8-wheel), 220; second class and emigrant do., 54; baggage, mail and express do., 71; freight, do., 8,840. Miles run by passenger trains, 2,900,189; do. by express trains, 6,426,190. Number of passengers carried, 3,275,025; miles travelled by passengers, 185,589,109. Tons (of 2,000) of freight carried, 4,852,505; total tons carried one mile, 898,862,718. The freight carried consisted of: products of the forest, 198,620; animals, 271,245; vegetable food, 468,976; other agricultural products, 111,155; manufactures, 348,423; merchandise, 440,353; other articles, 3,013,733—total, 4,852,505.

EXPENSES OF MAINTAINING THE ROAD.

Repair of road bed and railway, excepting cost of iron	$1,972,947 09
Cost of iron used in repairs	1,141,480 00
Repairs of buildings	247,140 90
Repairs of fences and gates	44,892 93
Taxes on real estate	283,732 72
Total	$3,689,693 64

Of the above total, $996,217 27 were allotted to passenger transportation and $2,693,476 87 to freight transportation.

EXPENSES OF REPAIRS OF MACHINERY.

Engines and tenders	$1,312,798 33
Passenger and baggage cars	340,215 54
Freight cars	778,105 12
Tools and machinery in shops	110,163 82
Incidental expenses	60,408 24
Total	$2,601 691 05

Of the above, $700,034 87 were allotted to passenger transportation, and $1,901,666 18 to freight ransportation.

EXPENSES OF OPERATING THE ROAD.

Office expenses, &c.	$245,932 34
Agents and clerks	1,056,701 27
Labor—loading & unloading freight	581,575 01
Watchmen and switch tenders	207,372 09
Wood and water station attendance.	39,944 45
Conductors, baggage and brake men	966,049 39
Enginemen and firemen	945,653 99
Fuel, cost and labor of preparing for use	992,896 01
Oil & waste for engines and tenders	146,757 19
Oil and waste for freight cars	27,981 73
Oil and waste for passenger cars	5,262 35
Loss and damage of goods	163,189 77
Damage for injuries of persons	36,972 08
Damage to property	9,263 78
General superintendence	167,280 28
Contingencies	187,794 49
Total	$5,781,026 20

Of the above, $1,609,286 89 were allotted to passenger transportation and $4,172,339 31 to freight.

RECEIPTS FOR THE YEAR.

From passengers	$3,166,877 34
From freight	13,328,027 25
Storage	6,778 95
Telegraph	35,951 06
Rents	75,953 86
Mails	167,805 15
Pavonia ferry	85,535 45
Hire of cars	5,749 51
Operating sundry railroads	306,733 09
Total	$16,179,461 66

PAYMENTS FOR THE YEAR OTHER THAN FOR CONSTRUCTION.

HARVEY FISK. A. S. HATCH.

☞ FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU ST.,
NEW YORK, Jan. 27, 1871.

United States Five-twenty Bonds, if allowed to run until 1875, will pay but FOUR PER CENT. Gold on the investmant at present market rates, while they are likely to be funded at a lower rate of interest before that time.

THF FIRST MORTGAGE BONDS OF THE CENTRAL PACIFIC RAILROAD COMPANY, at present market price, will pay nearly SEVEN PER CENT. in gold on the investment, and cannot be called in or the interest reduced under twenty-five years.

A difference of from FIFTEEN to TWENTY PER CENT. may be realized in exchanging Government Bonds for Central Pacifics, or saved in making new investments.

The safety and value of the First Mortgage Bonds of the Central Pacific Railroad Company are thoroughly established and universally recognized.

The value of the property, the immense and increasing revenues of the Company, and its able and honorable management, assure the security of the principal and prompt and regular payment of interest beyond question.

We have introduced them into our regular business upon the same busis as Government Bonds, and buy and sell them as freely at current market rates, and are prepared to furnish them to investors or others at daily quotations.

We buy and sell Government Bonds, Gold, and Coupons, execute orders in miscellaneous securities at the New York Stock Exchange, make collections, receive deposits subject to check at sight, allow interest on balances, and do a general banking business.

FISK & HATCH.

Journal of Railroad Law.

RAILROAD COMPANIES—RULE OF DAMAGES—PRUDENCE TO BE EXERCISED BY PARENTS—ALSO BY INFANTS.

The facts of the late case of O'Flaherty and wife *vs.* The Union Railway Company, (45 Mo., 70.) are fully and clearly stated in the following opinion by

WAYNE, J.—This was an action by plaintiffs, as parents, to recover from defendant, an incorporated street railroad company, the statutory penalty of $5,000 for killing their child, a little girl aged about two years and eight months. The evidence shows that the accident occurred on Carr street, in the City of St. Louis; that the mother of the child dressed it, and sent it, under the protection of an elder sister about eight years of age to a lot across the street to play and yet fresh air; that after being there for a time the child, unobserved by its elder sister, escaped and undertook to make its way home across the street. While crossing the street, and on the railway track, one of defendant's cars came along and ran over it, completely crushing its skull. It is also most clearly established by the testimony that the car was being driven at a rapid rate. Some of the witnesses say that the team was running; others, that it was going at a very fast trot, and that the driver, instead of looking ahead and having his hand on the brake in order to avoid accidents, was looking behind through the car, and holding on the dashboard maintaining his position. When the car was from thirty to fifty feet distant from the child, there was a woman looking out of the upper story window on the street, who saw the danger and cried out, trying to give the alarm to the driver; but his mind was diverted to another direction, and no effort was made to stop the car till the child was run over and killed outright. It further seems that the street over which the car was traveling was an uphill grade, and had the car been driven with proper speed, and had the driver exercised prudence, management and care, the accident might easily have been avoided and the child's life saved.

On behalf of the plaintiffs, the court in substance instructed the jury that if the child's death was caused or occasioned by the negligence, carelessness or unskilfulness of the driver, servant or employee of the defendant whilst running its car on the railroad, and whilst the same was in his charge as driver, and, without negligence on the part of the child or its parents, then the jury should find for the plaintiffs; that, although the jury might believe from the evidence that the plaintiffs or their deceased child were guilty of neglect or imprudence which contributed remotely to the death of the child, yet if the servant, employee or driver of the defendant was guilty of misconduct or carelessness in the management of the defendant's car, which misconduct or carelessness was the immediate cause of the death of the deceased, and with the exercise of ordinary prudence and care on the part of said servant, employee or driver, the death of the child might have been avoided, then the defendant was liable. To these instructions the defendant at the time excepted.

For the defendant the court instructed the jury that before the plaintiffs could recover in the case, they must establish affirmatively two facts, to wit: *First*, that the deceased child came to its death from the careless acts or conduct of the defendant's agents or servants in the management of its car; *Second*, that neither of the plaintiffs nor the little girl in charge of the deceased child, nor deceased child itself, were guilty of any negligence or carelessness immediately contributing to the injury and death of the child.

The defendant asked two additional instructions. The first was that if the jury found from the evidence that the deceased child was but two years and eight or ten months old, and that it was sent upon the streets in the City of St. Louis by its mother, in charge of a sister eight years old, and, while thus attended, it was left alone upon the streets, or was permitted to go out of the yard where its sister was engaged at play, and while thus alone, it attempted to cross a public thoroughfare in said city traversed by street cars and other vehicles drawn by horses, unattended by any one, sufficiently near to protect it from harm, and in so doing it received the injuries complained of, from which it died, the plaintiffs could not recover. The second instruction was in substance, that if the deceased child was but two years and eight months or ten months old, and attempted to cross from the north side to the south side of Carr street, unattended by any one in charge of it or sufficiently near to it to give it aid, care and protection in crossing said street, and that said street was a public thoroughfare used for street cars and other vehicles drawn by horses, and that said child, while so attempting to cross said street, came in contact with the horses or car of defendant and was knocked down and run over, then these facts constituted such carelessness as would prevent the plaintiffs from recovering. The last two instructions the court refused to give, and the defendant excepted. The jury found a verdict for the plaintiffs on which judgment was rendered and the defendant appealed.

The instructions given for the plaintiffs are wholly unobjectionable, for it is the established doctrine of this court that in an action for damages on account of negligence or unskilfulness, it should be left to the jury to say whether, notwithstanding the imprudence or neglect of the injured person, the defendant could not, in the exercise of reasonable care and diligence, have prevented the injury. The instruction given for the defendant was sufficiently favorable to it, and went as far as the prior rulings in this State on this subject would permit. But the instructions refused were based on an entirely different theory, and asked the court to declare, as matters of law, that permitting the child to go out under the circumstances as detailed, was of itself negligence and preclude a recovery.

In discussing the question of infantile responsibility in a case in this court, we held that the same rigid rule, in determining what would be a bar to an action on the ground of contributory negligence, would not be applied to an infant, an idiot, or an insane person, as to one who had arrived at an age to possess ordinary judgment and discretion. All that was necessary to give a right of action for an injury inflicted by the defendant was that the injured person should have exercised care and prudence equal to his capacity (Boland and wife *vs.* Missouri Railroad Co. 36 Mo., 484). The young and the old, the lame and infirm, are entitled to the use of the street, and more care must be exercised towards them by persons controlling or managing cars and vehicles than towards those who have better powers of motion. A child or young person can not be expected to possess that vigilant foresight which would be exacted of a person of maturer years. But it does not thence follow that they are to be denied the privilege of going on the streets, and, if they do so go, they may be killed with impunity. In the case of a child two or three years old, no knowledge or foresight can be expected. This fact persons who traverse the streets in conducting cars are bound to know and govern their actions accordingly. In Mangam *vs.* Brooklyn Railroad Company 38 N. Y. 455, the action was for injuries done to an infant three or four years old. The proof showed that the child was left in the house with the front door locked, that he got out into the street through the front window, and then went down one street and crossed another, in front of the mules drawing the car, that he got out of the way of the mules, but was struck by the dashboard of the car and knocked down, and received the injury; that the driver of the car had caught a pigeon, which he had in his hand, and was sitting down looking at it, having wound his lines around the brake, and was paying no attention to his team, or to what might be on the track, at the time of approaching the place of collision, nor until after the occurrence, the inference is that the team was going along leisurely, and the driver was simply guilty of inattention, but had he been at his post vigilantly performing his duty, the accident might and would have been avoided. Yet the court held that the child being in the street under such circumstances would not warrant the conclusion, as matter of law, that the parent was guilty of negligence, and at most the question of fact should be submitted to the jury.

I think it may be stated as a sound proposition that to constitute negligence in the parents there must be an omission of such care as persons of ordinary prudence exercise, and deem adequate for the required purpose. In the present case it appears that the unfortunate little child was never permitted to go out on the street alone, unattended, but it was frequently sent out under the care of its sister. Although the sister was but eight years old, she might have been entirely adequate to afford it protection under ordinary circumstances. It is the only attendance many people are capable of affording their children. To say that it is negligence to permit a child to go out to play unless it is accompanied by a grown attendant, would be to hold that free air and exercise should only be enjoyed by the wealthy who are able to employ such attendants, and would amount to a denial of these blessings to the poor.

The evidence is clear that the driver was guilty of the most reckless misconduct and criminal disregard of human life. Had he been driving in moderation, and attentive to those duties which his situation demanded, this accident could never have happened. But the whole question was fairly submitted to the jury, and they have passed upon it by their verdict. The verdict can only be disturbed by attempting to withdraw this case from the operation of the established law of this State, and we do not feel particularly called upon

to invent new rules for the purpose of screening and protecting wrong-doers. I think the judgment is right, and therefore advise an affirmance.

Judgment affirmed. The other judges concur.

Receipts and Shipments of Produce at Milwaukee.

The following figures will show the receipts and shipments of the leading articles of produce at Milwaukee for the year 1870, as compared with those of 1869:

RECEIPTS.

Cleveland and Pittsburg Railroad.

At the annual meeting of the stockholders of this company held at Cleveland on the 4th inst., the directors presented a report of the operations of the road for the fiscal year ending Nov. 30, 1870, from which we abstract the following figures:

The gross receipts from the traffic of the road have been:

From transportation of freight		$1,949,505 03
From transp. of passengers		623,144 90
" " mails, express, &c.		100,824 66
		$2,673,474 59

The operating expenses have been:

For account of motive power and cars	$622,752 89	
For ac'ct maintenance of way and structures	381,311 71	
For account transportation expenses	339,993 28	
For account general expenses	192,253 09	
		1,536,310 97
Balance net earnings		$1,137,163 62

A comparison of these results with those of the previous year gives the following:

Increase in gross earnings	$262,797 73
Increase of operating expenses	79,661 30
Increase in net earnings	$183,136 43

While this increase in gross earnings is, as heretofore, derived largely from the coal and ore traffic, it is a gratifying fact indicative of the growth and development of the general business of the road, that considerably more than half of the same arises from the traffic of a miscellaneous character, other than the great staple named.

Of the increase in operating expenses, $56,000 represents the cost of rebuilding 75 box and flat stock cars missing from the equipment at the commencement of the year, and for an indefinite period previously. Deducting this unusual and exceptional item, the increase in expense is moderate, when contrasted with the large increase in earnings.

The net income for the year is stated as follows:

Net earnings as above		$1,137,163 62
Surplus received from P., Ft. W. & C. Railway, account joint earnings (subject to future revision as per contract)		72,091 97
		$1,209,255 59
Deduct from this:		
Mortgage interest, &c.	$302,914 65	
Lease of track P. Ft. W. and C. railway	85,000 00	
Sinking Fund, net cost mortgage bonds 1,900 retired	29,596 00	
		417,510 64
Surplus earnings		$791,744 95

Four dividends were paid during the year, each of 2½ per cent., and amounting in the whole to $754,323 33.

There remains an unappropriated surplus to the credit of the net earnings at the close of the fiscal year, of $221,925 19, as shown by the balance sheet hereinafter given, being a surplus of say $30,000 over the amount required to meet the next regular quarterly dividend.

The report next, in a general account current, exhibits the details of the financial operations for the current year. Issues of capital stock, as shown in the account to be some $240,750, are accounted for as follows:

For conversion 2d mortgage bonds	$138,500 00
For conversion 3d mortgage bonds	99,500 00
For exchange of fractional scrip, &c.	2,750 00
Total issues	$240,750 00

A further reduction of indebtedness under the second and third mortgages, has been made by conversion of bonds into capital stock, amounting in the aggregate of $238,000.

Changes in the outstanding issues of bonds under the consolidated and sinking fund mortgage of 1,900, have taken place as follows:

Bonds sold	$159,000 00
Retired in sinking fund	25,000 00
Increase during the year	$124,000 00

The total number of bonds executed under this mortgage remains the same as stated in the last Annual Report.

The following recapitulation illustrates the entire operations in these securities to the close of the year:

Bonds executed—1,850 bonds		$1,350,000 00
Bonds outstanding	$528,000 00	
Bonds retired in sinking fund and cancelled	87,000 00	
Bonds in hands of Farmers Loan & Trust Co., Trustees	735,000 00	
		$1,350,000 00

The fourth and last series of Dividend Bonds issued by the Company in the year 1857, fell due January 1st, 1870. Owing to irregularities of the Ohio Life Insurance and Trust Co., through whom the most of these bonds were disbursed, no proper entry of the issues ever came upon the books of the company and the account has been apparently overpaid.

The bonds and scrip presented, however, being of unquestionable authenticity, there was no alternative but to pay them.

The disbursements on this account have been:

For dividend bonds retired and cancelled have been	$10 950 00
For dividend scrip	614 00
Total	$11,564 00

So far as any trace can be obtained, but $500 of these bonds remained outstanding at the close of the year, $400 of which has since been paid, and the series practically liquidated.

The roadway and equipment is stated in the

report to be in excellent order. Quite a number of new cars and engines having been built.

The financial condition of the Company at the close of the year, is set forth in the following:

BALANCE SHEET.

Construction		$8,852,638 99
Equipment		2,284,468 04
Machinery and tools		84,788 26
Personal property		40,033 09
Telegraph line		16,913 72
Total construction and equip.		$11,278,837 10
Assets	$635,992 02	
Liabilities	415,972 04	
		220,019 98
Total debit		$11,498,857 08
Capital stock		$7,482,225 00
Scrip issues		12,363 26
Total capital stock		$7,494,588 26
2d mortgage bonds	$790,500 00	
3d mortgage bonds	1,358,000 00	
4th m'rt. bonds	$1,096,000 00	
Scrip issues	8,843 63	
	1,104,843 63	
Mort. bonds of 1900.	528,000 00	
Total funded debt		3,781,343 63
Bills payable		1,000 00
Net earnings		221,925 19
Total credit		$11,498,857 08

List of U. S. Patents.

Issued for Improvements in Railroad Construction, Rolling Stock, &c., for the week ending Jan. 17, 1871, and each bearing that date. Reported for the AMERICAN RAILROAD JOURNAL, from the Office of DAVID A. BURR, Solicitor of Patents and Attorney in Patent cases, Washington City, D. C.

No.

110,950.—Railroad Car Ventilator, William C. Betts, Brooklyn, N. Y.

111,006.—Joint for Railway Rails, William W. Robinson, Ripon, Wis.

111,010.—Iron Viaduct, C. Shaler Smith, Baltimore, Md., assignor to the Baltimore Bridge Company, same place.

111,036.—Steam Boiler, Adolph Brase and Lemuel Salladay, Sciotoville, Ohio.

111,096.—Railroad Spike, Henry Fostrick, New York, and Reinhold Boeklen, Brooklyn N. Y.

EXTENSION.

Arrangement of Railroad Platform Scales, Samuel G. Lewis of Philadelphia, Pa., executor of Lea Pusey, deceased. Letters Patent No. 16,286, dated October 23, 1856.

☞ A movement is on foot to build a railroad from Petersburg, Va., through Dinwiddie and Mecklenburg counties in that State, and Person, Caswell and Alamance counties, to Greensboro,' in North Carolina.

☞ The net earnings of the Union Pacific Railroad for the year 1870, from July to December inclusive, were $1,894,006 63, against $1,644,393 09 for the corresponding time in 1869, showing a net gain $249,613 54.

☞ The Portland and Ogdensburg Railroad began surveys east from St. Johnsbury on the 17th. The bridge over the Passumpsic is to be built at once on the ice.

☞ It is stated in the Richmond *Dispatch* that orders have been given to let the whole line of the Chesapeake and Ohio Railroad, not already under contract, on the 1st of April. And it is further ordered by the board that the road shall be in operation from the terminus, at the junction of the Big Sandy river with the Ohio, to the falls of the Kanawha, in July next.

☞ The Butler branch of the West Pennsylvania Railroad was formally opened on the 18th inst.

☞ RAILROAD BONDS—Whether you wish to buy or sell, write to CHARLES W. HASSLER, 24 Broad Street, New York.

INTERCOLONIAL RAILWAY OF CANADA.

Tenders for Iron Bridge Superstructures.

The Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of Two Hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear; information as to the location of the different bridges; and forms of tender, can be obtained at the offices of the Commissioners or at those of the Chief Engineer, at Ottawa, Canada; or at the Banking House of Messrs. Morton, Rose & Co., Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the Bridges, and must state the price of each span f. o. b., at the place of shipment; and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders marked "Tenders for Bridges" and addressed to the Commissioners, at Ottawa, will be received up to 6 O'CLOCK P. M., of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

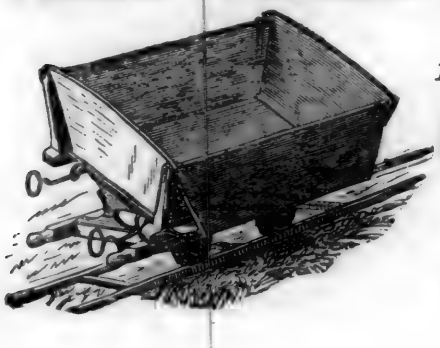
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

The Northern Pacific Railroad.

Messrs. JAY COOKE & Co., the Fiscal Agents of the Northern Pacific Railroad Company, announce the issue of the new Seven-Thirty Gold Loan of that Company; which they offer at par and interest in currency.

In presenting a loan of this character there are certain considerations which seem to commend it to the special favor of capitalists, and of all who desire a safe, profitable and permanent investment.

The Northern Pacific Railroad is now building westward from Lake Superior. Enough money has been paid in by the stockholders to construct and equip the first division of the road—from Lake Superior across Minnesota to the Red River of the North—223 miles. The money for this branch—six millions of dollars—has been paid in, and the work is being rapidly pushed to completion.

At the same time arrangements have been completed for beginning the road at the Western terminus on Puget Sound and the Pacific Ocean. This work will commence in the Spring—and in a little time the road will be in the process of building at each end.

The character of this bond—its terms, obligations and security, the care taken to guard in the remotest degree the interest of every bondholder—must commend it in an eminent degree to the public. All the experience gained by this house from more than thirty years' familiarity with banking business and with every variety of securities, has been devoted to the perfecting of this bond, and making it as far as possible a perfect security.

In the first place, these bonds are a first mortgage issue on a railroad over two thousand miles in extent, together with the rolling stock, buildings, and all other equipments.

In the second place, it is a first and only mortgage upon a land grant of more than fifty millions of acres. To every mile of completed road the Government gives the Company over twenty-two thousand acres of land. This land is given in alternate sections, reaching from twenty to fifty miles on each side of the track. The grant embraces agricultural, timbered and mineral lands.

It will thus be seen that the franchise of the road and its vast endowment extends over a broad, fertile belt of land, from Lake Superior and Wisconsin, through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon and Washington, to Puget Sound and the Pacific Ocean.

At the outset of this enterprise the Northern Pacific Railroad purchased and partially consolidated with their line the St. Paul and Pacific Railroad, embracing three hundred miles of completed road in Minnesota, on which there is now a growing and prosperous business. This combination removes, what might at the eastern terminus, otherwise be regarded as the rivalry of conflicting interests.

The extent and value of the endowment in lands bestowed upon the Northern Pacific Railroad, by the Government, cannot be too highly valued. This grant alone has been estimated to be larger in area than all New England with Maryland combined, or as large as Ohio and Indiana.

The history of the Illinois Central Railroad, whose land grant was one of the earliest experiments in the matter of Government endowment, shows the vast and increasing value of such a grant when judiciously held and administered in the interest of bondholders. The State of Illinois gave to this corporation some two million and a half acres. At this time the revenues from these lands amount to some twenty-four millions of dollars, and there is every reason to suppose that they will reach thirty millions of dollars. At the time when this grant was bestowed upon the Illinois Central the lands had no greater relative value than the lands in the possession of the Northern Pacific Railroad.

Before accepting the agency of the road, Jay Cooke & Co. had the lands embraced in this grant carefully examined by competent and impartial agents. The reports of these gentlemen satisfied the fiscal agents of the great value of these lands, their fertility and wealth, their timber and mineral importance, their mildness of temperature, their perfect adaptibility to every want of a large agricultural and industrial population.

The agents of the loan might be permitted to adduce as additional evidence of the enormous value of this grant the objections of the honorable Senators and Representatives who opposed the endowment, when before Congress. "In all this belt of country west of the Rocky Mountains," said a distinguished Representative, "there is a forest which, opened up by railroad, will, for the purpose of ship-building, and for all the purposes of commerce, at home and abroad, be worth hundreds of millions of dollars." "No person," remarked an eminent Senator, "can study the topography of the country, can bring to bear his knowledge of the climatic influences, without knowing that these plains are fertile; that they are clothed with grass and timber, worth untold millions of money; that it is a vast and valuable grass-producing and grain-growing region—a large proportion of it covered with forests, the like of which cannot be found elsewhere on this continent, from which the great commercial powers of the world are now obtaining the timber out of which they now construct their merchant fleets." In this same debate the land grant was spoken of as "a grand empire" by one Senator; as "an empire in itself" by another; "a belt," remarked still another Senator, "one hundred and twenty miles wide and reaching two thousand miles in extent, sufficient of itself to make twenty States, and more than twenty States."

In presenting these illustrations of the general and material value of the property represented by this loan, attention is earnestly requested to the security and profit of these bonds:

They are free from United States tax, and are issued of the following denominations: Coupons, $100, $500 and $1,000. Registered, $100, $500, $1,000, $5,000 and $10,000.

Both principal and interest payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years and the interest (at the rate of seven and three-tenths per cent. per annum) half yearly, first of January and July.

While the Government does not directly guarantee the bonds of the road, it thus amply pro-

vides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great National improvement.

In order to still further watch and protect the interests of every bondholder, it may be proper to state that the Trustees under the mortgage are Messrs. Jay Cooke of Philadelphia and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interests of the First Mortgage bondholders, and are required to see that the proceeds of land sales are used in purchasing and cancelling the bonds of the company, if they can be bought before maturity at more than 10 per cent. premium; otherwise the Trustees are to invest the proceeds of land sales in United States bonds or real estate mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in their control, as security, at least 500 acres of average land to every $1,000 of outstanding first mortgage bonds, beside the railroad itself and all its equipments and franchises.

These bonds will be at all times receivable, at 1.10 in payment for the company's lands, at their lowest cash price.

The registered bonds can be exchanged at any time for coupons, the coupons for registered; and both those for others, payable, principal and interest, at any of the principal financial centers of Europe in the coin of the various European countries.

In recapitulating the advantages of the loan, it is well to remember—

I. This is a first mortgage on the railroad and land grant.

II. The railroad will be continuous, under one management, for two thousand miles, and will connect the Pacific with Lake Superior and the Mississippi.

III. It will open up to American enterprise the rich and noble Red River country of British America.

IV. The land grant is absolutely a surety to the bondholders.

V. This land grant is larger than that ever given to any national improvement.

VI. It embraces a region of fertility, mildness in temperature, and capable of enormous development.

VII. The lands in themselves will build the road and leave a large surplus.

VIII. By the Northern Pacific Railroad the Lakes are 600 miles nearer the Pacific than by any other route.

IX. The Northern Pacific is the short cut route to the Indies, and lessens the distance between China and London over 1,200 miles.

X. Its elevation is so much less than other lines that the climate is milder, less snow falls and the gradients are easier.

XI. It intersects and drains navigable streams, which control a vast outlying region.

XII. It will be practically an international route, controlling the trade of British America.

XIII. The interest on these bonds, so well secured, makes them the most profitable investment in the market.

XIV. The care taken in the preparation and the indorsement of the bonds makes the interest of the holder absolutely secure.

XV. The denominations in which the bonds are issued makes them a popular loan, while the fact that they represent land and may be so redeemed, gives them an additional value to settlers and emigrants.

The nearest bank or banker will supply these bonds in any desired amount and of any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks may send money or other bonds direct to us by express, and we will send back Northern Pacific bonds at our own risk and without cost to the investor. For further information, pamphlets, maps, &c., call on or address the undersigned or any of the banks or bankers employed to sell this loan.

For sale by

JAY COOKE & CO.,

Charged Trustees sinking fund	21,800 36	
		275,679 33
Balance, transferred to contingent fund		$32,250 58

The increase of business upon the roads operated by this company, is about 12 per cent. on passengers, as compared with last year.

The earnings have been increased about fifty-four thousand dollars.

Seventy-five thousand miles more have been run, being an increase 15 per cent.; producing a corresponding increase of expenses, amounting to about forty-two thousand dollars.

Dividends at the rate of 8 per cent. per annum, free of all taxes, have been paid to the stockholders; 1 per cent. has been carried to the sinking fund, and there remains in contingent fund a surplus balance of the earnings of the year, of ($32,250 58,) about 1½ per cent. on the capital.

A much larger show of income would have been exhibited, but for the reductions in tariff, made at the commencement of the season. The freight on coal to Lowell was at that time reduced 16⅔ per cent., and on Iron and many other articles of heavy merchandise 10 per cent. A very considerable reduction was made at the same time on mileage tickets. The estimated falling off in receipts, from these causes, was not less than forty thousand dollars.

Believing that the interest of the road is promoted by conceding to the public the lowest possible tariff, consistent with the maintenance of first class accommodations, and reasonable dividends, we have from time to time increased the train and station facilities, and diminished the scale of tariff prices, as fast as the increased traffic and the decreased cost of material would warrant.

In 1865 the price of a single ticket between Boston and Lowell, was one dollar, and season tickets were thirty-five dollars per quarter. In 1866 a reduction was made, to ninety cents for a single ticket, and thirty-two dollars per quarter. In 1868 a further reduction was made to eighty cents single, and thirty dollars per quarter. Package tickets were sold at the rate of ten for seven dollars and a half. Thus actually reducing the fare to seventy-five cents.

In 1870 the fare was further reduced by sale of a ticket good to the purchaser for one thousand miles of travel, for twenty dollars; bringing down the fare between Boston and Lowell, to customers paying for one thousand miles in advance, to fifty-two cents, or two cents per mile.

These reductions on both freight and passenger tariffs, together with the additional expenses caused by putting on new trains, have kept the net income of the road down to an extremely moderate return upon the investment, and it would seem that the public patrons of the road have reason to be satisfied with both the extent and price of accommodations furnished.

At the last annual meeting you authorized the directors to locate upon, and purchase or take land, for terminal facilities in Boston, under the Act of 1869, and to erect such structures thereon as might be required for the purpose. Much time was spent in negotiations with the Eastern Railroad, for a joint occupancy of the granted territory. That Company finally declined to avail themselves of the Act, so far as the occupancy of any of the territory covered by it was concerned, and we have accordingly located only upon so much of the land as seemed to be required for our separate purposes. Our new location as now filed, covers the ground between our present passenger station and the northerly line of Nashua Street; taking one square only, out of the three which were authorized to be taken by the grant. The amount of land located upon, exclusive of Andover Street, is about seventy-five thousand feet. The adjacent grounds, now owned by this company and used for passenger station purposes, contain something over fifty thousand feet; making, with the street, which is to be closed, a building site of about two hundred and ten feet frontage on Causeway Street, with a depth of about seven hundred feet to the river. Some of the owners of land located upon, have been willing to sell at a satisfactory price, and deeds have been taken of several lots. Negotiations are in progress with others. But, with the majority of owners, the price is held so much above any rate obtained in that vicinity previous to our location, that it will probably become necessary to call out the commissioners, and take it under an appraisal. Early measures will be initiated for action in this direction.

Since the last meeting, we have, as then authorized by you, purchased the Stoneham, and the Lexington and Arlington Railroads, and, under the Act granted by the last Legislature, connected the latter with our main line, at Somerville, by the construction of about two and a quarter miles of new road. This connection was opened for public travel on the first day of December, 1870, and the Lexington trains were discontinued from the Fitchburg road at that date. We are now running seven trains a day each way, over that branch. The additional accommodations furnished, together with a reduction of about 10 per cent. on the fares, appear to give great satisfaction to the patrons of the road, and there are indications of a largely increased business.

The number of persons now holding season tickets on that line exceeds two hundred.

As business increases upon the road, we have found a necessity for large additions to the roll-

ing stock. Since 1858, when the Salem and Lawrence equipment was added to the rolling stock of the Boston and Lowell and Nashua and Lowell Roads and Branches, there has been a further increase of about 50 per cent. to the number of locomotives, 70 per cent. to passenger cars, 100 per cent. to baggage cars, and 60 per cent. to merchandise cars.

The joint roads now have forty-six locomotives, fifty-seven passenger cars, twenty-six baggage cars, and eleven hundred and thirty freight cars. Orders have also been given out for construction and purchase during the present winter, of about one hundred thousand dollars worth of additional rolling stock, to meet our growing wants.

For the purpose of purchasing Branch Roads and enlarging the terminal facilities at Boston, authority has been granted by the Legislature to increase the capital stock. At the last meeting you sanctioned an issue under this Act, to bring the capital up to three millions of dollars.

The bonds of 1853, which were convertible into stock at the option of the holder, ($440,000) have been so converted, with the exception of $55,000 now outstanding. The capital has thus already been carried up, from $1,830,000 to $2,215,000. We now propose, subject to your approval, to dispose of additional new stock, to the present stockholders, in accordance with the specific requirements of law, by offering to them one new share at par for every three shares now held. Assessments will be made on these new shares, as money is wanted for the improvements, and interest allowed at the rate of seven per cent. on the instalments paid in, as called for, until the whole amount is assessed and paid up, when the new stock will be placed in dividend account, on the same footing as the old.

TREASURER'S BALANCE SHEET, Sept. 30, 1870.

Manager.—GEORGE STARK.

Superintendent.—JOHN B. WINSLOW.

Treasurer.—C. E. A. BARTLETT.

An Extensive Company.

The "Laflin & Rand Powder Co." are the largest manufacturers of gunpowder, not only in the United States, but in the world. Their principal office is at 21 Park Row, but they have branch offices in Philadelphia, St. Louis, Chicago and other places, with agencies in nearly all our principal cities. Their organization is a consolidation into one corporation of four different companies which had previously been more or less under the same ownership. Of their nine establishments for making powder, four are located at different points in the State of New York, three in Pennsylvania, one in Maryland, and one in Wisconsin. They own several manufactories for kegs, barrels, machinery and similar appliances; one of the largest of which, situated in this city, is entirely devoted to the preparation of metallic canisters. Each of their powder works is necessarily extensive, as the nature of the business requires it to be conducted in widely detached buildings with of course separate motive power. On this account water is generally employed and the extent of their business can be inferred from the fact that this company keep over seventy water wheels in constant operation, although steam is employed in some places as being locally more economical. The transportation of powder is sometimes dangerous and always expensive; hence it is largely conducted in their own vessels or railroad cars, especially adapted to the purpose. Also when finally brought to market, public safety requires that magazines be erected for its storage at all distributing points, the expense of which, with land sufficient to secure the buildings from molestation and the neighborhood from danger, of itself involves a large capital.

Several of their works are employed exclusively upon gunpowder for use in fire arms. The one built in 1807, at Newburgh, Orange Co., New York, and still running, has given its name to the "Orange Rifle Powder," a title which will be recognized at once by all our readers who have leisure for "dog and gun." This is the powder, which, after fifteen months competitive trial between makers of our own and other countries, was adopted by the Russian Government and is now used by them. Several other European countries have also been supplied by this company.

Contrary to the general idea, the demand for powder is far greater in peace than in war. The main business of the Laflin & Rand Co. is in supplying our great engineering operations with material especially adapted to their wants. The quality of powder required in mining bituminous coal for instance, is very different from that which most economically removes the hard quartz work of our silver mines. Moreover, the product of one is wanted in as large masses as possible, the other with the utmost comminution. The working of a marble quarry for slabs or the same limestone for burning furnishes another familiar example. So too, a single railway cutting can frequently employ to advantage a different grade of powder in the side-hill, in the tunnel, and in its "approach." A noted contractor recently discharged, simultaneously, by means of this company's electrical apparatus, some 40 different blasts within supporting distance of each other, which contained three different kinds of powder, and on measuring found his profits to be over $1,500 from the one explosion. The amount of money which can be saved by adapting means to ends in this matter will astonish those who have not investigated the subject. The question of explosives is becoming a very practical one to engineers in this day of railroads. We want the most foot-pounds work for the fewest pennies. For years there have been more powerful substances than gunpowder, as the fulminates, nitro-glycerene, gun-cotton and the like, but beyond the objection of danger from their generally unstable and sensitive character is the insuperable one of cost, and powder will be apt to hold its place until, relatively speaking, we can buy more gas for the price of saltpetre or find a cheaper base than charcoal.

To meet this requirement has been the object of the Laflin & Rand Powder Co. They make it their business to inform every mining superintendent, engineer or contractor who applies to them, at once, of just what he requires for the work in hand, and then to keep him supplied at his place of operations, promptly and cheaply. How well they have succeeded can be seen by the marks of their powder "graven on the rocks" of all our great engineering triumphs from the Erie Canal to the Pacific Railroad.

Important to Railroad and Steamship Cos.

The Manhattan Oil Company, of No 16 Broadway, N. Y., give notice in another column, that they are prepared to supply Mason's Sperm, Manhattan Signal (for head lights), Extra Lard, Tallow and Mystic Coal Oils, besides Sperm, Elephant, Whale, Paraffine, and in fact every description of oil required in the Lubrication of Machinery. This is the oldest Company in the United States which manufacture the purest unadulterated oil, and consumers can rely on the statements and testimonials which they have received from the leading Railroad and Steamship Companies in this country. Circulars containing the merits of the Oils of this Company can be had on application at their office. The Directors of this Company are: James M. Motley, Edward Rowe, T. M. Niven, James Murphy, Nathan A. Baldwin, J. Carothers, Geo. W. Quintard, Wm. A. Seaver and Philip M. Millspaugh.

Queen Anne's and Kent Railroad.

We learn that this important work is progressing as favorably as could be desired under the enterprising contractors, Messrs. Robert Irwin, Sons & Co., of Baltimore, to whom the contract for completing about nineteen miles of the road was awarded last fall. The entire line is twenty-six miles in length, extending from Massey's Cross Roads to Centreville, Md. It connects at the first named place with the Townsend branch of the Delaware railroad, which in a length of nine miles, unites with the Delaware road. The residue of the work, at present being constructed by Messrs. Irwin, Sons & Co., is to be put in running order for $170,000. They have six miles of track laid, and by May next anticipate its completion, ready for operation. From Centreville an additional line of six miles is to be built, connecting it with deep navigable water on the lower portion of the Chester river, thus giving easy access to the markets of Baltimore, Philadelphia and New York.—*Annapolis Republican.*

☞ The Martinsburg (Va.) *Statesman* says that Mr. Marsh, the contractor on the Martinsburg and Potomac Railroad, has commenced work with a full force of hands at the Powell Bend section of the road. He expects shortly to place a number of hands at the Martinsburg and middle sections also, and is confident of completing the road by the 1st of October next.

☞ The Halifax *Citizen* says that the Intercolonial Railway Commissioners have signed contracts for 27,000 Sleepers for Sections Nos. One, Two, Four, Seven and Twelve. They advertise for tenders for a twenty-one span Iron Bridge superstructure, the spans to be of one hundred feet each: also for a similar bridge of sixteen spans of two hundred feet each. Tenders to be received till the 6th of April.

☞ The net profits of the European and North American Railroad Company for 1870 was $109,886 12.

☞ The Elkton (Md.) *Whig* says the Columbia and Port Deposit Railroad is now under contract from Mr. Snyder's contract to Safe Harbor, to be finished in fifteen months, work to commence thirty days from date of contract.

Commerce of New York.

We give below, from the *New York Journal of Commerce* a statement of the Commerce of New York for 1870, in comparison with that for the five preceding years. It will be seen that the total foreign imports at New York in 1870, were $315,200,022, being $8,586,832 in excess of any former calendar year on our record. The following is a comparison of the annual result for each year since 1850:

Year.	Dutiable.	Free Goods.	Specie.	Total.
1851.	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1,814,425	213,556,649
1857.	196,279,362	21,440,794	12,898,033	230,618,129
1858.	128,578,256	22,024,691	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165,516
1860.	201,401,683	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30,353,918	37,088,413	162,768,790
1862.	149,970,415	23,291,625	1,390,277	174,652,317
1863.	174,621,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2,265,622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,588	9,578,029	306,613,184
1867.	238,297,955	11,044,181	3,306,339	252,648,475
1868.	232,344,418	11,764,027	7,085,389	251,193,834
1869.	275,779,976	14,789,235	15,788,462	306,357,673
1870.	289,618,878	13,716,500	11,864,644	315,200,022

In the above table are included, under the head of dutiable, the duty-paying goods entered directly for consumption, as well as those entered for warehousing; these, with the free goods and specie, make the total entered at the port. All the figures referring to the imports represent only their foreign gold cost, freight and duty unpaid. The specie and bullion landed here, came mostly in transit to foreign ports, and most of it will be found again among the exports.

The following table will show the classification of imports at New York for the years—

	1868.	1869.	1870.
Dry goods.	$80,905,834	$94,726,417	$109,498,523
Gen. mdze.	163,202,611	195,842,794	193,886,855
Specie....	7,085,389	15,788,462	11,864,644
Total....	$251,193,834	$306,357,673	$315,200,022

This shows that out of $315,200,022 imported last year, everything known as dry goods, including all miscellaneous articles sold by the trade amounted to only $109,498,523, while $193,886,855 are given under the head of general merchandize, and include tea, coffee, sugar, metals, spirits, spices, drugs, fruits, seeds, china, glass, etc., etc. The cash duties received in 1870, amounted to $185,810,995 85. This was collected upon $282,890,846 dutiable goods thrown upon the market.

The following is a quarterly statement of the exports from New York to foreign ports, exclusive of specie, for the years named:

Quarter.	1868.	1869.	1870.
1st.....	$42,033,866	$36,566,924	$40,776,407
2d.....	41,381,668	48,705,409	47,514,407
3d.....	36,549,086	54,938,449	46,241,837
4th.....	44,101,182	55,021,124	61,413,082
Total....	$164,066,102	$195,226,706	$195,945,733

The shipments of gold are counted at their tale value; but all others, with unimportant exceptions, are given at their market value in paper money at the time of shipment.

Foreign imports entered at New York during the years 1865, 1866, 1867, 1868, 1869, and 1870:

Imports and Exports of Coal.

The following is the quantity and value of Bituminous Coal imported into, and Anthracite and Bituminous exported from the United States for the fiscal year ending June 30, 1870:

Imports:	Tons.	Value.
From Dominion of Canada	168,180	$384,287
Other British Provinces in N. America	75,499	228,819
Other countries	177,004	497,210
Total, tons and value	420 683	$1,110,316
Imports in 1869	423,816	
Decrease in 1870	3,133 tons.	

Exports:	Tons.	Value.
Anthracite coal	121,098	$803,135
Bituminous coal	106,820	603,223
Total	227.918	$1,306,358
Exports in 1869	283,787	
Decrease in 1870	55,869 tons.	

The average value of all the Bituminous coal imported is about $2 64 per ton at the shipping ports. The average value of coal imported from Nova Scotia alone is about $2 34 per ton, gold, at the shipping ports. The average value of Bituminous exported was $4 60, and Anthracite $6 60, at the shipping ports, in currency.

Debt of Ohio.

The outstanding funded debt of the State of Ohio on the 15th of November, 1870, was as follows:

FOREIGN DEBT—PAYABLE IN NEW YORK.

Loan payable after Dec. 31, 1860, not bearing interest	$1,270 00
Loan (Union) payable July 1, 1868, not bearing interest	2,500 00
Loan payable after Dec. 31, 1870, bearing 6 per cent. interest	1,284,817 26
Loan payable after Dec. 31, 1875, bearing 6 per cent. interest	1,600,000 00
Loan payable after June 30, 1881, bearing 6 per cent. interest	4,095,309 47
Loan payable after Dec. 31, 1886, bearing 6 per cent. interest	2,400,000 00
Total foreign debt	$9,383,896 73

DOMESTIC DEBT—PAYABLE AT COLUMBUS.

Stock of 1849, not bearing interest	$1,765 00	
Union loan of 1871, bearing 6 per cent. int.	366,975 00	
		368 740 00
Total funded debt		$9,752,186 73

There is still invested in the loan of 1881 the sum of $20,058 82, which, deducted from the debt outstanding as given above, leaves the real amount yet to be paid at $9,782,077 91.

☞ The National Car Company of St. Albans, Mr. J. B. Fletcher, superintendent, have now in their service about 500 changeable gauge cars, which are in constant use on roads between Boston on the Atlantic and San Francisco on the Pacific coast.

☞ The Housatonic Railroad Company have declared an extra dividend of 8 per cent. on preferred stock, payable Feb. 1.

☞ John S. Tyler has been elected President and Geo. Lewis Clerk and Treasurer of the Granite Railway Co.

☞ Work is to commence on the Peachbottom (Pa.) Railroad on the 8th of March.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal

Saturday, February 4, 1871.

Stock Exchange and Money Market.

Money has been offered with more freedom and has been quoted easier for the borrowing interests on the modified basis of 4@6 per cent. on call, and 7@8½ per cent. per annum, in the discount form. There has been a less urgent inquiry for aid from all sources, and at the close, the market was shaping toward cheaper rates. The city banks, last week, reported a lower range of averages throughout. The U. S. Sub Treasury showed, on the other hand, an increase of about 1⅛ millions in its currency balance, and of $351,044 in its specie reserve. Its receipts for the week, were $4,167,093 in coin, and $4,913,587 in currency; payments, $3,815,949 in coin and $3,801,178 in currency. Of its receipts, $1,770,965 were from customs. Included in its payments were $1,032,-124 of coin interest. The Treasury Department on Wednesday held a coin balance of $99,066,509, including $32,088,360 on account of outstanding coin-certificates; and a currency balance of $24,-827,789.

The specie reserve of the city banks according to the latest return is $27,420,445, against $40,475,714 same time last year. The city bank deposits are now $211,105,665, against $210,-105,665 week ending Jan. 30 1870. The legal tender reserve amounts to $49,491,039, against $56,782,168 same time last year. The circulation now stands at $31,848,342, against $23,712,282 same time last year. The loans are now $270,-280,870, against $260,324,271 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $85,681,992 a day, against a daily average of $94,773,069 the preceding week. The current week's exchanges average about 89½ millions a day. The city banks, last week reported a loss of $1,100,050 of specie, $584,865 of deposits, and $283,518 of legal tender notes. They reduced their loans $573,421; and their circulation, $139,972.

National Bank notes to the amount of $219,548 were issued last week by the Treasury Department. Deducting from the grand total issue to 1741 banks the currency returned, including worn out notes, amounting to $36,620,987, the existing 1,636 banks, (with an aggregate capital of $430,299,301,) retain an actual circulation of $306,554,748. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $349,367,900; and for the public deposits, $15,774,500—making a total of $365,140,-400. The Treasury Department last week redeemed and destroyed $699,200 of worn and mutilated fractional currency, and issued $388,285 of new.

The U. S. Sub-Treasury, last week, increased its coin balance $351,044, and its currency reserve $1,112,409. On Wednesday of this week, it closed with a balance of $9,725,868 in currency, and $69,391,685 in coin, against a balance a week previous of $7,120,615 currency, and $61,096,519 coin.

The U. S. Sub-Treasurer retired, last week, $1,-589,964 of coin certificates, received for customs.

The aggregate receipts of the U. S. Sub-Treasury in January were $70,100,888, including $12,-326,929 from customs; aggregate payments, $76,-344,100, including $16,666,108 of coin interest.

The U. S. Sub-Treasurer issued in January $9,298,500.

The Gold speculation has been more active, and the price has been advanced to 111⅛. It has been assumed that the closing of the Franco-Prussian War would lead to the withdrawal of considerable amount of foreign capital, now here; and a consequent increase in the outflow of specie. On this assumption, the speculative operations have been more confident. The latest quotation on Wednesday was 111⅛ against 110⅛ the preceding Wednesday. The export drain last week was only $197,089. On Wednesday of this week, the specie shipments were $894,457. The customs call, which was light last week, has been up to an average of nearly half a million a day, thus far, this week.

Under the February programme of the Treasury Department, Government will sell four millions of Gold, during the month, as follows: Thursday, February 2, $1,000,000; Thursday, February 9, $1,000,000; Thursday, February 16, $1,000,000; Thursday, February 23, $1,000,000. And buy in eight millions of Five Twenties as follows: Wed-

nesday, Febuary 1, $2,000,000; Wednesday, February 8, $2,000,000; Wednesday, February 15, $2,000,000; Wednesday, February 22, $2,000,000.

The Gold Exchange Bank-clearances were up to 46⅝ millions on Tuesday.

The export drain was $197,089 last week against $1,366,708, same week preceding year. The shipments since July 1, 1870, have been $43,104,255, against $19,338,944 same time in 1869–'70.

The customs demand for Gold last week, averaged $295,161 a day; thus far, this week, it has averaged $522,000 a day, or equal to a weekly aggregate of $3,132,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $11,142, and since Jan. 1, 1871, $170,558, against $1,521,206 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $82,052,988, against $74,472,206 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $59,856,204 against $61,218,851 same time in 1869–'70.

Foreign Exchange has been in fair demand and quoted firmer, but closed tamely. Bankers' sixty day bills on London closed on Wednesday at 109⅜@109½; sight bills on London, 110¼@110⅜.

Government securities have been more freely purchased, largely for investment purposes, at advanced and buoyant prices. The offerings of bonds have been comparatively limited in the open market. The announcement of the enlarged amount to be bought in by the Treasury Department, under the February programme, favorably influenced values.

On Wednesday, Government bought in two millions of Five-Twenties at 108 86@108 77, ex-interest. The amount of bonds offered was $5,280,800.

U. S. sixes of 1881 closed here on Wednesday of the current week at 113½@113⅝; U. S. Five-Twenties of 1862, 110⅝@110¾; U. S. Five-Twenties of 1864 at 108⅛@110¼; U. S. Five-Twenties of 1865, 110⅛@110¼; U. S. Five-twenties of 1865 consolidated, 109@109⅛; U. S. Five Twenties of 1867, 109⅛@109¼; U. S. Five-twenties of 1868, 109⅛@109¾; U. S. Ten-forties at 109½@109¾; U. S. Six per cent. currency bonds, 111⅜@111½.

State bonds have been in moderate demand, at fairly supported prices.

Railway bonds have been in better demand at generally stronger prices. Central Pacific Sixes have been selling more freely, closing at 91⅜@91½. Chesapeake and Ohio Sixes have been in moderate demand at 90 and interest. Union Pacific Sixes have been quoted up to 79@79¼.

Railway and miscellaneous share property has been moderately active, at variable prices, closing with rather more steadines. Union Pacific stock has been quoted at 19@19⅛. Western Union Telegraph closed at 46¾@47.

Government business has been less active, and values of produce closed weak, in most instances. Foreign goods have been quoted firm. Middling upland cotton closed on Wednesday at 15⅝ cts. per lb. The receipts at all the ports, since Sept. 1, 1870, have been 2,130,971 bales, against 1,697,384 bales same time in 1869–'70; exports same time 1,332,929 bales, against 928,787 bales same time in 1869–'70; stock on hand at latest dates, 565,550 bales, against 469,906 bales same date 1869.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 16.	Jan. 24.	Feb. 1.
Consols	92¼@92¼	92⅛	92
U. S. 5-20's of 1862	90¼@90¼	90⅛	90¾
U. S. 5-20s, 1865	89¼@89¼	89¾	90⅛
" 1867	88⅝	88⅞	89¼
" 10-40s	88@88¼	88¾	89¼
Erie	—	18⅞	18½
Ill. Central	—	110	110
At. and Gt. West	—	27½	29

At the Live Stock markets, this week, Beeves have been moderately inquired for at from 9½@15½c. per lb.; week's receipts, 5,490. Milch cows quiet at $40@$110 each, receipts, 34. Veal calves in demand at from 5@12½c. per lb.; receipts, 873. Sheep continue in moderate request at from 5@8½c. per lb.; receipts, 20,669. Swine in good demand at 8½@9c. per lb., all live weight; receipts, 10,898.

Ocean freights have been firmer, and somewhat brisker. For Liverpool we quote flour at 2s. 6d. by sail, and 3s.@3s. 3d. by steamer per bbl.; grain at 6⅛d. by sail, and 7d.@7¼d. by steamer per bushel; cotton at $\frac{5}{32}$@$\frac{11}{32}$d. by sail and $\frac{5}{16}$@$\frac{7}{16}$d. by steamer per lb.; and heavy goods 17s. 6d.@30s. by sail, and 25s.@45s. by steamer, per ton.

The following will show the exports (exclusive of specie) from New York to foreign ports or the week ending January 31st, and since the beginning of the year:

	1870.	1871.
For the week	$3,822,470	$2 636,581
Previously reported	10,852,856	18,704,182
Since Jan. 1	$14,675,826	$21,340,763

The imports for the week ending Jan. 28, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,917,159	$3,109,101
Gen. merchandise	3,129,245	6,596,603
Total for the week	$5,046,404	$9,705,704
Previously reported	8,910,413	11,231,326
Since January 1	$13,956,817	$20,937,030

St. Croix and Penobscot Railroad.

At the annual meeting of this company held at Calais, Me., on the 16th ult., George M. Porter, E. A. Barnard, H. N. Hill, John McAdam and W. W. Sawyer, were elected directors for the current year, and Samuel Black Treasurer. The capital stock of the company paid in is $100,000. Debt, $246,700. Available resources, after providing for dividend and interest on the funded debt, $20,035. Earnings for 1870, $83,429. Net earnings, $35,531. A dividend of four per cent. on the capital stock has been made.

☞ The Camden and Amboy is said to be the first railroad to undertake the transportation of goods in bond according to the new regulations of the Secretary of the Treasury. It will commence the business at once, being already equipped with the little cars for transporting goods that arrive in small invoices.

☞ RAILROAD BONDS.—Whether you wish to buy or sell, write to CHARLES W. HASSLER, 24 Broad Street, New York.

☞ We are requested to call attention to the Circular of MR. RUFUS HATCH, advertised in another column.

Railroads in Peru.

Late advices from Peru show that the Republic is in a state of great excitement on the subject of railways. The President, with a large number of the principal citizens of Lima, lately went to Arequipa to witness the inauguration of the railroad lately built, connecting that city with the coast. Festivals of the most elaborate kind were in preparation, the municipal government and Mr. Meiggs, the great railway contractor, were vieing with each other in doing honor to the magnates of the Peruvian capital.

Other railroads are announced as in contemplation; and, in the case of that intended to connect the port of Pascamayo with Cajamarca, the contract reads that "the line is to be concluded in two years, to be reckoned ninety days after treaty of peace between France and Prussia shall have been signed." This is curious, as showing the wide extended influence of the war in Europe, of which we are at last beginning to see the end.

Worcester and Nashua Railroad.

At the annual meeting of the stockholders of this company at Worcester, Mass., on the 26th ult., the following gentlemen were unanimously elected directors for the ensuing year: Francis H. Kinnicut of Worcester, Stephen Salisbury of Worcester, Jacob Fisher of Lancaster, Thomas Chase of Nashua, Asa F. Lawrence of Groton, Francis H. Dewey of Worcester, Alexander H. Bullock of Worcester, Calvin B. Hill of Nashua, J. Edwin Smith of Barre. It was unanimously voted to accept of an act of the Legislature approved March 17, 1870, authorizing the construction of an additional track over the road, and also to subscribe for $200,000 in the capital stock of the Nashua and Rochester Railroad Company.

☞ Mr. L. W. Robbins, Chief Engineer of the Chicago, Danville and Vincennes Railroad, is now at work in Vermillion County, Ill., running the line from Rossville to Danville. The Terre Haute and Danville Road, which will connect with the first-named road some where below Danville, at the Indiana line, is completed from Terre Haute to Newport, about 26 miles from Danville, and 12 miles more is ready for the iron, to Perrysville, Indiana.

☞ The shipments of iron ore over the Marquette and Ontonagon railroad in 1870 were 435,249 tons; and of pig iron, 27,399 tons—total, 462,648 tons. The shipments of iron ore over the Peninsula Division of the C. and N. W. R. R. were 411,952 tons; and of pig iron, 8,515 tons—total, 420,467 tons.

☞ Much energy is displayed in pushing forward the work on the Frederick and Pennsylvania Line railroad; and it is confidently anticipated by its friends that the road will be fully completed, equipped and in running order some time during next summer, probably by the fourth of July.

☞ The stockholders of the Little Miami Railroad Company have re-elected the old board of directors with the exception of Henry E. Spencer, who was chosen instead of John Bacon, deceased.

☞ The Central (copper) Mining Company will pay $2.50 per share, February 7.

☞ The gauge of the Ohio and Mississippi Railroad is to be changed to four feet nine inches.

HARVEY FISK. A. S. HATCH.

☞ FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU ST.,
NEW YORK, Feb. 3, 1871.

United States Five-twenty Bonds, if allowed to run until 1875, will pay but FOUR PER CENT. Gold on the investmant at present market rates, while they are likely to be funded at a lower rate of interest before that time.

THE FIRST MORTGAGE BONDS OF THE CENTRAL PACIFIC RAILROAD COMPANY, at present market price, will pay nearly SEVEN PER CENT. in gold on the investment, and cannot be called in or the interest reduced under twenty-five years.

A difference of from FIFTEEN to TWENTY PER CENT. may be realized in exchanging Government Bonds for Central Pacifics, or saved in making new investments.

The safety and value of the First Mortgage Bonds of the Central Pacific Railroad Company are thoroughly established and universally recognized.

The value of the property, the immense and increasing revenues of the Company, and its able and honorable management, assure the security of the principal and prompt and regular payment of interest beyond question.

We have introduced them into our regular business upon the same basis as Government Bonds, and buy and sell them as freely at current market rates, and are prepared to furnish them to investors or others at daily quotations.

We buy and sell Government Bonds, Gold, and Coupons, execute orders in miscellaneous securities at the New York Stock Exchange, make collections, receive deposits subject to check at sight, allow interest on balances, and do a general banking business.

FISK & HATCH.

Journal of Railroad Law.

RAILROAD COMPANIES—RULE OF DAMAGES—PUBLIC CROSSINGS—CATTLE INCLOSURES.

The facts in the late case of McPheeters *vs.* The Hannibal and St. Joseph Railroad Company (45 Mo., 22,) are fully and clearly stated in the following opinion by

WAGNER, J.—The first question which will be considered is the motion in arrest, made by the appellant, which brings up the sufficiency of the petition. This action was for negligently killing a cow by the locomotive and train on appellant's road, at a public crossing within the corporate limits of the City of Palmyra. The averment in the petition is that the "defendant, by its servants and agents, carelessly and negligently caused one of defendant's locomotives, with a train of cars attached thereto, to strike a milch cow, the property of plaintiff," etc. The allegation is that the act was done carelessly and negligently, and that is sufficient. Negligence, is a question of fact, and, under a general averment of negligence in running a train and causing an injury to be done, it is competent to introduce any testimony having a tendency to support the charge.

It has been expressly decided in this Court, that a petition against a railroad company, which states that the defendant, while running its locomotive, etc., negligently struck the cattle of the plaintiff, etc., shows a good cause of action at common Law (Garner *vs.* Hann. and St. Jo. R. R. Co., 34 Mo., 235). The petition was, I think, sufficient, and the Court therefore committed no error in overruling the motion.

As the injury occurred at a public crossing, in the streets of a town, and not where it was incumbent on the company to erect a fence, there could be no recovery without proof of actual negligence. (Meyer *vs.* N. M. R. R. Co., 35 Mo., 352.) But the question of negligence is peculiarly and exclusively for the jury to determine, and it is hardly necessary to again repeat what has so often been held by this Court, that if there is any evidence to sustain the verdict we will not interfere. It is true the employees of the railroad swore that there was no negligence, but what weight or credibility should be attached to their testimony was for the jury, who heard them detail their evidence and could form a much more accurate opinion than we could pretend to. It is admitted on all sides that the train was running at full speed at the rate of ten or twelve miles an hour, the usual speed of freight trains, and it is questionable whether such a rate at a public crossing in a town, where people are continually traveling and stock crossing, ought not of itself to be held negligence. At any rate, this, in connection with other circumstances, was proper for the consideration of the jury, and from which they might reasonably infer negligence.

So far as the evidence is concerned, there is nothing calling for the revisory action of this Court, and the only question is whether there was any error in the instructions. The plaintiff asked, and the Court gave, but two instructions at his request. The first declared that the defendant, its servants and agents in the control of its train were bound to use reasonable care and diligence in the management of its train to avoid doing injury to stock in crossing of public streets and highways. The second directed the jury that if they believed, from all the facts and circumstances proved in evidence, that the defendant, its servants and agents, could, by the use of reasonable care and diligence, have avoided injuring the plaintiff's cow, they ought to find a verdict for the plaintiff.

The Court, on motion of the defendant, gave the following instruction: "The defendant is not liable for damages for the injury or killing of horses, cattle or other animals, by one of its locomotives, engines or cars attached to it on the crossing of the public street in a city or town, unless the employees or agents conducting and managing such locomotive engine or cars attached to it were guilty of negligence."

I see nothing objectionable in the instruction of the plaintiff, but when coupled with the one given for the defendant, the whole law applicable to the case was fully and fairly submitted, and there was no ground left for complaint. Defendant further asked the Court to instruct the jury that if the plaintiff voluntarily suffered his cow to go at large in the public streets, with no one to take charge of her, and to stray upon the track at a time when cars were passing, then he was guilty of carelessnes, and could not recover for injuries done to the cow, unless such iniuries were occasioned through the gross negligence of the agents and employees conducting and managing the locomotive and train. This instruction the Court very properly refused. It is the law in England, and in some of the densely populated States in this Union, that the owners of cattle shall keep them inclosed, and if they stray therefrom they are trespassers, and the owners are guilty of negligence. But such is not, and never was, the common law in Missouri.

It is opposed to the policy of the State in its present condition, and whenever it has been attempted to be enforced, it has met with resistance and condemnation. The question was elaborately considered in Gorman *vs.* Pacific Railroad, 26 Mo., 441, and it was there held that the owner of cattle is under no obligation to keep them on his own premises.

The counsel for the appellant seems to lay great stress on the assumption that gross negligence should be proved before the defendant could be held liable. The word "gross" has been frequently used by judges in discussing this question, but I deem it wholly unnecessary. In England, it is now the course of adjudication and definitely decided, that there is no difference between negligence and gross negligence, the latter being nothing more than the former, with the addition of a vituperative epithet. (Gill *vs.* Iron Screw Collier Co., 12 Jur. N. S., 727.) The question is actual negligence, and if they they found that it is sufficient. Further complaint is made that the Court refused the fifth and last instruction asked for by the appellant, because it was offered out of time. The Court has a standing rule that all instructions shall be submitted and passed upon before the argument of counsel commences. The other instructions were all passed upon and the respondent's counsel was addressing the jury, when the appellant desired the last instruction to be given. There was nothing wrong in the action of the Court; the rule was proper enough, and that it was adhered to and enforced is not a matter for our intervention. But were it otherwise, it would make no difference in the final disposition of this cause, as the instruction, was wholly useless, the substance having been previously given. There is no error in this record, and I advise the affirmance of the judgment.

Judgment affirmed: The other Judges concur.

☞ RUFUS HATCH'S CIRCULAR NO. 3.

FRAUDS IN RAILROAD MANAGEMENT.

CHICAGO AND NORTHWESTERN RAILROAD.

The waterings in this great concern have been equally excessive, though of a different character, from those described in the previous circulars. A direct one, however, of $6,030,500 was made at the time of its consolidation with the Galena and Chicago, the holders of stock in the latter being allowed two shares for one previously held, "to equalize values"—a phrase greatly in vogue with the self-constituted tax-gathers who now control and levy their contributions upon all our great avenues of trade. The natural and equitable mode would have been to equalize *down* instead of *up*, as the shares of the Northwestern at the time were comparatively worthless, while those of the Galena and Chicago commanded only *par*. But a *square* consolidation would have left no plunder—the sole inducement thereto—in the hands of the parties manipulating it.

The great waterings in this road have been effected through the leases of other lines. The most important of these was that of the road from the Mississippi to the Missouri River, through Iowa, a distance 353 miles, and owned by two corporations—the Chicago, Iowa and Nebraska owning the link of eighty-one miles from the Mississippi River to Cedar Rapids, and the Cedar Rapids and Missouri River Company owning that from Cedar Rapids to the Missouri, a distance of 272 miles. This line had a land grant of 1,422,109 acres. A party of shrewd operators got hold of this line, and set themselves at work to get this magnificent domain into their own hands, and, *at the same time, to get rid of the road that had to be built to secure it.* This interesting problem was solved in the following manner: The managers of the Chicago and Northwestern agreed to take a lease of the two roads, *without* the land, paying 47½ per cent. of the gross earnings (afterward reduced to 37½ per cent.) of the Chicago, Iowa and Nebraska Road, and $1,750 per mile upon the Cedar Rapids and Missouri River Road, up to the 1st of January, 1871, and thereafter at the following rate: To pay $700 per mile of the $1,500 per mile first earned, 33⅓ per cent. of the $3,000 next earned, and 20 per cent. upon all earnings in excess of $4,500 per mile. The rental of the first named road the past year was $557,450, the proportion of gross earnings paid being 42½ per cent., the reduction from 47½ to 37½ per cent. taking effect for six months of the fiscal year only. At the same rate of gross earnings, the rental (37½ per cent.) the present year will be $492,270, the gross earnings of the past year being $1,312,710. The gross earnings of the Cedar Rapids and Missouri River Road for the past year were $2,106,476. The total for both lines was $3,419,186. The earnings per mile of the Cedar Rapids and Missouri River Road the past year were $7,744. At this rate, the rental for the present year will be $2,318 per mile, or a gross sum of $638,656. The total rental of the two lines, consequently, will be $1,130,926. The capital of this rental, at 7 per cent., is $16,157,375. This transaction is known as the Blair & Ames *grab*.

Now, the cost of this line to the parties holding the same could not have exceeded $20,000 per mile, or a gross sum of $7,060,000. The rails were laid, and bridges built—this is about all. There were no equipments, and no accommodations for business, except those supplied by the lessees. The rails laid on the greater portion of

it were only 45 pounds to the yard, and had to be replaced soon after the lessees had come into possession of it. The profit paid to the parties constructing it, consequently, was $9,097,375. The cost of this road to the lessees—that is, the capitalized rental—is $45,771 per mile. It would require an expenditure of $20,000 per mile, in addition, upon it, in construction and equipment, since they came into possession of it, to bring the road to its present condition. This sum brings up the cost to $65,771 per mile, or up to a total of $23,115,163. The interest on this sum, at 7 per cent., is $1,618,061.

The capital account for the leased roads, as stated by the respective companies, amount to $20,346,500—that of the Chicago, Iowa and Nebraska being $4,726,300—made up of $3,916,300 of Stock and $810,000 of bonds; that of the Cedar Rapids and Missouri River being $15,620,000, and made up of $8,000,000 of stock and $7,620,000 of bonds.

The land grant to the Iowa lines was 1,422,109 acres. Of this quantity, certificates for 1,200,000 acres had been issued more than a year ago. These lands, at the low valuation of $7 per acre, are worth $8,400,000. The value of these lands, added to the unquestioned profit from the construction of the road, make a total of $17,097,275. This sum measures the profit that one party made out of this affair in the course of a very few years.

Another example, of the same kind, was that of the Winona and St. Peter's Railroad, of Minnesota. A party got hold of this line, built the road, took the land and then turned over the road, *without the lands*, to the Chicago and Northwestern, at about $35,000 per mile, or nearly twice its cost. The road had no connection whatever with the Chicago and Northwestern. It did not, in fact, come within 100 miles of any portion of the road of the latter company. A lease might just as well have been taken of a road upon the Pacific Coast. The Winona and St. Peter's line ran through an unsettled country and could not for years be expected to pay a remunerative return on its cost. In addition to the rental paid, the Northwestern had to complete and equip it, carrying the cost of the line to this company up, probably $40,000 per mile. The land grant to the Winona and St. Peter's Company was 1,410,000 acres. Of this vast grant 342,376 acres had been confirmed to it on the first day of July, 1869. The value of the lands acquired equals $2,396,632. Assuming the profits of construction to have been $15,000 per mile for 126 miles, the aggregate was $1,890,000. The total profit, both from lands and construction, was $4,286,632. This affair is known as the Barney *grab*.

Another example in kind was that of the Peninsular Railroad of Michigan—a land-grant road, entitled to 346,880 acres, of which 218 880 acres had been certified to the company on the first day of July, 1869. The road was built and consolidated with the Northwestern, *without the lands*, at a rate of about $40,000 per mile. The length of this road is seventy three miles. Its cost to its projectors was about $20,000 per mile. The profit on construction was about $1,460,000. The value of its land grant, at $7 per acre, was $1,532,169. The profits of the transaction, consequently were $2,992,160. The Peninsular Road had no connection whatever with the Northwestern, nor did it come within fifty miles of any portion of the line of the latter. This is known as the Ogden & Tilden *grab*.

The total amount of lands already ceded to the three companies whose roads are leased to the Northwestern, amounted on the first day of July, 1869, to 1,763,256 acres. Their value, at $7 per acre, is $12,328,792. Large additions are to be made to the present cessions. The profits arising from the construction of the roads could not have been less than $12,447,375. The profits, so far, to outsiders, on the three lines, have been $24,776,163. The *inside* profits have been $8,840,650 to wit: The waterings in favor of the Galena and Chicago of $6,030,500 at the time of the consolidation, and $2,810,110 of scrip dividends paid in 1868. The total profits have been $33,616,777, as shown in the following tabular statement:

Roads.	Waterings.	Profits of construction.	Profits on Land Grants.
Chicago and N'thwestern	$8,840,510	....	....
Chicago, Iowa & Nebraska / Cedar Rapids & Missouri.	.....	$9 097,375	$8,400,000
Winona and St. Peter's	.....	1,890,000	2,396,632
Peninsular	... ..	1,460,000	1,532,160
	$8,840,510	$12,447,375	$12,328,792

What was the motive that induced the Chicago and Northwestern Company to make contracts so destructive to its own interests, and without gaining any advantage from the land grants to leased lines? The leases were the product of gross corruption or folly; it hardly matters now which. Suffice it to say, it was a gross perversion of a most sacred trust, for which perversion the public are paying bitterly. They, paying on the roads at double cost, have derived no advantage whatever from the grants so munificently made. These grants should in all cases have been made the basis of the securities issued by each company. The proceeds of their sales should have retired these securities, reducing in an equal degree the cost of the roads, with a corresponding reduction in the charges for transportation. By the time the lands were sold, the reduction in the amount of the securities issued would have equalled such proceeds, or the sum of $12,242,792. The annual interest on this sum is $856,995. This sum would have been the annual gain to the commerce of the country had these lands been applied, as they should have been to the construction of the roads.

Another course might have been taken—that adopted in the case of the Illinois Central. That Company was required to pay 7 per cent. of its gross earnings, annually into the State Treasury as the price of the transfer of the land grant to the Company. This percentage yields the State some $600,000 annually. A great evil necessarily results from severing land grants from the railroad to which they are made. If retained by the owners of the road, the latter have every motive to encourage their occupation, as the means of creating a traffic. They would offer the lands at low rates, and on long credits, and give every facility and indulgence possible to the settlers.

These lands are now wholly held—Irish fashion—by absentees, or speculators, greatly to the injury of the railroads and to the interests of the people who demand cheap lands and speedy settlement. But, from the extravagant prices asked, these land grants are still vast wastes, and are likely for years to remain so. They cost their owners nothing: on the other hand, their owners made vast sums by the construction of the roads by which the lands were acquired. They, consequently, can hold them till they realize the extravagant price demanded for them. When sold, they are to be paid for by the labor of the pioneer, and not by the capital of the rich.

The total amount of the capital and debts of the two companies, on the 1st day of June, 1864, when the consolidation went into effect, was $30,514,000. The length of line then in operation was 609 miles. Its cost per mile was $50,098. The capital account of the company on the 1st day of June, 1870, the date of the last annual report, was $51,108,591. The capitalized rental of the leased roads was $16,157,375. The total capital account of the company, consequently, was $67,265,966. The present length of line owned and leased by the company is 1,156 miles. The cost per mile is $58,200. The increase of the capital account in six years has been $36,751,966, or at the rate of $6,125,327 annually. The increase of mileage has been 507 miles. The cost per mile has increased from $50,098 to $58,200.

The above statement does not include the Winona and St. Peter's road, whose 7 per cent. bonds are guaranteed by the Chicago and Northwestern, nor the several lines which the company are now building, such as the Trempeleau, whose bonds pay ten per cent. interest, the Iowa Midland, whose 8 per cent. bonds have recently been *privately* negotiated: and the line from Madison to La Crosse.

[The directors in the Chicago and Northwestern Railroad, as in the Erie, are elected for one, two and three years. It is due to some of the present board to state that they were not parties to these original land grant swindles.]

The examples that have been cited in this and the previous circulars show how universal have been the corruption in the management of our railroads. These all result in an excessive cost of the works, and fall, in the end, wholly upon the people. Upon such costs dividends and interest are sought to be paid by excessive rates of charges. The people, consequently, suffer just in ratio as those preying upon them grow rich.

Since writing the above circular I have been favored with a communication signed by Samuel Barton, and addressed to "holders of the capital stock and *consolidation* certificates of the New York Central and Hudson River Railroad." Mr. Barton is a near relative of Commodore Vanderbilt, and unquestionably speaks by authority. By him I am charged with wilful falsification, from pecuniary motives. I disclaim, utterly, having any interest whatever, directly or indirectly, in New York Central Stock or Scrip, nor have I had for a long time. Mr. Barton's role is that of the lawyer who said "he had no evidence to offer in defence, but should proceed to abuse the plaintiff to the best of his ability." I stated tha of all the waterings not a dollar went into the road. This is denied. Commodore Vanderbilt might as well have denied the issue of the certificates themselves. The public have a right to ask you how much money you paid for the millions of certificates issued to yourself. If you paid nothing, did the recipients of your bounty, and who were in your secret, pay anything? If nothing was paid, then these certificates were a *Stock Dividend*, and, such being the case, have you paid the five per cent. Government tax on them? Is anything received on these certificates by way of dividends? If so, how much, and who pays? By what authority did you and your Board, summoned by your warrant to a midnight session, place a perpetual mortgage of $44,428,330 upon the commerce of the country, without the equivalent to the public of a dollar? All this, Commodore, was done at your behest.

In your defence, you cite your management of the Harlem, *another most oppressive monopoly*. I did not refer to it, reserving it for another circular. But as you have brought it in, will you answer a few questions here? Did you not, while a trustee, issue to yourself a large amount of its bonds at fifty per cent. on the dollar? Have you not, since assuming control of this property, advanced the tariff on *milk* from a half to 1½ cents per quart—a 300 per cent. additional freight tariff on one item alone? Is this the way you have stamped your *individuality*, *economy* and *genius* upon the Harlem Road?

Mr. Vanderbilt has had charge of the New York Central Road for three years. According to Mr. Barton, and the sworn statement of the officers of the road in 1867, he has, in that time, added only three locomotives to the number in use prior to 1867. In a future circular I propose to show the exact value of the improvements he has made on this line since obtaining control of it, and the amount of additional stock he has issued and received the money for.

Mr. Barton insists upon Mr. Vanderbilt's *wonderful abilities* as a railroad man. No one denies this. But with his *untold millions before he had any thing to do with the New York Central*, would it not have been more graceful and meritorious in him to have turned his transcendant abilities to the *reduction* of the cost of transportation, and to alleviate the burdens that now press so heavily upon the commerce of the country, and upon

labor? That the *stockholders* have no cause to complain of Mr. Vanderbilt's management is too evident to have needed the proof Mr. Barton deduces, but it is the *people*, and not their servants, who should reap the benefits resulting from such good management. *They* create the trade of these great highways, and as that trade increases it is not a *corresponding increase of script capital, but a corresponding reduction in freight charges*, that they whom the roads are built and run to serve, have a right to expect.

***

List of U. S. Patents.

Issued for Improvements in Railroad Construction, Rolling Stock, &c., for the week ending Jan. 24, 1871, and each bearing that date. Reported for the AMERICAN RAILROAD JOURNAL, from the Office of DAVID A. BURR, Solicitor of Patents and Attorney in Patent cases, Washington City, D. C.

No.

111,104.—Baggage Truck, William H. Brown, Bangor, Me.

111,110.—Steam Lubricator, Daniel Currie, Belleville, Ills.

111,123.—Railway Car Coupling, Lewis Huddle and Jacob K. Huddle, Tiffin, Ohio.

111,127.—Car Spring, James Leland, Springfield, Mass.

111,135.—Chair Clamp for Railway Rails, William Morehouse, Buffalo, N. Y.

111,170.—Car Coupling, Joseph Boothroyd, Michigan City, Ind.

111,172.—Railway Car Truck, Louis D. Boyce and George H. Jones, Rochester, N. Y.

111,184.—Removable Car Seat Backs, Peter F. Duchemin, Somerville, Mass.

111,198.—Compound for removal of scale from Steam Boilers, William T. Grant, Neelyville, Ills.

111,211.—Railway Car Wheel, Lewis B. Hunt, New York, N. Y.

111,224.—Car Coupling, John Mayhen, Milroy, Pa.

111,261.—Railway Switch and Signal Apparatus, Adolph Schnabel & Theodore Henning, Bruchsal, Grand Duchy of Baden.

111,286.—Lubricator for Railway Car-Axle Boxes, Isaac P. Wendell, Philadelphia, Pa., assignor of ½ his right to Stephen P. M. Tasker, same place.

111,294.—Car Starter, Finley J. Wright & Livingston W. Wandell, New York, N. Y.

RE-ISSUES.

4,238.—Railway Car Truck, William Petit, Philadelphia, Pa., Patent No. 38,980, dated June 23, 1863.

4,241.—Railroad Car Seat and Couch, Theodore T. Woodruff, Philadelphia, Pa., No. 16,159 dated Dec. 2, 1866, extended 7 years.

☞ The Tomah (Wis.) *Journal* says that the surveying party of the Baraboo Air Line Railroad, have been out with a view to the finding of the most feasible route to pass the ridge. It is confidently expected that the road will be rapidly pushed to Tomah, and completed as soon as the West Wisconsin is completed to St. Paul.

☞ The last rail on the Burlington, Cedar Rapids and Minnesota railroad was laid at Cedar Rapids by the President, Hon. Geo. Greene, on the 26th ult. This completes the connection between Burlington and Cedar Falls, a distance of 170 miles.

HUMBER'S TREATISE ON BRIDGE CONSTRUCTION.

D. VAN NOSTRAND.

NO. 23 MURRAY AND NO. 27 WARREN-ST.,

OFFERS TO THE TRADE AND PUBLIC UPON THE MOST LIBERAL TERMS, at the reduced price annexed:

HUMBER'S COMPLETE TREATISE ON CAST AND WROUGHT IRON BRIDGE CONSTRUCTION, INCLUDING IRON FOUNDATIONS. THIRD EDITION, CAREFULLY REVISED AND CONSIDERABLY ENLARGED, with 115 double plates, (20 of which are new,) and important additions to the Text. Two vols., large 4to, finely bound in half morocco. $60 00

*** D. VAN NOSTRAND also offers in quantities the following valuable works upon the most liberal terms:

SCOFFERN'S USEFUL METALS AND THEIR ALLOYS. Half morocco $3 75

INTERCOLONIAL RAILWAY OF CANADA.

Tenders for Iron Bridge Superstructures.

The Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of Two Hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear; information as to the location of the different bridges; and forms of tender, can be obtained at the offices of the Commissioners or at those of the Chief Engineer, at Ottawa, Canada; or at the Banking House of Messrs. Morton, Rose & Co., Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the Bridges, and must state the price of each span f. o. b., at the place of shipment; and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders marked "Tenders for Bridges" and addressed to the Commissioners, at Ottawa, will be received up to 6 O'CLOCK P. M., of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

Improvement in the North West.

As we expected, the Northern Pacific Railroad Company are pushing forward the work of constructing their line with all rapidity, and there is no doubt that the opening of the year 1878 will note its completion. Thousands of workmen are now employed in grading the eastern division running across the State of Minnesota from Duluth to the head of Lake Superior—240 miles—to the crossing of the Red River of the North; the iron is being laid at the rate of two miles a day, and the engineers are busily engaged locating the line westward through Dacotah. The work on the Pacific end will be commenced in the Spring, and then we suppose will begin the race between the workmen of the East and the West as to who will finish their share the quickest. The company has already consolidated all the lines which connect it in the Northern territory, and will therefore be prepared to open immediately with an extensive trade. When this enterprise was first started, and the name of JAY COOKE was given as the originator and financier, immediate confidence was reposed in its ultimate success. Notwithstanding, that public opinion at that time was entirely adverse to the settlement of our Northern frontier, and it was the general disposition to open up the settlements in the Southwestern section of the country. But when Mr. JAY COOKE and his party started from Lake Superior to Puget Sound, it was announced that the committee who accompanied them were satisfied with the enterprise. The public immediately commenced giving attention to the North Western Section of our country, and the study has been an exceedingly valuable one.

We find an immense tract of land sufficient to make twenty States, and a good grazing and food-growing country, capable of sustaining a dense population and which, at no distant day in the future, will be inhabited by American citizens and immigrants. Already it is stated that settlers are rapidly crowding to that section of the country, and there is no doubt that when the intentions of the corporation are generally known, that permanent colonization and immigration will rapidly follow.

We call the attention of those who are seeking permanent investments to the guarantees which are offered by these securities. The bonds are a first mortgage issue on a railroad over 2,000 miles in extent, as well as on a land grant of more than 65 million acres of lands. The endowment extends over a fertile belt of land from Lake Superior and Wisconsin, through the richest portions of Minnesota, Dacotah, Montana, Idaho, Oregon, Washington Territory, to Puget Sound and the Pacific Ocean. The bonds are free from United States taxes, and are issued in denominations of $100 and $1,000. Besides their money value, they represent lands which can be purchased at the lowest marketable rate. The produce of these lands alone would build the road and leave a large surplus, and the bonds are at all times receivable at 1.10 in payment for them. Letters from Germany indicate that upon the opening of the Spring will commence an immense emigration to this country, exceeding that of any previous year, as particular pains have been taken to spread full information throughout Europe regarding this enterprise. We very confidently expect that instead of investing their funds in United States bonds, these sturdy Germans will see the advantages of an investment equally as secure or much more valuable.

This is an immigration which we can gladly invite to our country; it is the same that has built up our Western States, and if the influx continue 20 years longer, St. Louis may be well able to claim to be the capital as well as the heart of the nation.

Those who have opposed the offering of this land grant by the Government will, we have no doubt, see the error they have made when the vast wilderness is turned into a Paradise, and those who have objected to the route of the Northern Pacific Railroad because of the formidable obstructions by snow will find that their predictions have been wrong, and that really in ordinary winters it will be much less incumbered with snow where it crosses the mountains than on the passes at more southern points, which are much more elevated above the sea. The average elevation of the Northern Pacific road is 3,000 feet less than that of the Central or Union Pacific railroads. In the passage of the belt range between the Yellow Stone and the Upper Missouri, and the cross of the Rocky Mountains and in the portage between Collitz river and Puget Sound no greater obstacles in the way of snow are to be met with than those already encountered and overcome on the roads of the New England States and the State of New York. The road will lessen the distance between the Pacific and the Lakes by 600 miles, and the facilities it will offer for rapid communication and the distribution of troops and ammunition and stores among the numerous forts on the waters of the Mississippi and the Yellow Stone and Clark's rivers. The Columbia river and Puget Sound will render it a valuable area of national defense, and will save millions annually to the public treasury. The opening of the road will forever settle the question of the supremacy of the white race over the Indians over an area of territory covering 400 square miles, sufficient to make ten States of the size of Pennsylvania.

☞ The Fort Wayne, Muncie and Cincinnati Railroad has been purchased by the Fort Wayne, Jackson and Saginaw Railroad Company. This gives the Michigan Central Railroad Company, who control the Saginaw road, a direct line from Jackson, Michigan, to Cincinnati, via Fort Wayne.

Cumberland Coal Trade.

The following statistics of the production of coal in the Cumberland (Md.) region during 1870 are complied from official sources by Mr. C. SLACK, of Mt. Savage, Md.:

The Quincy Bridge.

EDITOR AMERICAN RAILROAD JOURNAL:

Dear Sir:—From the tone of MR. LOWTHORP'S replies to my criticism on his use of cast iron, it would seem that he feels annoyed at something I have said, and can give no better reply than to accuse me of a scandalous breach of faith in copying his plans, etc., and making use of the knowledge thus gained in designing the Quincy bridge.

Although I do not see what this has to do with cast iron, and I hope Mr. L. does not put it forward as a specimen of that "critical examination of Public Works" that he recommends as "one of the great advantages to be derived from an Association of Civil Engineers"—yet I shall briefly reply—

1st. That I did not design the Iron work of the Quincy Bridge in the shape it now is. If I had done so, I should never have made the upper chords of Cast Iron.

2d. That the designs and prices of the parties who tendered, were shown by me to no one except the Executive Committee.

3d. That the plan submitted by Mr. Lowthorp was rejected for its want of constructive merit.

4th. That nothing could have been stolen from Mr. L.'s design but the general plan or the details of construction. Surely Mr. Lowthorp does not pretend that he is the inventor of Whipple's "double cancellated truss" of which the Quincy bridge, Mr. Linville's bridges, Clarke, Reeves & Co.'s bridges, and Mr. Lowthrop's iron bridges, are but copies. Perhaps it was the details of construction—will Mr. L. please to point them out?

Whatever harsh criticisms may have been pronounced upon the Quincy bridge, nothing has ever been said before half so severe as that any part of it was borrowed from the style of construction peculiar to Mr. Lowthrop.

I am very respectfully, your obd't serv't,

T. C. CLARKE.

Hartford and New Haven Railroad.

The income of this company for the fifteen months ending November 30, 1870, is as follows:

From passengers		$1,249,690 07
" freight		1,060,895 95
" expresses		62,650 09
" rents and wharfage		11,356 83
" mail service		27,557 48
		$2,412,149 92
Expenses, viz:		
Repairs of road and bridges	$326,091 05

Transportation and general expense account	510,908 08	
Station repairs and improvements	80,463 10	
Lost and damag'd goods, gratuities, etc	14,090 00	
		1,320,634 31
Net earnings		$1,091,515 61
From which deduct—		
Interest	$36,886 07	
Taxes, State & National	247,612 06	
		248,498 13
Leaving a balance of		$807,017 48

The number of miles run by passenger trains during the fifteen months is 437,826; by freight trains, 309,617; by other trains, 128,201—total, 875,644, which is an average increase of 7,244 miles per month over the number for the twelve months next preceding. The total number of passengers carried during the fifteen months is 1,375,012, which is an average increase of something more than 5,000 passengers per month over the number carried in the year preceding. The total number of tons of freight carried in the fifteen months is 688,518, which is an average increase of 7,292 tons per month over the number for the year ending August 31, 1869. The gross income of the road for the twelve months ending August 31, 1870, exceeds that for the preceding year by $70,952 11. The gross earnings in the months of September, October and November exceed those in the corresponding months of 1869 by about $57,000. The report says:

In accordance with the resolution adopted at the annual meeting holden on the 18th of September, 1869, (providing that the fiscal year of the Company should be so changed as to terminate thereafter with the 30th day of November, and commence with the 1st day of December,) we present to you in this report, a statement of the business of the Company for a period of fifteen months, commencing with the 1st day of September, 1869, and ending with the 30th day of November, 1870.

The additional capital stock was subscribed for by the stockholders on the terms authorized by the Board of Directors. But in adjusting the fractional rights to subscribe, there remained at the close, 123 shares of the scrip stock to the credit of the Treasurer, who will dispose of them to replace the $6,755 necessary to make the receipts from new capital up to $750,000, the amount which should be produced from 30,000 shares at $25 per share.

The new stock having been subscribed for, we have proceeded during the period covered by this report, to make such expenditures upon the road and its equipment from this source, as in our opinion (as indicated in our last report) was necessary to put them in such condition as to meet promptly and economically the demands of the Company's increasing business.

There have been placed in the track since 31st August, 1869, 500 tons warranted steely-headed Iron rails, and 3709 tons Bessemer steel rails, all weighing about 62½ pounds per lineal yard, and laying about forty-two miles of track, costing (including the splice joints) $440,320.90, of which $200,000 have been taken from the avails of the New Capital, and the balance is included in the current charges for repairs of road.

A new and expensive Passenger Building has been constructed at Windsor station on the opposite side of the track from the freight-house, in which all the passenger accommodations were previously furnished; a new and additional Freight House built on Belle Wharf at New Haven; the new Coal Wharf and Pockets at New Haven, mentioned in our last report completed; the River Wall at the Hartford Freight Station completed, and the filling nearly done; a large extension of the Blacksmith Shop; new Carpenter Shop, and other buildings, with a heavy expenditure for grading and wall about the shop grounds at Hartford; a new Stone Bridge of eight arches has been constructed over the Mattabesset river near Berlin in lieu of a structure of trestle work at that place; the track of the New Britain Branch has been extended about three-fourths of a mile to the west line of the borough, as originally located; preparations have also been made for the construction of the new double tunnel at Hartford.

These several items of expenditure amount in the whole to $141,574.53, of which $86,811.24 has been paid from avails of the new capital, and the balance is included in the current charges for operating and repairing the road.

Real Estate, amounting to $14,611.50 has been purchased during the year and paid from new capital.

There has been added to the equipment since our last report, one new first-class locomotive, four new first-class passenger cars, seated for seventy-six persons each, seventy-five new dumping coal cars, and our proportion of a large addition to the cars of the New York and Boston Line. Of the total cost of these additions to the equipment of the road amounting to more than $90,000, $60,000 have been charged against the new capital, and the balance to current charges for repairs of equipment.

Authority was granted by the Legislature at its last session, to construct a branch from its track, at a point about two miles north of Meri-

den, with a view of reaching a deposit of Trap Rock for the purpose of ballasting, protecting banks subject to injury by water, and other similar uses. This branch (about three fourths of a mile in length) has been built, and a lot of twenty acres, on which is a large quantity of the stone, purchased. The total cost of this branch with the land, $7,465.27, is charged against the new capital.

From the time of the construction of the Hartford, Providence and Fishkill Railroad to the present, the tracks of that road and this, lying side by side from Hartford to Newington, a distance of about five miles, have been used by both Companies (by arrangement) as one double track road, each Company owning one track. The number of trains on both roads have so largely increased, thus increasing the liability to delay, and danger of accidents, that your Board of Directors have deemed it judicious to direct that the second track of this Company's road between those points should be constructed without further delay.

The work of preparing the road-bed for this track, with the necessary extension of bridges and culverts, construction of bank walls and other structures, has been progressing during the past season. All the necessary masonry is completed, and the earth-work nearly so, and it is proposed to lay the track early in the ensuing spring, thus completing our double track from New Haven to Springfield. The cost of this work up to 30th November, 1870, $44,848.23, has also been paid from avails of new stock.

The Railroad from Windsor Locks to Suffield, mentioned in our last report, has been completed and is in operation. The amount expended in its construction up to 30th November, 1870, is $135,546.12, from which is to be deducted $20,000 advanced as bonus by the people of Suffield, leaving $115,546.12, which has been advanced by this Company to the Windsor Locks and Suffield Railroad Company from the funds derived from new capital.

The stock of the Windsor Locks and Suffield Railroad is held by the Directors and Officers of this Company in trust, and when the road is merged with that of this Company this stock will be added to the capital of this Company, and be subject to its control or disposal.

The Treasurer has purchased $185,000 of the bonds of this Company at par from the avails of the additional capital as will appear by the reduction to that extent, of the item of "Bonds" in the Ledger accounts submitted by the Secretary.

Changes have been made in the Ledger accounts in the items of cost of road and equipment, to correspond with the issue of new capital, as indicated in the circular to Stockholders of Oct. 21st, 1869, and upon a careful inventory at low prices of the equipment now owned by the Company.

The contract between this Company and the New York and New Haven Railroad Company providing for a union of the properties and interests of the two Companies from and after the 1st day of September, 1870, took effect by force of its own provisions upon the approval thereof by the stockholders of the respective Companies on the 7th of September, 1870.

The members of the joint Board of managers of the business of the two roads provided for in that contract have been elected from the members of the respective Boards of Directors, and the joint Board has been organized by the appointment of Wm. D. Bishop, President of the New York and New Haven Railroad Company as President, and Wm. P. Burrall, President of this Company, as Vice President; and the Board has assumed the general supervision of the joint roads and their business; leaving, however, for the present, the management of the operations of the two roads in the charge of their present executive officers.

The earnings of the two roads from the 1st day of September, 1870, become, therefore, a joint fund, and whether they will hereafter be divided between the two Companies quarterly, or semi-annually will be determined by the joint Board of Managers.

The claim of this Company against the New York and New Haven Railroad Company still appearing on our books, will be disposed of when the accounts of the two Companies are brought together under the contract between them.

The income of the company from all sources during the fifteen months is as follows:

Cash on hand September 1, 1869...	$153,327 37
Earnings of the road, as above.....	2 412,149 92
25 per cent. installment new capital	746,925 00

President.—W. P. Burrall.

Directors.—W. P. Burrall, Chester W. Chapin, Cornelius Vanderbilt, Ezra C. Read, Eli Butler, Julius Catlin, C. M. Pond, H. C. Robinson, E. G. Howe.

Secretary.—S. P. Conner.

Treasurer.—C. M. Pond.

Superintendent.—E. M. Reed.

Tehuantepec Railway.

Colonel J. J. Williams, chief engineer of the Tehuantepec Railway Company, telegraphs, via Havana, to the president of the company in New York, as follows:

Minatitlan, Mexico, Jan. 20.—Myself and staff of engineers, with our instruments and camp equipage, were all safely landed from the United States steamship of war Nipsic, Commander B. Wilson, after a very rough passage. Next day I met a commissioner representing the Mexican government, and on the 19th inaugurated the commencement of the work by imposing ceremonies. The United States consul and part of Captain Shufeldt's command participated in the ceremonies, together with the Mexican officials and other notables. Captain Shufeldt's report, I think, you will find confirms my previous surveys of the Isthmus, and demonstrates that there is a sufficient quantity of water on the summit of the route, all the year round, for the purpose of a canal.

Railroads in Wisconsin.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The lines now constructing and those projected, with prospect of early completion, will soon afford to the large portion of the state ample railroad facilities. The roads from Madison to Portage, and from Eagle to Elkhorn, have been completed during the year. Work on the Baraboo Air Line from Madison northwesterly, is being pushed energetically forward. The Green Bay and Lake Pepin road is in course of construction from Green Bay to New London. The West Wisconsin road has 116 miles completed, and will undoubtedly be finished to the city of Hudson early the coming summer. The Milwaukee and Northern Railroad is open to Cedarburg, and another section will be completed during the present year. The Portage, Winnebago and Lake Superior Land Grant road is in the possession of men of energy and business capacity, and, I am informed, will be commenced immediately and built as rapidly as possible. The road from Oshkosh to Ripon will in all probability be constructed this year. Work on the Northern Pacific has begun in earnest. This enterprise is one of vast importance to the whole country, and of much prospective benefit to Wisconsin.

The land grants made by Congress in 1856 and 1864 to aid in the construction of a railroad from Lake St. Croix to Superior and Bayfield, expired by the terms thereof, in May, 1869. The failure of Congress to renew these grants has caused great disappointment to thousands of settlers in the northwestern portion of the state. If Congress finally refuses such renewal great injustice will thereby be done to those settlers, and to Wisconsin. Thousands of people, years ago, settled along the lines of these contemplated roads upon the faith of these grants. They have purchased several hundred thousand acres of the reserved land, paying the government double price therefor in consideration of the grant, thus reimbursing the government for a large portion of the granted lands. To snatch from them the benefits of a grant for which they have paid the government, because of delays for which they are in no wise responsible: to withhold these grants just at the time when their renewal will ensure the speedy building of the roads, will be an act of injustice and impolicy which I do not believe Congress will commit. Deeming these roads of the utmost importance to Wisconsin, and that the renewal of the grants was due to our people, I have felt it my duty to use every proper effort to secure the assent of Congress thereto; and I shall not relax my efforts to aid in the development of that portion of the state most interested in this enterprise, nor in giving every possible encouragement to all other schemes of internal improvement which will add to the prosperity and resources of the commonwealth.

These railroad lands have been for nearly two years under the charge of the state for protection against trespassers. General Samuel Harriman has, during that time, been the agent of the state to discharge this duty. He has caused to be collected for stumpage by R. D. Pike, agent of the Bayfield land office, $15,725; by the United States marshal, $7,885, and has collected himself and paid into the state treasury $44,176.18. Total amount collected, $67,786.18. The sum paid into the state treasury, less expenses incurred, will be held by the state in trust for the parties who may construct the contemplated roads. The agent is confident that he shall succeed in preventing further depredations.

Philadelphia and Reading Railroad.

We gave in our issue of 21st ult. an abstract of the "Transportation and Income Account" of this company for the fiscal year ending November 30, 1870, together with the Report of the Managers. Below will be found several important tables referring to the years 1869 and 1870, including the "General Account." We also append a statement of the Cost, Earnings, Dividends, etc., etc., since the completion of the road in 1842–'43:

	1869.	1870.	1869.	1870.	1869.	1870.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "1."

American Railroad Journal.

Saturday, February 11, 1871.

Stock Exchange and Money Market.

Money has been quoted quite easy to the leading borrowers on call at from 4@6, chiefly at 5@6 per cent.. The offerings have been liberal and in excess of the current requirements, especially on private account. The speculative demand has been only moderately active, and wholly without any symptom of urgency. The Government houses have had their wants very generally anticipated by lenders on the basis of the minimum rates in most instances. The inquiry from the Stock Exchange firms has been also quite promptly provided for at the rate quoted. In the line of mercantile credits, there has been a moderate show of animation, with a free sale noted for all business paper, grading prime, at from 7@8 per cent. per annum. The last weekly statement of the city banks was favorable to a further development of ease in the general market. The deposits and legal tender reserve were largely augmented. The U. S. Sub-Treasury receipts for the week, were $8,527,062 in coin, and $6,671,070 in currency; payments, $2,949,118 in coin and $5,894,851 in currency. Of its receipts, $3,077,000 were from customs. Included in its payments were $526,146 of coin interest.

The specie reserve of the city banks according to the latest return is $26,233,578, against $38,997,246 same time last year. The city bank deposits are now $215,888,595, against $214,739,179 week ending Feb 6 1870. The legal tender reserve amounts to $54,187,393, against $58,048,384 same time last year. The circulation now stands at $31,764,129, against $28,746,481 same time last year. The loans are now $270,789,777, against $264,514,119 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $93,134,656 a day, against a daily average of $85,681,992 the preceding week. The current week's exchanges average about 95⅝ millions a day. The city banks, last week reported a loss of $1,186,872 of specie, with a gain of $4,282,930 of deposits, and $4,696,354 of legal tender notes. They increased their loans $509,407; and reduced their circulation, $84,218.

National Bank notes to the amount of $802 215 were issued last week by the Treasury Department. Deducting from the grand total issue to 1741 banks the currency returned, including worn out notes, amounting to $87,129,262, the existing 1.648 banks, (with an aggregate capital of $485.356,084.) retain an actual circulation of $307,356 958. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $350,048,750; and for the public deposits, $15,819,500—making a total of $365,868,250. The Treasury Department last week redeemed and destroyed $726,400 of worn and mutilated fractional currency, and issued $582,544 of new.

The U. S. Sub-Treasury, last week, increased its coin balance $577,954, and its currency reserve, $776,219. On Wednesday of this week, it closed with a balance of $12,171,615 in currency, and $62,418 091 in coin, against a balance a week previous of $9,725.868 currency, and $69,391,685 coin.

The U. S. Sub-Treasurer retired, last week, $2,725,497 of coin certificates, received for customs.

The Gold movement has shown more animation, and the temper of the speculation has been more confident, chiefly in anticipation of free exports of specie, through the spring months, as the outgrowth of the current heavy imports of foreign goods, and quite moderate shipments of domestic products. The range of the price has been from 111⅜ to 112¼; and the closing quotation on Wednesday was 111¾ against 111⅜ the preceding Wednesday. The outflow of specie, last week, was $1,423,699; and on Wednesday of this week $300,000. The customs drain, last week, was $3,077,000.

The Gold Exchange Bank clearances on Friday of last week were 58¾ millions; on Wednesday of this week 34⅝ millions, the extremes since our last.

Under the February programme of the Treasury Department, Government will sell Gold, during the month, as follows: Thursday, February 16, $1,000,000; Thursday, February 23, $1,000,000. And buy in Five Twenties as follows; Wednesday, February 15, $2,000,000; Wednesday, February 22, $2,000,000.

The export drain was $1,423,699 last week against $249,804, same week preceding year. The shipments since July 1, 1870, have been $44 527,954, against $19,588,248 same time in 1869–'70.

The customs demand for Gold last week, averaged $512 888 a day; thus far, this week, it has averaged $348,000 a day, or equal to a weekly aggregate of $2,058,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $24,216, and since Jan. 1, 1871, $194,774, against $2,080,238 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $85,141,135, against $76,749,653 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870 $60,703,678 against $62,006,448 same time in 1869–'70.

Government securities have been in more confident demand, largely on investment account, and prices have again advanced. The offerings of bonds have been quite moderate, especially of the six per cents of 1881, which have been in particularly good request; and the later issues of the Five-Twenties, and the coupon Ten-Forties, on which half a year's interest, or equal to 2½ per cent. in coin, will be due on March the 1st. The announcement that on March 6th Government will open subscription books for the new 5, 4½ and 4 per cent. funding bonds, the same to be sold for par in gold, or exchanged for Five-Twenties, has served to strengthen values.

On Wednesday, Government bought in two millions of Five-Twenties at 108 65@108 82, ex-interest. The amount of bonds offered was $7 088,950.

U. S. sixes of 1881 closed here on Wednesday of the current week at 113¼@113⅜; U. S. Five-Twenties of 1862, 111¼@111⅜; U. S. Five-Twenties of 1864 at 110⅜@110½; U. S. Five-Twenties of 1865, 110½@110⅝; U. S. Five-twenties of 1865 consolidated, 109¼@109⅜; U. S. Five Twenties of 1867, 109⅜@109½; U. S. Five-twenties of 1868, 109¼@109⅜; U. S. Ten-forties at 109⅞@110; U. S. Six per cent. currency bonds, 111⅜@111½.

State bonds have been in more general demand, at stronger prices.

Foreign Exchange has been in more demand and quoted strong in price. Bankers' sixty day bills on London closed on Wednesday at 109⅜@109½; sight bills on London, 110¼@110⅜.

Railway bonds have been in quite active demand in the instances of the principal loans at generally higher and buoyant prices. Central Pacific Sixes have been freely purchased at advanced figures, closing at 93@93¼. Chesapeake and Ohio Sixes have been in more demand at 90 and interest. Union Pacific Sixes have been quoted up to 80@80½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 24.	Feb. 1.	Feb. 8.
Consols	92⅛	92	92
U. S. 5-20's of 1862	90⅛	90¾	90¼
U. S. 5-20s, 1865	89¾	90⅛	90¼
" 1867	88⅞	89¼	89⅛
" 10-40s	88¾	89¼	89⅛
Erie	18⅞	18⅛	18
Ill. Central	110	110	109
At. and Gt. West	27⅛	29	28

Railway and miscellaneous share property has been fairly active, but variable, closing steadier in most instances. Union Pacific stock closed at 19⅞@20. Western Union Telegraph at 46½@46¾.

General business has been less active, in nearly all lines. Breadstuffs, Cotton, and Petroleum, have been quoted weaker as to price. Provisions have been fairly supported in values. Wool and Naval stores have been quoted stronger. The ocean freight difficulties, owing to the comparative scarcity of room for British ports, and the increasing firmness of shipowners, have operated against active export movements. Middling uplands cotton closed on Wednesday at 15¼ cts. per lb. The receipts at all the ports, since Sept. 1, 1870, have been 2,346,084 bales, against 1,806,123 bales same time in 1869–'70; exports same time 1,405,395 bales, against 987,346 bales same time in 1869–'70; stock on hand at latest dates, 612,988 bales, against 508,548 bales same date 1869.

At the Live Stock markets, this week, Beeves have been moderately active at from 9@15½c. per lb.; week's receipts, 5,611. Milch cows quiet at $40@$110 each, receipts, 63. Veal calves in less demand at from 5@12½c. per lb.; receipts, 788. Sheep in fair request at from 5@7½c. per lb.; receipts, 28,284. Swine in moderate demand at 8@8¼c. per lb., all live weight; receipts, 12,729.

Ocean freights have been quoted firmer on a limited supply of way freight room, and have been moderately active. For Liverpool we quote flour at 2s. 6d. by sail, and 3s. by steamer per bbl.; grain at 7d. by sail, and 8d. by steamer per bushel; cotton at 5/16@⅜d. by sail and ⅜@½d. by steamer per lb.; and heavy goods 20s.@30s. by sail, and 30s.@50s. by steamer, per ton.

The following will show the exports (exclusive of specie) from New York to foreign ports or the week ending February 7th, and since the beginning of the year:

	1870.	1871.
For the week	$3,461,230	$4,727,384
Previously reported	14,675,926	21,340,763
Since Jan. 1	$18,136,556	$26,068,147

The imports for the week ending Feb. 4, and since the beginning of the year, have been as follows:

	1870.	1871.
Dry goods	$2,843,545	$1,475,634
Gen. merchandise	3,494,973	3,176,242
Total for the week	$6,338,518	$4 651,876
Previously reported	13,956,817	20,937,030
Since January 1	$20,295,335	$25,588,906

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Alabama 8s, 98½; Georgia 7s, gold bonds, 94⅜; North Carolina Fund Act, 1868, 80; do. Special Tax, 19; South Carolina 6s, new Jan. and July, 59⅜; do., April and Oct., 61; Arkansas 7s, (M. and L. R. R.,) 56; California 7s, 109¼; New York State 7s, Bounty Loan reg., 106; do. 6s, 1872, 105½; Albany and Susq. 2d mort., 91½; Hannibal and St. Joseph 8s, conv., 105⅛; Ohio and Miss. consol. bonds, 86¾; Quincy and Toledo 1st mort., 82; Dubuque and Sioux City 1st mort., 92½; Cedar Falls and Minnesota 1st mort., 81; Chicago and N. W. Interest bonds, 92¼; Toledo, Peoria and Warsaw 1st mort., E. D., 83; Toledo and Wabash 1st mort., St. L. Div., 80; New York Central 6s, sub. bonds, 89; North Mo. 1st mort., 84⅛; do. 2d mort., 65; St. Louis and Iron Mountain, 1st mort., 87; New York New Haven R. R., 143½; Western Union Telegraph, 46⅜; Adams Exp., 67¾; Am. Mer. Union Exp., 44½; U. S. Exp., 44¾; Brooklyn 6s, W. L., 92⅜; Quicksilver pref., 15; Am. Coal, 36½.

Philadelphia.—Wilmington and Reading 7s, 94; Oil Creek and Allegheny River R. R., 46⅝; do. 7s, 81¾; Pennsylvania and New York Canal, 7s, 93¾; Pennsylvania Canal, 26; Phila. and Reading deben. bonds, 79@81; do. 6s, 1843–'80, 96½; Stubenville and Indiana R. R. 6s, 73; Belvidere Delaware 2d mort., 89; West Jersey 6s, 91; Lehigh Nav. conv. loan, 78; Germantown Pass. R.R., 30½; N. Y. and Middle Coal Fields, 5⅜; Penna. State 5s, coupon, 102. The latest quotations are: City 6s 101½@102½; do. free of tax 101⅛@101¼; State 6s, coupon, 101½@102; do. 6s, W. L., 104@—; do. 1st series, 104½@—; do. 2d series 105½@106; do. 3d series, 106½@—; Reading, 49⅜@49⅝; do. 7s, 1893, 105@106; do. mort. 6s, 1880, 95@97; Camden and Amboy, 116@117¼; do. mort. 6s, 1889, 96@96¼; do. 1883, 91¾@92; do. 1889, —@92½; Penn. R. R., 61¼@61⅜; do. 1st mort., 101@101½; do. 2d mort., 102¼@102½; do. Gen'l mort. coupon, 93@94½; do. reg., 95¾@96; Little Schuylkill R. R., 43½@44; Morris Canal, 33@—; do. pref., 70@—; do., 6s, 84@88; do., scrip 7s, 76@—; Susquehanna Canal, 6@8; do., 6s, 45@50; Schuylkill Nav., 8@8⅜; do. pref., 17⅛@17¼; do. 6s, 1882, 75@76½; Elmira and Williamsport pref., 40@40¼; do. 7s, 1873, 92@94; do. 5s, 62@—; Lehigh Coal and Navigation, 34⅜@34½; do. 6s, 1884, 83½@84½; do. R. R. Loan, 89@90½; do. Gold Loan, 88@88¼; North Pennsylvania, 44⅛@44¾; do., 6s, 98@99; do., 7s, 95⅝@95½; do. Chattle 10s, 113@—; Philadelphia and Erie, 28@28¼; do., 6s, 93@93½; Minehill, 51¾@51¾; Catawissa, 10@15; do. pref., 38¼@38½; Lehigh Valley, 60@60¼; do. 6s, 94@95½; do. 6s, reg., 102@103; Fifth and Sixth streets, (horse,) 40@40; Second and Third, 58@60; Thirteenth and Fifteenth, 23@23½; Spruce and Pine, 25½@25½; Green and Coates, 43@45; Chestnut and Walnut, 45½@—; Hestonville, 16⅜@16½; Union, 52@—; Germantown, 30@30½.

Boston.—Vermont Central 1st mort., 87; do. 2d mort., 41¾; Old Colony and Newport 6s, 97; Burlington and Missouri 8s, in Nebraska, 93; Missisquoi 7s, 82½; Vt. Central and Vt. and Canada 8s, 103½; Stanstead, Shefford and Chambly 7s, 1887, 83⅞; Cincinnati, Sandusky and Cleveland R. R., 24; do. pref., 35½; do. 7s, 1890, 80¾; Hannibal and St. Joseph 8s, 1885, 102; Michigan Central 8s, 1890, 107⅜; Kalamazoo, Allegan and Grand Rapids 8s, 1888, 94; Cedar Rapids and Missouri 7s, 1916, 85¼; do. 1894, 88; Maryland and Delaware 6s, 1885, 65; Missouri River, Fort Scott and Gulf 10s, 101¼; Eastern R. R. 6s, 1874, 101½; Illinois Grand Trunk 8s, 98¾; Indianapolis and Cincinnati R. R., 7½; Rutland R. R., 45¼; do. pref., 82; Summit Branch, 88½; Winnisimmont Horse R. R., 18; Connecticut and Passumpsic Rivers pref., 90½; Eastern (N. H.) R. R., 115; Norwich and Worcester, 110¼; Boston Water Power Co., 23; Cary Imp., 8⅝; East Boston Land, 14⅜; Roaring Brook Coal, 14½;

Mt. Pleasant Coal, 5; Maine 6s, 1889, 100⅛; Missouri 6s, 1875, 94¼; do. 1887, 90; Vermont 6s, 1874, 109; Massachusetts 6s, 1872, gold, 108½; Boston 6s, 1877, currency, 100½; do. 5s, 1871, gold, 111½; Lynn 5s, 1882, 88; Cambridge 5s, 1882, 88; Portland 6s, 1890, 94¾; St. Louis City 6s, 1887, 86½; St. Paul 6s, 1893, 74⅞; Chicago 7s, 97⅛; St. Louis County 6, 1887, 87; Brooklyn 6s, 1900, 92¾; Allouez Mining Co., 1⅛; Star, 25c.; Tremont, 30c.; Dana, 40c.; Mesnard, 25c.; Canada, 35c.; Hanover, 55c.

Baltimore.—Western Maryland R. R. 1st mort., 78; Orange, Alex. and Manassas bonds, 78; Northern Central 6s, 1900, gold, 92; Orange and Alexander 2d mort. 6s, 75; Central Ohio R. R., 27; Memphis City 6s, 50¾; Baltimore City 5s, 82; Maryland Defense bonds, 103; do. 6s, 1890, 96; Virginia 6s, old, reg., 50. The latest quotations are: Pittsburg and Connellsville 7s, 1898, 90⅝@91; Baltimore and Ohio, 139¼@140; do. 6s, 1875, 94½@95; do. 1880, 94@95; do. 1885, 94¾@95; Northern Central, 40½@41; do. 6s, 1885, 91¾@92¼; do. 1900, —@91½; do. 6s, 1900, gold, 92@92½; N. Va. 1st mort., 96@96½; do. 2d mort., 95@98; do. 3d mort., 1885, 89@92; Marietta and Cincinnati 7s, 1892, 93@93¼; do. 2d mort., 82½@82⅝; Central Ohio, 27⅜@29; do. 1st mort., 86¼@86½; Western Md. 6s, 1890, 76@78; do. guar. by Baltimore City, 89@94; do. 2d mort., guar., 88@88½; do. 6s, pref., 59@60; do. 6s, guar., by Washington Co., 80⅞@81; Richmond and Danville bonds, 76@77; Orange and Alexandria 1st mort., 6s, 85@88; do. 2d mort., 6s, 75@75½; do. 3d mort., 8s, 84½@85; do. 4th mort., 8s, 79@79½; Orange, Alex. and Manassas 7s, 77½@78; Virginia and Tennessee 8s, 79½@80; do., 6s 1st mort., 80@81; do. 6s, 2d mort., 71@73; Baltimore 6s, 1875, 96½@97; do. 1884, 95½@97; do., 1886, 96¼@97; do. 1890, 96⅛@96½; do. 1893, 100@—; do., 1900, 95@96; do. 5s, 1888–'70, 81@82½; Memphis City 6s, 50@51; Maryland Defense Loan, 1883, 103@103; City Passenger R. R., 20@20¾; George's Creek Coal, 60@62.

To Capitalists.

The well-known North River, or Durbin Rolling Mill, situated on Prospect and North Fifth Street, Jersey City, New Jersey, is offered for sale in another column. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, Stable, etc.

The Rolling Mill which was built for the manufacture of Locomotive and other descriptions of Boiler, Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It has been in successful operation since 1855. Situated near the Hudson River, a short and nearly equal distance from all the Depots and Ferries, and the Hoboken or Delaware and Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the city and Paterson, the facilities for forwarding to all points by water or railroad, it can not be surpassed.

The Real Estate is rapidly increasing in value, the reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the office, 140 Hudson Street, Jersey City.

Information may also be obtained of Wm. H. Wallace & Co., corner of Liberty and Washington Streets, N. Y., and R. R. Chrisman, Supt. Central Iron Works, Harrisburgh, Pa.

The Great Railroad.

The Chesapeake and Ohio Railroad is rapidly approaching completion. For the energy and spirit with which the western half of it is pressed, and the speed with which it will be completed, it throws all other enterprises in this State and the South entirely in the shade. If enterprise, the masterly control of means and force, and a wonderful rapidity of railroad construction entitle a man to wear the crown of railroad king, that crown belongs to somebody connected with the Chesapeake and Ohio Railroad; but it belongs to a man remarkable alike for his reticence and modesty. That man is Mr. Huntington, the President of the company; a man who had won his fame before he entered upon the Virginia theatre by his gigantic achievements upon the Pacific Railway.

The peculiar advantages of this grand Chesapeake and Ohio Railway is that it connects the Virginia tide with the great western fields, agricultural and mineral, which are peculiarly adapted to the support of manufacturing industry and the growth of commercial communities. Both those fields, which will be pierced by this grand artery of communication, are almost unlimited in their resources.

When we look at the Chesapeake and Ohio route we at once see how it is adapted to the business of transporting the products of these great fields. We find the James river valley reaching along the latitudinous line from the foot of the Alleghanies to the Atlantic tide, and separated by a narrow ridge—only a mile and a half wide there—from the waters of the Kanawha, rising and running along the Kanawha valley, pursuing the same line of latitude westwardly to the Ohio. That narrow ridge is crossed by the railroad at the grade of twenty-nine and a half feet to the mile! A fact without parallel in any of the railroads which run from east to west across the mountain ridges parallel with the ocean.—*Richmond Dispatch, 6th.*

☞ Seven-eighths of the graduation, masonry and bridging of the Connecticut Western railroad is done. Twenty-four connected miles at the eastern end, and sixteen at the western end, are ready for the track, with the exception of a small amount of bridge superstructure. Of the remaining 27 miles, sixteen in twos and threes are complete, and half the others will be done in the course of two months; the remainder during April. It is quite feasible, without extraordinary effort, to have the road in running order by the 4th of July next.

☞ FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 Nassau st.,
New York, Feb. 10, 1871.

The Six Per Cent. Gold Bonds of the Central Pacific Railroad Company have an established character which renders them especially desirable for investments.

They are based on one of the most important and valuable railroad lines in the world, fully completed, amply equipped, and already earning large revenues, which must increase enormously with the growth of the country it traverses and the development of trade with Japan, China and Australia, a large portion of which must find its way across the American Continent.

Holders of Five-Twenty Bonds (which are liable to be funded at a low rate of interest within a short time) may exchange them for Central Pacific Bonds, bearing the same rate of interest, and save from 15 to 18 per cent. for reinvestment, while their security remains as reliable as before.

They are dealt in at the New York Stock Exchange and at several of the more important Bourses of Europe. We have introduced them into our regular business upon the same basis as Government Bonds, and buy and sell them as freely at current market rates, and are prepared to furnish them to investors or others at daily quotations.

We buy and sell Government Bonds, Gold, and Coupons, execute orders in Miscellaneous Securities at the New York Stock Exchange, make collections, receive deposits subject to check at sight, allow interest on balances, and do a general banking business.

FISK & HATCH.

☞ NEW 7-30 GOLD LOAN.

Interest repaid by transportation of mails, etc.	2,460,818 94	
Balance of interest paid by United States	8,293,091 51	

Journal of Railroad Law.

COMMON CARRIERS—CONNECTING ROUTES—JOINT LIABILITY FOR LOSSES AT ANY POINT—EXPRESS COMPANIES.

The facts in the recent case of Coates *vs.* The United States Express Company (45 Mo., 238,) are fully and clearly stated in the following opinion by

WAGNER, J.—This was an action brought by the plaintiff against the defendant, as a common carrier, to recover the sum of $300, alleged to have been delivered to it for transmission from the town of Allen, in Randolph County, to the town of Trenton, in Grundy County.

On the trial it was agreed between the parties that the Express Company received the package, and that it contained $300; that the company forwarded it to Macon City, which was the nearest point of destination reached by the company, and that it there transferred and delivered the package to the American Express Company, which was a responsible forwarding agent, and the only Express Company forwarding from Macon City to Trenton, and that it was the usual line for carrying express matters upon that route.

The following is a copy of the receipt given by the company at the time it received the package.

"United States Express Company,
Allen, Dec. 2, 1865.

"Received of John F. Coates one package said to contain money valued at three hundred (300) dollars, and marked Cliff A. Evans, Trenton, Mo., which we undertake to forward to the nearest point of destination reached by this company, only perils of navigation excepted. And it is hereby expressly agreed that said United States Express Company are not to be held liable for any loss or damage, except as forwarders only," etc.

Upon the foregoing evidence the courts below gave judgment for plaintiff.

There is undoubtedly some conflict in the reports as to whether a carrier, receiving goods to be transported to a point beyond his own line, is liable when they are lost, where he has forwarded them to their destination upon another route. Where carriers on connecting routes form associations and arrangements for the purpose of carrying goods or parcels through the whole line, and share the profits, they are, beyond question, partners, and each is responsible for any loss or injury to goods which may happen, in whatever part of the line it occurs. The English doctrine seems to be in favor of the rule, that a carrier who knowingly receives a parcel, directed or consigned to any particular place, undertakes to carry it there himself, unless he makes known a different purpose and undertaking to the owner. As a consequence of this rule, it is held that the owner has no contract with the second carrier, and cannot recover of him for damages done on his end of the route. This principle was distinctly announced by Lord Abinger, in the leading case of Muschamp *vs.* The L. and P. Junction Railway Co., 8 M. and W. 421, and has been since followed by later adjudications. A similar doctrine was at one time announced by the Supreme Court of the State of New York, in the case of St. John *vs.* Van Santvoord, 25 Wend. 660; but that decision was reversed in the court for the correction of errors, Chancellor Walworth delivering the leading opinion. In the American States the English doctrine is almost entirely overthrown. It seems to be the established law that a carrier may receive a parcel to carry as far as he goes, and then to send it further by another carrier. And when such is the clear and admitted case, his responsibilities as carrier and forwarder are distinct.

Professor Parsons, after speaking of the diversity that exists between the English and American cases, comes to the following conclusion: "The prevailing rule in this country may now be said to cast upon the carrier no responsibility, as a carrier, beyond his own route (requiring, of course due care in forwarding the parcel) unless the usage of the business, or of the carrier, or his conduct or language, show that he takes the parcel, as carrier, for the whole route. And his receipt of payment, for the whole route would be evidence going far to prove such undertaking." (2 Parsons on Cont. 5th ed. 213.) And this proposition seems to be well sustained by the authorities.

The record discloses no payment for the whole route, nor any understanding, usage, or agreement that the company assumed to be responsible for the package after it left its own line. I think, then, the company was only bound, under its contract or undertaking, to transport the package safely to Macon City, that being the point on its line nearest the place of destination, and there to deliver it to the proper carrier to be forwarded to its destination; and, having done this, the company was not responsible for its subsequent loss.

The judgment should be reversed.

Reversed. The other Judges concur.

NEW 7-30 GOLD LOAN

of the

NORTHERN PACIFIC RAILROAD COMPANY.

SECURED BY FIRST MORTGAGE ON RAILROAD AND LAND GRANTS.

SAFE! PROFITABLE! PERMANENT!

We offer for sale at par and accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States Tax, and are issued of the following denominations: Coupons, $100, $500, and $1,000. Registered, $100, $500, $1,000, $5,000 and $10,000.

With the same entire confidence with which we commended Government Bonds to Capitalists and People, we now, after the fullest investigation, recommend these Northern Pacific Railroad Bonds to our freinds and the general Public.

GOLD PAYMENT.

Both Principal and Interest are payable in American Gold coin, at the office of Jay Cooke & Co., New York City—Principal at the end of 30 years and the interest (at the rate of seven and three-tenths per cent. per annum) half yearly, first of January and July.

PERFECT SAFETY.

The Bonds we are now selling are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of the work:

1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments,

2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This land—agricultural, timbered, and mineral, amounting in all to more than Fifty Million Acres—consists of alternate sections, reaching twenty to forty miles on each side of the track, and extending in a broad, fertile belt from Wisconsin, through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon and Washington, to Puget Sound.

While the Government does not directly guarantee the bonds of the road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great National improvement.

THE MORTGAGE.

The Trustees, under the Mortgage are Messrs. Jay Cooke of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interest of the First Mortgage bondholders, and are required to see that the proceeds of land sales are used in purchasing and cancelling the bonds of the company, if they can be bought before maturity at not more than 10 per cent. premium; otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate mortgages for the further security of Northern Pacific bondholders. Also that they have at all times in their control, as security, at least 500 acres of average land to every $1,000 of outstanding first mortgage bonds, beside the railroad itself and all its equipments and franchises.

PROFITABLENESS.

Of course nothing can be safer than the bonds of the United States; but, as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permenent investment, while still having a perfectly reliable security, that:

United States 5-20s at their average premium yield the present purchaser less than 5⅓ per cent. gold interest. Should they be redeemed in five years, and specie payment be resumed, they would really pay only 4⅜ per cent., or, if in three years, only 3⅛ per cent., as the present premium would meanwhile be sunk.

Northern Pacific 7-30's selling at par in currency yield the investor 7 3-10 per cent. gold interest, absolutely for thirty years, free from United States Tax. $1,100 currency invested now in United States 5-20s will yield per year, in gold, say $62. $1,100 currency invested now in Northern Pacific 7-30s will yield per year, in gold, $80 30. Here is a difference in annual income of nearly one-third, besides a difference of 7 to 10 per cent. in principal, when both classes of bonds are redeemed.

THE ROAD NOW BUILDING.

Work was begun in July last on the eastern portion of the line, and the money provided, by the sale to stockholders of some six millions of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—233 miles. The grading on this division is now well advanced, the iron is being rapidly laid, several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime, orders have been sent to the Pacific coast for the commencement of the work on the western end in early Spring; and thereafter, the work will be pushed, both eastward and westward, with as much speed as may be consistent with solidity and a wise economy.

RECEIVABLE FOR LANDS.

These bonds will be at all times receivable, at 1.10, in payment for the company's lands, at their lowest cash price.

BONDS EXCHANGEABLE.

The registered bonds can be exchanged at any time for coupons, the coupons for registered; and both those for others, payable principal and interest, at any of the principal financial centers of Europe in the coin of the various European countries.

HOW TO GET THEM.

Your nearest Bank or Banker will supply these bonds in any desired amount and of any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks may send money or other bonds, directly to us by express; and we will send back Northern Pacific Bonds, at our own risk, and without cost to the investor. For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the banks or bankers employed to sell this loan.

FOR SALE BY

JAY COOKE & CO.,

Fiscal Agents Northern Pacific Railroad Co.,

114 South Third street, Philadelphia; corner of Nassau and Wall streets, New York; 452 Fifteenth street, Washington, D. C.; by National Banks, and by brokers generally throughout the country.

Rutland Railroad Lease.

At the recent annual meeting of the Rutland Railroad Company, the President made the following statement in regard to the present condition of the company's affairs. He said:

During the year the directors had leased a section of the Vermont and Massachusetts road for fifty years at the rate of $42,000 per annum for the first five years, $48,000 for the next five years and $54,000 for the last five. They had also leased the Vermont Valley road of E. R. Birchard and John B. Page, who had been operating under a private lease at the rate of $65,000 per annum for four and one-half years and $72,000 per annum thereafter. They had also concluded negotiations for the lease of the Addison Railroad as soon as it shall be completed. They further proposed to purchase the individual stock of the Burlington Steamboat Company. The other leases by the company are of the Montreal and Plattsburg Railroad, at $42,000 per annum and taxes, and the Whitehall and Plattsburg Railroad, at $20,000 per annum and taxes. The aggregate annual rentals amount to $169,000. The operations of the road for the year ending October 31, 1870, show the following results:

Receipts	$1,041,509 92
Expenses	755,918 25
Net earnings	$285,641 67

Among the miscellaneous items of expense are $336,800 for new rolling stock and $194,110 for repairs on account of the great freshet last year. The President also stated that in accordance with a stipulation with Messrs. Cheever and Hart, representing the holders of the first mortgage bonds, the entire amount of those bonds had been paid, the last payment having been made during the present month.

The terms of the twenty years' lease of the roads operated by the Rutland Company, to the Vermont Central and Vermont and Canada Railroads, were explained by Governor Page. In the first place the lessees guarantee the payment of the interest at seven per cent. of the entire amount of preferred stock of $4,300,000; on 500,000 of the seven per cent. bonds of 1870, and on a like amount to be issued at 8 per cent., making a total from this source of $376,000 per annum. The lessees also guarantee the payment of interest on $2,700,000 common stock at the following rates: For the first year, nothing; for 1872, one and one-half per cent.; for 1873, two per cent.; for 1874, three per cent.; for 1875, five per cent.; for 1876, 1877 and 1878, six per cent.; for 1879, seven per cent., and at the rate of seven per cent. for the remaining eleven years. The steamer Oakes Ames is leased at the rate of $10,000 per annum, and the lessees also pay $8,000 per annum for supervision and organization. The several leases held by the Rutland Railroad Company are transferred exactly as they stand to the Vermont Central Company, the latter becoming responsible for all the obligations of the original lessees. These amount, as stated above, to about $169,000 per annum.

The average yearly proceeds from these several sources is about $171,000. This added to the proceeds from the preferred stock makes the yearly rental due the Rutland company about $574,000. It is calculated that this sum, with the rental from real estate exempted, is equivalent to an average for the twenty years of six per cent. on the common stock, with a balance of about $12,000 as security for this rent.

The Vermont Central issues to the Cheshire and Connecticut River Railroads monthly orders, making the collections by them on northern freight payable directly to the Rutland company. These orders are equal to $30,000 monthly on the Connecticut River and to $10,000 monthly for the first two years on the Cheshire, and $20,000 thereafter. This security is regarded as ample in every respect for the prompt payment of the rent.

On motion, the lease was unanimously ratified by a stock vote, and the transfer will be made at once.

The following were elected Directors for the year: Lawrence Barnes of Burlington, E. A. Birchard of Brandon, John B. Page of Rutland, J. H. Williams of Bellows Falls, George B. Chase, Peter Butler and D. N. Skilling of Boston.

☞ The Supreme Court of Maine has decided in the case of the New England Express Company, vs. The Maine Central Railroad Company, that a railroad company carrying express matter for one company or person have no right to refuse to carry express matter for other companies or persons offering it, but they must carry for all alike and on equal terms. In this case the railroad company had made arrangements with the Eastern company to carry express matter for them, and during the contract of four years, not to carry it for any other express carrier. The court held the contract illegal, both under a statute of Maine and at common law.

Refunding the National Debt.

The following is an official copy of the Act to amend an Act entitled "An act to authorize the refunding of the National Debt"—approved January 20, 1871:

Be it enacted, etc., That the amount of bonds authorized by the act approved July fourteen, eighteen hundred and seventy, entitled "An act to authorize the refunding of the national debt," to be issued bearing five per centum interest per annum, be, and the same is, increased to five hundred millions of dollars, and the interest of any portion of the bonds issued under said act, or this act, may, at the discretion of the Secretary of the Treasury, be made payable quarter-yearly: *Provided, however*, That this act shall not be construed to authorize any increase of the total amount of bonds provided for by the act to which this act is an amendment.

☞ The President of the Philadelphia and Reading Railroad Company has just issued a circular in which he names the heads of the several departments of that now extensive establishment. They are—Mr. G. A. Nicolls, General Superintendent and Assistant President; J. W. Jones, Secretary and Comptroller; John E. W otten, Assistant Superintendent and Engineer of Machinery, and L. B. Paxson, Master Machinist.

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Durbin Rolling Mill, situated in Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It is now running, and has been successfully run from its establishment in 1855. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value. There has been no better chance for the makers of Jersey Blooms offered to work up their own product and well deserves *your consideration*. The reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,

INTERCOLONIAL RAILWAY OF CANADA.

Tenders for Iron Bridge Superstructures.

The Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of Two Hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear; information as to the location of the different bridges; and forms of tender, can be obtained at the offices of the Commissioners or at those of the hief Engineer, at Ottawa, Canada; or at the Banking House of Messrs. Morton, Rose & Co., Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the Bridges, and must state the price of each span f. o. b., at the place of shipment; and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders marked "Tenders for Bridges" and addressed to the Commissioners, at Ottawa, will be received up to 6 O'CLOCK P. M., of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

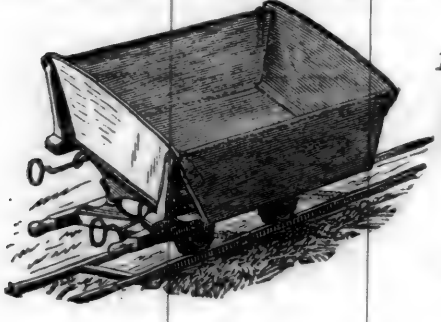
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Railroad Safety Signals.

The old railroad system of signals, so far as based upon the theory that if no danger signal is seen all is right, is about to be entirely reversed, thus making it necessary for an engineer to see safety signals at all points of danger before he can pass those points, and not to depend upon or be looking out for danger signals. From a little pamphlet published by Mr. ASHBEL WELCH, president of the United States Railroad Companies of New Jersey, of the committee appointed for the purpose, and termed a "Report on Safety Signals to the railroad convention held at the St. Nicholas Hotel, New York," several interesting points relative to this generally new system may be gleaned.

It is stated that at all dangerous points, the arrangements there for safety should be presumed to be wrong, unless the engineer has affirmative evidence that they are right, and in such cases safety signals should be used, and not danger signals. If a danger signal is relied upon, and by some carelessness of the official in charge, or by some defect of the apparatus or working, it should not be exhibited, the result is oftentimes a fearful one, while had a safety signal been relied upon, nothing worse than a momentary stoppage of the train could take place.

The force of this argument is shown by a recent disaster in a tunnel in England, where a train was run into by one following, the engineer of which saw no danger signal to prevent his entering, and in turn was also run into by still another train. The Norwalk Bridge disaster is quoted, where an engineer, supposing that bridge to be all right, because not shown to be wrong, ran his engine off the draw, which happened to be open. Mr. Welch claims that had the reverse of the rule now generally in use been adopted, no accident would have happened.

On important double track lines of railroads the recommendation is made that telegraphic signal stations should be established at regular intervals and at short distances apart along the road, and each train should be informed by signal on passing such a station, whether the preceding train going in that direction had passed the next station or not, as in the latter case the following train must not proceed except with great caution. It is stated that no cause of disaster is more frequent on railroads than the running of one train into the rear of another.

The plan above mentioned has been in use for two or more years past between Philadelphia and New Brunswick, on the main passenger route between New York and Philadelphia, and is claimed to be of the greatest use in the prevention of accidents.

For fifteen years past there have been used upon the Belvidere Delaware Railroad draw bridge, signals which can only be exhibited by the insertion of the bolt which fastens down the latch of the bridge, and thus ensures continuity of the track.

For the crossing of trains over other tracks, where both are on the same grade, a plan in use, after much consideration, at the intersection of the Philadelphia and Trenton and the Reading Railroads, is highly recommended. A hollow cylinder, elevated so as to be seen by all concerned, has four openings, one being each way for each road. A revolving light in the centre of the cylinder with two red and two white faces is turned so that when the white light or safety signal is shown to an approaching train on one road, the red lights meaning danger are as a consequence shown to the trains on the other road.

It is particularly recommended that railroad companies see that their brakesmen are well and warmly clothed, as a brakesman sent hurriedly from a warm car, back upon the track with his danger signal, with the thermometer at ten degrees below zero, and called upon to stand there for perhaps an hour, is a very unsafe guard against danger.

The use of flags is objected to as being liable to be blown edgeways to the observer and not noticed. In their place flat surfaces of tin or wood are recommended.

These suggested rules and regulations, if rigorously carried out by railroad companies, could not fail to be of the greatest service to the traveling public at large.

The Wharton Patent Safety R. R. Switch.

THE MAIN TRACK ENTIRELY UNBROKEN AND CONTINUOUS.

This Switch has the following merits:

Both rails of the main track are entirely undisturbed so that the same is unbroken and solid:—therefore, so far as the main track is concerned, switches are entirely dispensed with. This is the only Railroad Switch that accomplishes that most important object.

By thus providing a perfectly solid and continuous track, the shocks and jars which are the unavoidable result of the two open joints left in ordinary switches are done away with, and there is consequently a great saving in wear and tear of the rolling stock, and of the rails themselves at that point.

The amount of damage to the wheels and axles and other parts of trains moving at high speed over these unbroken places in the track cannot well be estimated; and the ends of the two switch rails of an ordinary switch, as well as the two adjoining rails soon get bruised and battered out so as to be unfit for service. The head-plates also are constantly getting out of order, and the crossties require frequent attention to keep them in level. This is particularly the case in winter, when the frost upheaves the ties at these movable portions of the track.

All the above objections are entirely removed by the use of Wharton's Patent Switch.

The great expense of the constant renewal of materials and of the incessant repairs needed to keep up the ordinary switches being thus saved, this invention is of great importance to railroad companies on the ground of economy in the maintenance of the track alone, without reference to the saving effected to the rolling stock, which is probably of even greater account.

This is the only railroad switch in the world that enables railroad companies to grant switch facilities without breaking the main track and endangering the through travel. In this way the local trade, which is always the most reliable, can be encouraged and built up without any detriment to the fast lines competing with other through routes.

These switches will last for a long term of years, as all the wearing parts are made of solid steel, and they are only used by such cars as go into or come out of the siding, for all the trains traveling upon the main track use the main track rails alone.

Having enumerated some of the advantages of this switch on the score of economy, we now

come to the still more important question of safety.

Perfect security is given to trains if the switch is by accident left wrong, nor is there any injury done to the switch itself. This protection is so positive that there is no need of targets or other signals to indicate the position of the switches on double track railroads; while the operating apparatus for switches on single track railroads is so arranged that the switch will not remain set for the siding if the switchman should forget his duty.

Besides the accidents which are constantly occurring from the misplacing of ordinary switches, it has often happened that trains have been thrown from the track by the breaking or bending of the connecting rods or some other part of the moving apparatus. This can never take place with Wharton's Patent Switch as the main track is absolutely immovable being spiked down to the cross-ties.

In conclusion, these switches give absolute protection to the travel on the main track, being no more encumbrance than if they were miles away. This is the case whether the switch is fastened right or fastened wrong, or not fastened at all, but left loose.

ABRAHAM BARKER, *Pres.* } of Wharton Railroad
WM. WHARTON, JR. *Supt.* } Switch Co.

Post Office Box No. 2353.
Office, No. 28 South Third St. } Philadel., Pa.
Factory, Walnut St., below 32nd.

Columbus and Hocking Valley Railroad.

The earnings of this road for the fiscal year ending December 31, 1870, were:

From passengers	$90,995 62
" freight	270,488 16
" mail and express	6,014 21
" mileage of cars and engines	4,003 27
" telegraph	728 14
	$372,229 41

Expenses, viz:

Repairs of road & bridges	$41,675 99	
Repairs of engines and cars	26,425 30	
Transportation expenses	66,531 59	
Fuel, oil, waste and tallow	17,307 81	
Rent, insurance and taxes	8,645 06	
Loss and damage	728 84	
		161,314 39
Net earnings (56⅔ per cent.)		$210,914 82

The company own 12 locomotives, 8 first-class passenger, 3 baggage, 279 eight-wheel coal, 60 box and 26 flat cars; while that owned by private parties and running on the road, consists of 303 eight wheel and 100 four-wheel coal cars. With this equipment, and about 150 other cars furnished by connecting roads, the company were hardly able to supply the demand for cars from four coal banks now in operation, and all the locomotives were worked to their full capacity. The company also own 8 caboose, 15 hand and 10 dirt cars. A number of coal cars, also one switching engine and two or three road engines will be required during the coming year. The Vice-President, in his report, says:

It is with pleasure that I am permitted to report your road complete from Columbus to Athens, seventy-six miles, and also the branch from Logan to New Straitsville, thirteen miles.

The road-bed from Nelsonville to Athens was completed and the track laid by the first of July last, and on the 25th of July your road was opened for business, and has been successfully operated up to this time.

On the 22d day of April your company entered into a contract, agreeing to build a branch road from or near Logan to or near Straitsville, in Perry county, said branch road to be completed by the first day of February, 1871. On the 20th of May, contracts were made for the grading, masonry, bridging and furnishing of ties, and in August for the iron spikes, etc., and on the 7th of December the track was complete to New Straitsville. The first eight miles from Logan is well ballasted with stone and gravel, and the last five miles has a bed of six inches of broken stone on the surface of the road-bed on which the ties are laid, the cold weather preventing the completion of the ballast which will need to be done as soon as the weather will admit. The broken stone for the same is paid for, and is now on the side of the road. As soon as the track was completed to Straitsville, the construction train commenced bringing out coal each day. On the 2d day of January, 1871, the branch was opened for general business, and is now using all the cars that the company can furnish.

During the past year large deposits of iron ore have been found on the line of the branch and at Grove Station. Several hundred tons of ore have been bought by the Columbus Iron Company, to be transported to this city, and from present indications a large business in that article will be done over your road. At New Straitsville there are three coal companies now in operation, and two more on the line nearly ready, and by spring, it is safe to state, that the capacity of the mines will be fully one hundred cars per day.

Your company received from the coal companies and individuals on the branch a subscription to your capital stock of $100,000, which has been paid.

A mortgage has been placed on the branch road for $300,000, and three hundred bonds of $1,000 each issued, of which amount $118,000 have been sold at eighty per cent. and accrued interest, the balance, $182,000, is on hand to be sold, the proceeds to be applied to the payment of the liabilities of your company.

At the time of your last annual meeting there were but two coal companies in operation on the main line, viz: W. B. Brooks and Peter Hayden. In March last, the Hocking Valley Iron, Coal, Coke and Mining Company completed its track (connecting with your road about two miles west of Nelsonville) and commenced shipments of coal. In December, Mr. Longstreth, located one mile east of Nelsonville, connected his track so as to ship direct from his mines, making at this date four companies, with a capacity of at least one hundred and thirty cars per day.

A Chicago company, owning a large tract of coal lands about four miles east of Nelsonville, has purchased its iron and is now grading its track, and will be ready to ship coal within thirty days, which will make five companies on your main line, and with the five on your branch they together will have a capacity of at least two hundred and fifty cars per day.

You will no doubt ask, Where is the market to consume and the equipment to transport so large a supply of coal? My answer is, the best market is your own city of Columbus, as the least amount of equipment will be required for transportation, and which equipment your company will control. And here let me call your attention to the fact of the building of an iron furnace in the city of Columbus during the past year, which is now in successful operation, and is burning Straitsville coal in its raw state (without coking). That one furnace will consume about ninety tons of coal per day, and there is no good reason why ten such furnaces should not be built within a reasonable time. That number, and the manufacturing establishments necessarily following, would make a larger and more reliable market than we have at this time, extending, as it does, from Cleveland to Chicago. Hence the interest every stockholder in this company has to assist in developing the manufacturing interests of the cities of Columbus and Lancaster, and the towns on the line of this road, thereby creating a market for the large amount of coal and iron ore ready to be transported.

The principal markets for the coal at this time are Columbus, Cleveland, Sandusky, Springfield, Dayton and Chicago. To reach these markets requires an average of seven days to make one trip. So that to furnish cars enough for the capacity of your coal companies, which will be in operation within ninety days, will require about 1,750 coal cars, or about one thousand more than you now have. It may be asked, Why do not the connecting roads over which this coal is to pass furnish their proportion of the cars required? I can only answer, that many efforts have been made to induce them so to do, but as yet unsuccessfully except in a small degree. Your company has received more aid in cars from the parties interested in coal, than from all other sources, and is relying at this time upon that source more than on all others.

Your company has purchased and received during the year 3 locomotives from the Hinkley and Williams Works, Boston, making 12 in all; 15 eight-wheel dump cars for coal, from the Cambridge City Car Company; 100 coal cars, 30 box cars, and three caboose cars, from John L. Gill; 6 flat cars and 1 caboose car from Dodge, Case & Co. There has been placed on the road an increase of 26 coal cars by W. B. Brooks; 25 coal cars by P. Hayden; 50 coal cars by E. A. Fitch & Co.; 50 coal cars by Miner T. Ames & Co.; 50 coal cars by C. C. C. & I. Ry. Co.

The large increase of business during the year has taxed the motive power of the road to its utmost capacity, every locomotive being in use; and had it not been for the extraordinary care and success in operating the road, whereby no locomotive has been disabled, the business could not have been done with the motive power of the company.

An increase of motive power will be required within a few months.

During the year four stalls for locomotives and a car-house have been built at Columbus, and on the line station-houses have been built at Salina and Athens, with the necessary water stations, cattle-pens and chutes. An engine-house, has been built at Athens, and one is now being built at Straitsville. So that all of the locomotives and passenger cars are housed and not exposed to the weather.

Several miles of side-track have been made during the past year, and quite an expenditure must be made during the present year in side-tracks, on the line and in this city, in order to do the increasing business.

Quite an expenditure for fencing must be made during this year.

In the report of the Treasurer, herewith annexed, you will see that after disposing of all the bonds, and the proceeds applied to the payment of the liabilities of the company, there will remain liabilities to the amount of about $150,000, which will have to be carried as a floating debt, until paid by the earnings of the company. In the same report your attention is called to the fact that the gross earnings of your road, from its commencement until its completion—amounting to $522,840 41—exceed the operating expenses [$225,395 18], taxes [$15,064 77], interest on bonds [$138,969 12] and interest account [$14,994 81], by $128,416 53.

In the report of the Superintendent, herewith annexed, you will observe the successful working of your road during the year, encountering as it did in the month of January, one of the largest freshets known on the Scioto and Hocking rivers, and having our coal business cut off in the months of May and June by a strike of the miners, thus reducing the earnings of those months to about the expense of operating the road, with your road open through to Athens but five months of the year, and yet the gross earnings amount to $372,229 41, expenses to $161,314 82—leaving, as net earnings, $210,914 82, which is equal to the interest on the bonds of the main line [$1,500,000], and the branch (not yet issued) $300,000, at seven per cent. $126,000, and ten per cent. on all of the stock now issued.

Before closing this report, let me call your attention to the policy adopted by your Board of Directors, which is to do all of its business at low rates—thereby encouraging all manufacturing

and other enterprises on its line, and at the same time cutting off the system of passes, and doing no work either in passenger or freight business without a fair compensation, and earnestly recommending that the same policy be rigidly adhered to in the future, believing that within a reasonable time your property may be made as valuable as any railroad property in the State.

The total number of passengers carried during the year was 113,873; tons of coal, 193,581; tons of iron, 6,428; freight other than coal or iron 38,669. Total mileage of cars, 2,238,200; do., locomotives, 244,386.

Superintendent.—J. W. DOHERTY.

Frederick and Pennsylvania Line R. R.

The Littlestown (Pa.) *Press* says that "the work on the Littlestown section of this road will be completed in a few days to the Maryland line. Major Cyrus Diller, the contractor for this portion of the road, deserves great credit for the early fulfilment of his contract. During the past week Messrs. V. K. Stevenson and H. V. Poor, of New York, visited our city and took a drive over the gradation of the road in company with President Loats and Col. Haydon. They complimented the managers of the road on the economy observed in the construction of the same, and also upon the superior quality of masonry. These visitors are large iron contractors, and are supposed to have visited the road relative to the contract for iron, which will shortly be given out."

Coal Trade of the United States.

We give our readers this week the official returns of the Anthracite Coal Trade of Pennsylvania, and of that portion of the Bituminous Trade that was moved towards the seaboard. The balance of the Bituminous Trade of the country will have to be estimated, and we can only know the quantity mined in 1869 when the official statistics of the census are tabulated in the course of the present year.

The whole product of anthracite coal sent to market in 1870 was 14,846,782 tons, against 13,221,386 in 1869, giving an increase of 1,625,386 tons in 1870.

The product of Semi-Anthracite in 1870 was 521,665 tons, against 430,361 in 1869, giving an increase of 91,304 tons, making the increase of both kinds in 1870, 1,716,690 tons.

The supply of Bituminous, including Foreign importations, moved towards the seaboard in 1870, was 4,589,148 tons against 4,656,569 tons. This shows a decrease of 67,421 tons, making the total supply of coal sent towards the seaboard market, out of the immediate vicinity of the collieries, 19,957,585 tons, making the increase of all kinds in 1870, 1,649,269.

We have no data to give the probable consumption of Bituminous coal in the different regions; but in all the Anthracite Regions it will amount to not less than one ton in four sent to market. This would give a local consumption of Anthracite and Semi-Anthracite in the Counties of Schuylkill, Carbon, Luzerne, Northumberland, Columbia and Dauphin, of 3,842,876 tons. Add this to the supply of Anthracite and Semi-Anthracite sent to market, and it would run the whole production of coal in these counties in 1870 to 19,211,313 tons. The production last year was 15,721,380 tons, which would give an increase in the quantity mined in 1870 of 3,493,010 tons, sent to market and consumed in the coal regions; but from more correct data we are satisfied that the home consumption was underrated last year. On the same data that we give the consumption this year of one ton consumed at home for every 4 tons sent to market, it would give 3,412,444 tons, instead of 2,500,000 consumed last year; this would give an increase mined in 1870, of 2,580,556 tons of Anthracite.

The consumption of coal in the engines at the collieries is immense. Out of 930,100 tons home consumption in Schuylkill county, not less than a half million tons were consumed in the engines used for mining and preparing the coal for market.

We therefore sum up the trade as follows:

Total Anthracite and Semi-Anthracite sent to market

	Tons.
In 1870	15,368,437
In 1869	13,651,740
Total increase in 1870	1,716,690

The total quantity of bituminous coal sent to market, including foreign, was

	Tons.
In 1870	4,589,148
In 1869	5,086,930
Decrease in 1870	67,421

This would give an increase in the supply of all kinds embraced in our tables, sent from the mines towards the seaboard in 1870, of 1,649,269 tons, against 763,230 tons in 1869.

The whole supply of coal produced in the United States in 1870 we give as follows:

	Tons.
Official quantity of the Anthracite sent to market in 1870	15,368,437
Home consumption	3,842,876
Total	19,211,313
Bituminous (official), including 420,683 tons imported	4,589,148
Bituminous mined and consumed in the United States not embraced in our tables	10,800,000
Total product for consumpt'n in 1870	34,600,461

* The whole coal tonnage of the Reading Railroad in 1870, was 3,750,990 tons. The balance was received from other regions, &c., and is reported elsewhere, including 439,181 tons of Bituminous Coal received at Harrisburg.

† The whole coal tonnage of the Lehigh Valley Railroad in 1870 was 3,608,587 tons Anthracite, and 13,847 tons Bituminous Coal, making altogether 3,622,434 tons.

‡ The whole coal tonnage of the Lehigh and Susquehanna Railroad was 1,354,052 tons. The balance is reported by the other companies.

‖ Of this quantity 16.60 tons were sent via Delaware and Hudson Canal.

¶ The total quantity sent to market by the Delaware and Hudson Canal Company for 1870, was 2,226,948 tons, but 187,226 tons were reported elsewhere by other companies. Of the whole quantity, 1,292,675 tons were sent by their Canal, and the balance by Pennsylvania Canal and Rail, North, South and East.

§ The Short Mountain and Lykens Valley Companies were worked separate last year, and produced 183,781 tons. This year they were merged into the Lykens Valley Company, and produced 67,775 tons, and the Big Lick Colliery is a new colliery, which commenced this year. It is worked by the Lykens Valley Coal Company.

** The quantity sent West only over the S. B. N. Central Railroad.

The supply of Anthracite sent to market in 1869 and 1870 was furnished as follows:

	1869. Tons.	1870. Tons.
Wyoming Region	6,068,369	7,599,902
Schuylkill "	4,748,969	3,720,403
Lehigh "	1,929,523	3,040,303
Shamokin "	474,525	486,174
Semi-Anthracite	430,361	421,655
	18,651,747	15,368,437
		13,651,747
		1,716,690

To show the course of the trade and the supply from the different regions, we subjoin the following for reference:

Year.	Schuylkill.	Wyoming.	Lehigh.
1860	3,270,516	2,941,817	1,321,774
1861	2,607,489	3,055,140	1,738,377

1870	3,720,408	7,599,902	3,040,303

—*Pottsville Miners' Journal.*

Finances of Baltimore.

The Annual Report of the City Register, recently presented to the Baltimore City Councils, gives the following statement of the financial condition of that city. It will be seen that the funded debt has been increased $1,146,954 62 during the year, exclusive of $290,000 added to the guaranteed debt:

Consolidated loan, 1890, 6 per cent.	$7,207,632 73
Jail stock, 1873, 6 per cent	98,913 18
Five million loan, 1890, 6 per cent.	5,000,000 00
One million loan, 1886, 6 per cent.	1,000,000 00
City Hall loan, 1884, 6 per cent.	1,000,000 00
Park improvement, 1895, 6 pr. ct.	185,723 80
Consolidated loan, 1893, 6 per ct.	2,211,068 05
Exempt loan, 1893, 6 per cent	410,353 87
Water loan, 1875, 6 per cent	5,000,000 00
Public park loan, 1890, 6 per cent.	555,566 25
Funding loan, 1900, 6 per cent.	699,900 00
Courthouse, 5 per cent.	137,414 84
Consolidated loan, 1885, 5 per cent	891,646 70
Overdue 6 per cent. stock, no interest allowed	906 04
Total funded debt	$24,899,125 47
From which deduct—	
Five million loan—interest paid by B. & O. R. R. Co.	$5,000,000 00
One million loan and funded arrears int., paid by Pittsburg & Connellsville R. R. Co.	2,043,837 94
Water loan int. paid by water board	5,000,000 00
Public park—interest paid by City Pass. Railway Co.	555,566 25

☞ The earnings of the Cincinnati, Sandusky and Cleveland railroad for the six months ending December 31, 1870, were $449,437 01, the expenses $260,229 50, and the net earnings $189,207 51. In the corresponding period of 1869 the earnings were $462,355 55, the expenses, $287,483 67, and the net earnings $174,871 88—showing a decrease in earnings of $12,918 54, with a decrease in expenses of $27,254 17; making the increase in net earnings $14,335 63.

Philadelphia and Erie Railroad.

At the annual meeting of the stockholders of this company held in Philadelphia on the 13th inst., the following gentlemen were elected managers for the ensuing year: Edward F. Gay, J. Edgar Thomson, Wistar Morris, Henry Duhring, Jacob P. Jones, Josiah Bacon, Samuel T. Bodine, John M. Kennedy, Washington Butcher, Henry D. Moore. The following statement represents the earnings and expenses for the year ending December 31, 1870:

Earnings:	
From freight	$2,469,154 52
" passengers	606,438 31
" express	33,111 95
" mails	25,000 00
" miscellaneous	20,339 93
Total	$3,144,044 71
Expenses, viz:	
Conducting transport'n. $712,179 28	
Motive power. 736,926 66	
Maintenance of cars. 260,710 23	
Maintenance of way. 867,912 25	
	2,577,728 42
Leaving as net proceeds	$566,316 29

The earnings in 1869 were $3,186,697 05—showing a decrease of $42,652 34. The number of passengers in 1870 were 806,197; in 1869, 651,038—an increase of 15,159. Total tonnage in 1870, 1,614,197; in 1869, 1,302,041—increase, 312,156. The report then says:

From the above it will appear that, notwithstanding a very fair increase of passengers and freight, the total earnings have been less than the previous year, which is accounted for by the very low freight charges rendered necessary in competition with the Erie Railway, of New York, whose rates were so low as to render the business unprofitable to themselves and injurious to the interests of other companies. It is believed that this policy will soon be abandoned and rates established remunerative to all parties, which can readily be done by mutual agreement and a rigid adherence to the rates adopted.

The following statement represents the account with the Pennsylvania Railroad Company:

Balance due on construction account January 1, 1870	$37,947 37
Am't paid for construction in 1870.	302,757 29
Paid interest on funded debt in 1870	1,060,486 22
For maintaining organization	8,050 26
	$1,409,218 14
Income or net earnings from road. $566,316 29	
Dividends from O. C. & A. R. R. R. stock. 210,000 00	
Interest allowed. 23,337 06	
	799,653 35
Balance due Pennsylvania Railroad company Jan. 1, 1871	$609,564 79

From the above statement it will be seen that, after deducting the sum of $340,731 66 due on construction account, the receipts of the road had fallen short of the amount necessary to pay the working expenses and interest on the funded debt in the sum of $268,833 13. A portion of this deficiency is accounted for in the necessity of paying gold instead of currency for interest on a large portion of our bonds, but the principal part, as before stated, is due to the low rate of freight charges. This will be apparent from the fact that, if circumstances had justified an additional charge of one quarter of one cent per ton per mile on six hundred and fifty-five thousand tons, being nearly the average amount of tonnage carried over the entire road, the receipts would have been sufficient to have paid the working expenses and interest on the funded debt, and leave

a balance of $202,717 to be applied to construction or other purposes.

The report further states that the road has been kept in good condition, and the operating expenses, compared with other roads, quite favorable; that the superintendent expects to make a considerable reduction in the working expenses of the present year; that the improvements made on construction account consist in deepening the slips in the harbor of Erie, the construction of sidings, and the erection of a new round-house for locomotives at St. Mary's; that arrangements are now in progress with a view to a material extension of the business during the present year; and that the stock and bonded debt of the company remain the same as on the 1st of January, 1870.

Pittsburg, Cincinnati and St. Louis R. R.

At the annual meeting of the stockholders of this company, held at Steubenville, Ind., on the 6th inst., the President, Hon. Thomas L. Jewitt, presented the following summary of the earnings and expenses of each of the three divisions controlled by the company, during the year:

PITTSBURG AND COLUMBUS DIVISION.

Earnings	$2,821,124 64
Expenses	2,095,009 80
Net earnings	$726,114 84

The operating expense is 74.26 per cent. of the earnings. There is included in the expenses of the year $135,351, which is properly chargeable to 1869; which amount, deducted from the expenses of 1870, make the working expenses 69.60 per cent. of the earnings. The earnings per mile is $14,617.

INDIANAPOLIS AND CHICAGO DIVISION.

Earnings	$1,506,550 13
Expenses	2,834,152 02
Net earnings	$672,398 11

The operating expense is 80.82 per cent. of the earnings, against 83.35 per cent. for 1869. The earnings per mile is $5,974.

LITTLE MIAMI DIVISION.

Earnings (thirteen months)	$2,024,675 49
Expenses	1,257,938 72
Net earnings	$706,736 77

The operating expense is 62.18 per cent. of the earnings, against 64 per cent. of last year. The earnings per mile is $10,830. We have paid upon the Little Miami lease and rent account as follows:

Annual lease, 8 p. ct. on $6,060,000	$480,000 00
Little Miami and C. & X. R.R. exp'ses	7,504 86
Interest on bonds, etc.	174,205 00
	$661,709 86
Government tax on dividends	$12,405 37
Total	$674,114 78

The following gentlemen were elected directors for the ensuing year: Hon. Thomas L. Jewett, Steubenville, O.; H. J. Jewett, Columbus, O.; Thomas A. Scott, Philadelphia, Pa.; George B. Roberts, Philadelphia, Pa.; William Thaw, Pittsburg, Pa.; H. H. Houston, Philadelphia, Pa.; D. S. Gray, Columbus, O.; Samuel T. Canby, Philadelphia, Pa.; Josiah Bacon, Philadelphia, Pa.; George W. Adams, Dresden, O.; Chauncy Dewey, Cadiz, O.; J. N. McCullough, Pittsburg, Pa.; Joseph Means, Steubenville, O.

The Directors will meet on the first Tuesday of March for the purpose of electing officers for the ensuing year.

Nova Scotia Coal Trade.

The amount of coal mined and shipped in Nova Scotia in 1869 was 578,062 tons, against 462,188 tons in 1868; 542,127 tons in 1867; 684,766 tons in 1866, and 651,256 tons in 1865—an average in the five years of 583,676 tons per annum. In the forth-three years, from 1827 to 1869, inclusive, the total production was 9,028,701 tons—an average per annum of 209,853 tons.

Nova Scotia coal was free of United States duty from 1854 to 1865, and the average annual production of those twelve years was only 333,427 tons.

A monopoly of these coal regions was granted to the Duke of York in 1826, but it was relinquished in August, 1857.

The coal mined in 1869 was produced from the following mines:

	Tons.		Tons.
Joggins	13,391	Gowrie	51,346
Acadia	55,314	International	8,763
Albion	101,509	Lingan	31,948
Intercolonial	60,956	Sidney	107,481
Black Horse	78,626	Victoria	9,973
Caledonia	32,444	20 others, none over 1,000	3,887
Clyde	2,674		
Glance Bay	24,755		
Total			578,062

The coal mined in 1869 was distributed as follows:

	Round.	Slack.
Sold for home consumption	98,727	17,209
Exported to neighboring colonies	114,168	14,929
Exported to other countries	257,729	9,031
Stock not accounted for	29,825	36,444
Total	500,449	77,613

The average number of persons employed in the Nova Scotia collieries in 1869 was 2,458 against 3,639 in 1868; of horses, 310 against 382; steam power, 2,857 horse, against 2,382.

The slack coal is 13½ per cent. of the whole.

Columbus, Chicago and Indiana Central Railway.

The negotiations pending between the Columbus, Chicago and Indiana Central Railway Company and the Pennsylvania Railroad Company have been satisfactorily settled and adjusted, so as to leave the first company free from floating debt. The guarantee of the first mortgage bonds is reaffirmed, as will appear by the following letter, signed by the Presidents of the Pennsylvania Railroad Company and Pittsburg, Cincinnati and St. Louis Railway Company:

To Messrs. W. R. FOSDICK and JAMES A. ROOSEVELT, Trustees, and A. PARKHURST, Esq., Trustee:—

GENTLEMEN—Under the contract and lease of the Columbus, Chicago and Indiana Central Railway, dated January 22d, 1869 as amended by the contract of February 1, 1870, the Pittsburg, Cincinnati and St. Louis Railway Company as lessee, which lease the Pennsylvania Railroad Company has guaranteed, will by the terms of said lease pay the interest as it matures on the $15,000,000 of the first mortgage consolidated bonds of the Columbus, Chicago and Indiana Central Railway Company, or on the bonds which they represent; and on $821,000 of the second mortgage bonds of the Columbus and Indianapolis Central Railway Company, which bonds are secured by deeds of trust made respectively to you. You are therefore authorized to inform the holders of said bonds, and to give such further public notice as you may think proper, that the interest on the said $15,821,000 of bonds will be regularly paid by the Pittsburgh, Cincinnati and St. Louis Railway Company, or the Pennsylvania Railroad Company, according to the tenor of said amended contract and lease.

Yours, very respectfully,
J. EDGAR THOMSON, President.
THOMAS L. JEWETT, President.

PHILADELPHIA, Pa., Dec. 1, 1870.

Philadelphia and Baltimore Central Railroad.

The Board of Managers of this Company has made the following report of its operations for the year ending October 31, 1870:

On June 23, 1870, at the request of the principal creditor of the Company, and the holder of the greater part of its first mortgage bonds, on which the interest coupons were unpaid, the trustee under the mortgage entered into possession of that part of your road situated in Pennsylvania, since which time it has been operated by him.

The Company still retain possession of that part of your road situated in Maryland, and the following report comprises the operations of the entire road to June 23, and that part situated in Maryland since that date. The earnings have been:

From passengers	$75,396.24
" freight	84,555.64
" mail, express and miscellaneous	4,293.52
Total	$164,245.40

The operating expenses have been for maintenance of way, including buildings, motive power, maintenance of cars, transportation, general expenses, taxes, insurance and rent of leased lines $162,191.39

The trustee has furnished the following statement of the road in Pennsylvania, since it has been under his control, from June 23, 1870, to October 31, 1870, inclusive.

Earnings from passengers	$46,563.31
" " freight	39,048.80
" " express, mail and miscellaneous	1,751.86
Total	$87,334.07
Operating expenses as recited above	$83,388.24

The business for the past year shows a fair increase over that of the year preceding. As was expected the expenses have been very heavy, and this must continue for some time to come. Over two miles of new iron have been placed in the track, and well ballasted. The track, bridges, stations, rolling stock, etc., have had all necessary repairs, and several improvements have been made on the extension below the Rising Sun, and on the Chester Creek Railroad, rendered necessary by the increase of business.

New rolling stock, consisting of two engines, one baggage and five passenger cars, three market cars and sixteen gondolas, costing in the aggregate $62,200, has been placed on the road during the year. It has been paid for principally by the issue of first mortgage bonds on the road in Maryland. This is barely sufficient to accommodate the business of the road at this time, and further outlays on this account as well as for land, new buildings, sidings, etc., will be required the coming and each succeeding year to give proper facilities to the increasing business that will naturally come to your road as the country through which it passes increases in population and value.

☞ Hon. Joseph Grinnell of New Bedford has held the post of President of the New Bedford and Taunton Railroad Company since the charter of the road in 1838. It is worthy of mention, too, that he has been President of the First National Bank since its charter as the Marine Bank, in 1832; and also of the Wamsutta Mills since that corporation was started, in 1847.
